In a Time of Monsters Simon and Schuster

A NEW YORK TIMES NOTABLE BOOK OF 2017 From the author of the viral New York Times op-ed column "To Siri with Love" comes a collection of touching, hilarious, and illuminating stories about life with a thirteen-year-old boy with autism that hold insights and revelations for us all. When Judith Newman shared the story of how Apple's electronic personal assistant, Siri, helped Gus, her son who has autism, she received widespread media attention and an outpouring of affection from readers around the world. Basking in the afterglow of media attention, Gus told anyone who would listen, "I'm a movie star." Judith's story of her son and his bond with Siri was an unusual tribute to technology. While many worry that our electronic gadgets are dumbing us down, she revealed how they can give voice to others, including children with autism like Gus—a boy who has trouble looking people in the eye, hops when he's happy, and connects with inanimate objects on an empathetic level. To Siri with Love is a collection of funny, poignant, and uplifting stories about living with an extraordinary child who has helped a parent see and experience the world differently. From the charming (Gus weeping with sympathy over the buses that would lie unused while the bus drivers were on strike) to the painful (paying \$22,000 for a behaviorist in Manhattan to teach Gus to use a urinal) to the humorous (Gus's insistence on getting naked during all meals, whether at home or not, because he does not want to get his clothes dirty) to the profound (how an automated "assistant" helped a boy learn how to communicate with the rest of the world), the stories in To Siri with Love open our eyes to the magic and challenges of a life beyond the ordinary.

ME and MY AFRO Catapult

From Thurber finalist and former star Time columnist Joel Stein

comes a "brilliant exploration" (Walter Isaacson) of America's political culture war and a hilarious call to arms for the elite. "I can think of no one more suited to defend elitism than Stein, a funny man with hands as delicate as a baby full of soft-boiled eggs." —Jimmy Kimmel, host of Jimmy Kimmel Live! The night Donald Trump won the presidency, our author Joel Stein, Thurber Prize finalist and former staff writer for Time Magazine, instantly knew why. The main reason wasn't economic anxiety or racism. It was that he was anti-elitist. Hillary Clinton represented Wall Street, academics, policy papers, Davos, international treaties and the people who think they're better than you. People like Joel Stein. Trump represented something far more appealing, which was beating up people like Joel Stein. In a full-throated defense of academia, the mainstream press, medium-rare steak, and civility, Joel Stein fights against populism. He fears a new tribal elite is coming to replace him, one that will fend off expertise of all kinds and send the country hurtling backward to a time of wars, economic stagnation and the well-done steaks doused with ketchup that Trump eats. To find out how this shift happened and what can be done, Stein spends a week in Roberts County, Texas, which had the highest percentage of Trump voters in the country. He goes to the home of Trump-loving Dilbert cartoonist Scott Adams; meets people who create fake news; and finds the new elitist organizations merging both right and left to fight the populists. All the while using the biggest words he knows.

The future is now--and it is female. Women and women's rights are the key to progress. We believe in the West that we have already solved gender issues; it is the rest of the world that still has a problem. Nothing could be further from the truth! We have to do better. Through his work

as Deputy Prime Minister and Belgian Minister of International Development, Alexander De Croo has discovered that the role of women worldwide is filled with too little opportunity and too much bias. In this book, he makes an impassioned plea for gender equality with data and stories to demonstrate the far-reaching benefits.

From the bestselling author of Tides of Honour and Promises to Keep comes a poignant novel about a young couple caught on opposite sides of the Second World War. In the fall of 1939, Grace Baker 's three brothers, sharp and proud in their uniforms, board Canadian ships headed for a faraway war. Grace stays behind, tending to the homefront and the general store that helps keep her small Nova Scotian community running. The war, everyone says, will be over before it starts. But three years later, the fighting rages on and rumours swirl about " wolf packs " of German U-Boats lurking in the deep waters along the shores of East Jeddore, a stone ' s throw from Grace ' s window. As the harsh realities of war come closer to home, Grace buries herself in her work at the store. Then, one day, a handsome stranger ventures into the store. He claims to be a trapper come from away, and as Grace gets to know him, she becomes enamoured by his gentle smile and thoughtful ways. But after several weeks, she discovers that Rudi, her mysterious visitor, is not the lonely outsider he appears to be. He is someone else entirely—someone not to be trusted. When a shocking truth about her family forces Grace to question everything she has so strongly believed, she realizes that she and Rudi have more in common than she had thought. And if Grace is to have a chance at love, she must not only choose a side, but take a stand. Come from Away is a mesmerizing story of love, shifting allegiances, and second chances, set against the tumultuous years of the Second World War.

