The goal-defining systems. Hemispheric specialization and the higher functions. Storage and retrieval. The minds of men and machines.

Ferry Hill Plantation Journal, January 4, 1838 to January 15 1839 Allen & Unwin

Magnificent stories often originate from humble beginnings. And so it is with Elfin Sports Cars. Built in a Besser Block factory in suburban Adelaide, Elfin's products were at the vanguard of competitive Australian motorsport from the late 1950s until the premature death of founder Garrie Cooper, at just 46 years of age, in 1982. From spritely closed-wheel sports cars to ferocious V8-powered Formula 5000s the greatest Australian drivers of the time - including Vern Schuppan, John McCormack, Larry Perkins, John Bowe, Frank Matich, Kevin Bartlett and Spencer Martin, and international luminaries, Formula One World Champion, James Hunt, and Ferrari ace, Didier Pironi - drove Elfin to 29 major Australian titles, along with winning the Singapore, Malaysian, and New Zealand Grands Prix along the way. Today almost every Elfin built remains extant and many are still competing in historic motorsport, the ultimate testament to the skilful engineering and incredible ingenuity of Elfin Sports Cars. With a foreword by ex-Formula One driver and Le Mans 24-Hour winner, Vern Schuppan AM, Elfin: The Spirit of Speed goes behind the legend to expose the extraordinary tales, many yet untold, from those closest to the manufacturer: family members, drivers, team members, employees, and Elfin owners; in fact more than 50 interviews were conducted by author, David Dowsey. Specially commissioned studio photography by Richard Weinstein, along with period historic images bring the story to life, while extremely high production values - and an imposing 704 page count - create a fitting legacy to this great Australian story.

Vehicle maintenance.

The Cumulative Book Index

This book is a record in the lives of the Polich — Katavich families who struggled with a meagre existence in Yugoslavia before migrating to Australia. It details their lives in Australia and the struggles that most migrant families endured in the period before and immediately after the Second World War There is also a brief history of the country of their birth and its progress in the world after the defeat of the Austro — Hungarian and Nazi empires. It details also the extreme hardships of living in an occupied country. The later part of the book describes the life of the author and his family and relations and the achievements attained as intended by their parents when they decided to migrate. The title was derived from the answer to a question that the authors Grandmother posed to her daughter. Is the grass greener on the other side?

Popular Science

Allan Moffat is one of the legends of Australian motor sport. His extraordinary driving career, which lasted from the mid-1960s to the late 1980s, coincided with the heyday of touring car racing. His achievements included 32 Australian Touring Car wins, four of them at Bathurst, and four Championships. His Trans Am Mustang, surely the definitive racing touring car of all time, claimed more than 100 victories. But Moffat's impact went well beyond the winner's podium. He brought a new level of business professionalism to motor racing, pioneering the use of sponsorship in a way that would change the sport forever. Moffat, intense, reserved and driven, has been known as a man of few words. For years motor-sport fans have wanted to hear his story, and now Allan is telling it for the first time. His book is the compelling account of a young Canadian who moved to Australia with his family as a boy and became one of our greatest racing drivers. It's a tale of the epic rivalry with Peter Brock, which surprisingly culminated in a driving partnership and huge mutual respect, and it's about nostalgia for the glory days of motor sport in this country, when the concept of Holden versus Ford really did divide the nation, and when Mount Panorama was the true Mecca for hundreds of thousands, if not millions, of Australians. Filled with intense rivalries, huge egos, on-course stories and incidents, and all against the backdrop of our motor sport history over more than forty years, this is THE book for all fans of Australian motor racing.

The Examiner

Popular Science gives our readers the information and tools to improve their technology and their world. The core belief that Popular Science and our readers share: The future is going to be better, and science and technology are the driving forces that will help make it better.

100 Years of GM in Australia

The role of large-scale business enterprise—big business and its managers—during the formative years of modern capitalism (from the 1850s until the 1920s) is delineated in this pathmarking book. Alfred Chandler, Jr., the distinguished business historian, sets forth the reasons for the dominance of big business in American transportation, communications, and the central sectors of production and distribution.
