It takes a strong man to resist the strange allure of a Holden Piazza, and at the age of eight, lying on his parents' lounge room floor watching Sale of the Century, Chris Warr didn't stand a chance. An unhealthy obsession was born. The Holden Piazza, a glossy black wedge-bonneted sports car, was the ultimate prize of prizes on Australia's richest quiz show. Unfortunately it was also frequently the butt of jokes from motoring critics and the general public alike. Its launch in 1986 attracted comments such as, 'Holden Piazza; the answer to the question nobody asked' and 'exhilarating in the hands of an experienced driver . . . dangerous in the hands of others'. So it's not surprising that less than 200 new Holden Piazzas were sold in Australia, and less than 80 are still on Australian roads today. Chris lived with his hidden shame for over a decade, until fate led to a meeting with Joe Kremzer, a fellow Piazza aficionado and a dream was born. Together, they would go in search of the Holden Piazza - indeed they would go in search of the Holden Piazza IN a Holden Piazza - travelling the length and breadth of Australia seeking out owners past and present of this iconic if much maligned vehicle. Their quest results in a quirky, laugh-out-loud adventure, in the tradition of Tony Hawkes (Round Ireland With A Fridge) and Dave Gorman. A rollicking great read for all motoring tragics and anyone who likes a beer and a laugh, In Search of the Holden Piazza is as Australian as pie and sauce or a beat-up FJ Holden.

THE first of an exciting new book series from the V8 Sleuth team, 'Bathurst: Every Car, The Photographic History, 1990-1999' is a must-have for any motorsport fan. This 256-page hardcover collector's book brings to life 'The Great Race' in the 1990s and, at its core, includes a photo of every single car to compete in the Bathurst 1000 in the 1990s across the Group A, five-litre V8, Super Touring and V8 Supercar categories. In addition to the cars that took the start on race day, this book also includes images of those cars that didn't start the race despite taking part in practice and/or qualifying. This series of books has been inspired by V8 Sleuth's sold-out books from previous years documenting every Holden and every Ford to compete in the Bathurst 1000. In addition to Holden and Ford, a variety of manufacturers take centre stage within the pages of this book focused on the 1990s. BMW, Toyota, Nissan, Audi, Volvo and many more will bring readers many amazing memories of the cars that have tackled Mount Panorama. Also included in the special publication is: -Information on each car's photo, with driver names, team names, make and model, race times, qualifying times and positions and assorted notes listed for each. -An introduction chapter for each year's race, from the 1990 Tooheys 1000 right through to the 1999 FAI 1000. -A dedicated statistical section breaking down the achievers in the Bathurst 'Great Race' from 1990 to 1999. As a special bonus, the 1999 Bob

Jane T-Marts Bathurst 500 for Super Tourers is also included in the book alongside the 1000-kilometre races with images of every car from that often over-looked race. This is a unique Bathurst book that is a must-have for the collection of hardcore and casual motorsport and Bathurst 1000 fans alike. This book is the first in a new series of publications by the V8 Sleuth team that will focus on the history of the Bathurst 'Great Race' by decade and based upon the 'every car, every race' format.

Based on the popular Artech House classic, Digital Communication Systems Engineering with Software-Defined Radio, this book provides a practical approach to quickly learning the software-defined radio (SDR) concepts needed for work in the field. This up-to-date volume guides readers on how to quickly prototype wireless designs using SDR for real-world testing and experimentation. This book explores advanced wireless communication techniques such as OFDM, LTE, WLA, and hardware targeting. Readers will gain an understanding of the core concepts behind wireless hardware, such as the radio frequency front-end, analog-to-digital and digital-to-analog converters, as well as various processing technologies. Moreover, this volume includes chapters on timing estimation, matched filtering, frame synchronization message decoding, and source coding. The orthogonal frequency division multiplexing is explained and details about HDL code generation and deployment are provided. The book concludes with coverage of the WLAN toolbox with OFDM beacon reception and the LTE toolbox with downlink reception. Multiple case studies are provided throughout the book. Both MATLAB and Simulink source code are included to assist readers with their projects in the field.

This book is a record in the lives of the Polich - Katavich families who struggled with a meagre existence in Yugoslavia before migrating to Australia. It details their lives in Australia and the struggles that most migrant families endured in the period before and immediately after the Second World War. There is also a brief history of the country of their birth and its progress in the world after the defeat of the Austro - Hungarian and Nazi empires. It details also the extreme hardships of living in an occupied country. The later part of the book describes the life of the author and his family and relations and the achievements attained as intended by their parents when they decided to migrate. The title was derived from the answer to a question that the authors Grandmother posed to her daughter. Is the grass greener on the other side?