WINNER OF THE DANGER PRIZE 2018 John Ibrahim's incredible life story told in his own words. Last King of the Cross lays bare Australia's most notorious underworld figure. In the mongrel tongue of the streets, John writes of fleeing war-torn Tripoli with his family and growing up in Sydney's rough and tumble west - before establishing himself as a tough guy and teen delinquent, then a bouncer, enforcer and nightclub king on the Golden Mile. Bullets fly, blades flash and bodies fall. In a city of shadows, John builds his army and empire - partying like a playboy prince of darkness while staying one step ahead of the cops, the outlaw gangs and hungry triggermen, plotting to take him and his family down. Crazier than Goodfellas, more compelling than The Godfather, Last King of the Cross is a colourful crime saga like no other and powerful proof that truth is always stranger than fiction.

#1 NEW YORK TIMES BESTSELLER • OPRAH'S BOOK CLUB PICK • NATIONAL BOOK AWARD LONGLIST • "An instant American classic and almost certainly the keynote nonfiction book of the American century thus far." —Dwight Garner, The New York Times The Pulitzer Prize – winning, bestselling author of The Warmth of Other Suns examines the unspoken caste system that has shaped America and shows how our lives today are still defined by a hierarchy of human divisions. NAMED THE #1 NONFICTION BOOK OF THE YEAR BY TIME, ONE OF THE TEN BEST BOOKS OF THE YEAR BY People • The Washington Post • Publishers Weekly AND ONE OF THE BEST BOOKS OF THE YEAR BY The New York Times Book Review • O: The Oprah Magazine • NPR • Bloomberg • Christian Science Monitor • New York Post • The New York Public Library • Fortune • Smithsonian Magazine • Marie Claire • Town & Country • Slate • Library Journal • Kirkus Reviews • LibraryReads • PopMatters Winner of the Los Angeles Times Book Prize • National Book Critics Circle Award Finalist • Dayton Literary Peace Prize Finalist •

PEN/John Kenneth Galbraith Award for Nonfiction Finalist • PEN/Jean Stein Book Award Longlist "As we go about our daily lives, caste is the wordless usher in a darkened theater, flashlight cast down in the aisles, guiding us to our assigned seats for a performance. The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not." In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their out-cast of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, Caste: The Origins of Our Discontents is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

The Age of Women EGBG Services LLC

A passionate and deeply personal exploration of feminism during divisive times from one of the founders of Time's Up: actor, filmmaker, and activist Amber Tamblyn. With a new afterword * "A work of personal upheaval and political reckoning." --Rebecca Traister, New York Times bestselling author of Good and Mad Amber Tamblyn has emerged as an outspoken advocate for women's rights. But she wasn't always so bold and self-possessed. In her late twenties, after a particularly low period fueled by rejection and disillusionment, she grabbed hold of her own destiny and entered into what she calls an Era of Ignition--a time of self-reflection that follows in the wake of personal upheaval and leads us to challenge the status quo. In the process of undergoing this metaphysical metamorphosis, she realized that our country is going through an Era of Ignition of its own, and she set about agitating for change by initiating a dialogue about gender inequality. In this deeply personal exploration of modern feminism, she addresses misogyny and discrimination, reproductive rights and sexual assault, white feminism

and pay parity--all through the lens of her own experiences as well as those of her Sisters in Solidarity. At once an intimate meditation and a public reckoning, Era of Ignition is a galvanizing feminist manifesto that is required reading for anyone who wants to help change the world for the better.

Returning to the UK in September 2010 after serving in Iraq as the political adviser to the top American general, Emma Sky felt no sense of homecoming. She soon found herself back in the Middle East travelling through a region in revolt. In A Time of Monsters bears witness to the demands of young people for dignity and justice during the Arab Spring; the inability of sclerotic regimes to reform; the descent of Syria into civil war; the rise of the Islamic State; and the flight of refugees to Europe. With deep empathy for its people and an extensive understanding of the Middle East, Sky makes a complex region more comprehensible. A great storyteller and observational writer, Sky also reveals the ties that bind the Middle East to the West and how blowback from our interventions in the region contributed to the British vote to leave the European Union and to the election of Donald Trump as president of the United States.

The horrific true story of the murder of Jamal Khashoggi in the Saudi consulate: how it happened, why it happened and what happened next Exploring Four Epic Legends of the World Chronicle Books Nella Larsen (1891-1964) occupies a central place in African-American and Modernist literature, and her status as a Harlem Renaissance woman writer is rivaled only by Zora Neale Hurston's. This Norton Critical Edition of Larsen's electrifying 1929 novel is accompanied by Carla Kaplan's insightfully detailed introduction, explanatory annotations, and a Note on the Text "Backgrounds and Contexts" connects Passing to the historical events of the day, most notably the sensational Rhinelander/Jones case of 1925. Fourteen contemporary reviews are reprinted, including those by Alice Dunbar-Nelson, W. B. Seabrook, Mary Griffin, and W. E. B. Du Bois. Little-known documents, including those by Juanita Ellsworth and Caleb Johnson, reveal America's fascination with-and fear of-the cultural phenomenon of passing. Also included are Larsen's statements on the novel and on passing, as well as a generous selection of her letters. The theme of "The Tragic Mulatto(a)" in American literature is explored through related writings by Lydia Maria Child, William

Wells Brown, Kate Chopin, Mark Twain, Countee Cullen, and Langston Hughes, among others. Finally, Joseph Seamon Cotter, Jr., Jessie Redmon Fauset, Countee Cullen, W. E. B. Du Bois, Allen Semi [Nella Larsen], George S. Schuyler, Carl Van Vechten, and Langston Hughes voice their impressions of passing from the perspective of the Harlem Renaissance. "Criticism" provides sixteen diverse interpretations of Passing by, among others, Deborah E. McDowell, Judith Butler, Cheryl A. Wall, Thadious M. Davis, George Hutchinson, Mary Helen Washington, Ann duCille, Gayle Wald, Claudia Tate, and Jennifer DeVere Brody. A Chronology and Selected Bibliography are also included. Book jacket.

When I Grow Up: Coloring Book John Wiley & Sons

The instant New York Times bestseller and companion book to the PBS series. "Absolutely brilliant . . . A necessary and moving work." —Eddie S. Glaude, Jr., author of *Begin Again* "Engaging. . . In Gates' telling, the Black church shines bright even as the nation itself moves uncertainly through the gloaming, seeking justice on earth—as it is in heaven." —Jon Meacham, New York Times Book Review From the New York Times bestselling author of *Stony the Road* and one of our most important voices on the African American experience comes a powerful new history of the Black church as a foundation of Black life and a driving force in the larger freedom struggle in America. For the young Henry Louis Gates, Jr., growing up in a small, residentially segregated West Virginia town, the church was a center of gravity—an intimate place where voices rose up in song and neighbors gathered to celebrate life's blessings and offer comfort amid its trials and tribulations. In this tender and expansive reckoning with the meaning of the Black Church in America, Gates takes us on a journey spanning more than five centuries, from the intersection of Christianity and the transatlantic slave trade to today's political landscape. At road's end, and after Gates' distinctive meditation on the churches of his childhood, we emerge with a new understanding of the importance of African American religion to the larger national narrative—as a center of resistance to slavery and white supremacy, as a magnet for political mobilization, as an incubator of musical and oratorical talent that would transform the culture, and as a crucible for working through the Black community's most critical personal and social issues. In a country that has historically afforded its citizens from the African diaspora tragically few safe spaces, the Black Church has always been more than a sanctuary. This fact was never lost on white supremacists: from the earliest days of slavery, when enslaved people were allowed to worship at all, their meetinghouses were subject to surveillance and destruction. Long after slavery's formal eradication, church burnings and bombings by anti-Black racists

continued, a hallmark of the violent effort to suppress the African American struggle for equality. The past often isn't even past—Dylann Roof committed his slaughter in the Mother Emanuel AME Church 193 years after it was first burned down by white citizens of Charleston, South Carolina, following a thwarted slave rebellion. But as Gates brilliantly shows, the Black church has never been only one thing. Its story lies at the heart of the Black political struggle, and it has produced many of the Black community's most notable leaders. At the same time, some churches and denominations have eschewed political engagement and exemplified practices of exclusion and intolerance that have caused polarization and pain. Those tensions remain today, as a rising generation demands freedom and dignity for all within and beyond their communities, regardless of race, sex, or gender. Still, as a source of faith and refuge, spiritual sustenance and struggle against society's darkest forces, the Black Church has been central, as this enthralling history makes vividly clear.

In Defense of Elitism Pebble Books

"The authors look at art and science together to examine how innovations—from Picasso's initially offensive paintings to Steve Jobs's startling iPhone—build on what already exists and rely on three brain operations: bending, breaking and blending. This manifesto . . . shows how both disciplines foster creativity." —The Wall Street Journal *The Runaway Species* is a deep dive into the creative mind, a celebration of the human spirit, and a vision of how we can improve our future by understanding and embracing our ability to innovate. David Eagleman and Anthony Brandt seek to answer the question: what lies at the heart of humanity's ability—and drive—to create? Our ability to remake our world is unique among all living things. But where does our creativity come from, how does it work, and how can we harness it to improve our lives, schools, businesses, and institutions? Eagleman and Brandt examine hundreds of examples of human creativity through dramatic storytelling and stunning images in this beautiful, full-color volume. By drawing out what creative acts have in common and viewing them through the lens of cutting-edge neuroscience, they uncover the essential elements of this critical human ability, and encourage a more creative future for all of us. "The Runaway Species approach[es] creativity scientifically but sensitively, feeling its roots without pulling them out."

From the bestselling author of *Team of Teams* and *My Share of the Task*, an entirely new way to understand risk and master the unknown. Retired four-star general Stan McChrystal has lived a life associated with the deadly risks of combat. From his first day at West Point, to his years in Afghanistan, to his efforts helping business leaders navigate a global pandemic, McChrystal has seen how individuals and organizations fail to mitigate risk. Why? Because they focus on the probability of something happening instead of the interface by which it can be managed. In this new book, General McChrystal offers a battle-tested system for detecting and responding to risk. Instead of defining risk as a force to predict, McChrystal and coauthor Anna Butrico show that there are in fact ten dimensions of control we can adjust at any given time. By closely monitoring these controls, we can maintain a healthy Risk Immune System that allows us to effectively anticipate, identify, analyze, and act upon the ever-present possibility that things will not go as planned. Drawing on examples ranging from military history to the business world, and offering practical exercises to improve preparedness, McChrystal illustrates how these ten factors are always in effect, and how by considering them, individuals and organizations can exert mastery over every conceivable sort of risk that they might face. We may not be able to see the future, but with McChrystal's hard-won guidance, we can improve our resistance and build a strong defense against what we know—and what we don't.

New York Times bestselling author Julie Lythcott-Haims is back with a groundbreakingly frank guide to being a grown-up What does it mean to be an adult? In the twentieth century, psychologists came up with five markers of adulthood: finish your education, get a job, leave home, marry, and have children. Since then, every generation has been held to those

same markers. Yet so much has changed about the world and living in it since that sequence was formulated. All of those markers are choices, and they 're all valid, but any one person 's choices along those lines do not make them more or less an adult. A former Stanford dean of freshmen and undergraduate advising and author of the perennial bestseller *How to Raise an Adult* and of the lauded memoir *Real American*, Julie Lythcott-Haims has encountered hundreds of twentysomethings (and thirtysomethings, too), who, faced with those markers, feel they 're just playing the part of "adult," while struggling with anxiety, stress, and general unease. In *Your Turn*, Julie offers compassion, personal experience, and practical strategies for living a more authentic adulthood, as well as inspiration through interviews with dozens of voices from the rich diversity of the human population who have successfully launched their adult lives. Being an adult, it turns out, is not about any particular checklist; it is, instead, a process, one you can get progressively better at over time—becoming more comfortable with uncertainty and gaining the knowhow to keep going. Once you begin to practice it, being an adult becomes the most complicated yet also the most abundantly rewarding and natural thing. And Julie Lythcott-Haims is here to help readers take their turn.
