Preservation Plan Springer Nature

"This volume details the contributions of cavalry units during the spring campaign of 1863. Although the work discusses early encounters such as the Battle of Chancellorsville, the main focus is the Battle of Brandy Station, which marked the opening of the Gettysburg campaign and Lee's last offensive into the North"--Provided by publisher.

Preparing for The Occupational Therapy Assistant National Board Exam: 45 Days and Counting

Brooks/Cole

This computer program manual describes in two parts the automated combustor design optimization code AUTOCOM. The program code is written in the FORTRAN 4 language. The input data setup and the program outputs are described, and a sample engine case is discussed. The program structure and programming techniques are also described, along with AUTOCOM program analysis.

Popular Mechanics Jones & Bartlett Publishers

The goal of this Handbook is to describe the current assessment strategies and related best practices to professionals who serve individuals from diverse cultures or those who have difficulty using the English language. It will be a valuable resource for school psychologists, special educators, speech and hearing specialists, rehabilitation counselors, as well as graduate-level students of school psychology and child and family psychology.

IAPX 86, 88 User's Manual Excel Books India

Preparing for the Occupational Therapy National Board Exam: 45 Days and Counting, Second Edition is a comprehensive overview for occupational therapist students preparing to take the National Board for Certification in Occupational Therapy (NBCOT) OTR exam. It utilizes a well-received health and wellness focus and includes tips and self-assessment forms to develop effective study habits. Unlike other OTR examination review guides, this text chooses to provide a more structured and holistic approach, including a detailed calendar and plan of study for the 45 days leading up to the exam.

Forthcoming Books Springer Science & Business Media

"This textbook provides an introduction to programming and problem solving using both Matlab and Mathcad. We provide a balanced selection of introductory exercises and real-world problems (i.e. no " contrived " problems). We include many examples and screenshots to guide the reader. We assume no prior knowledge of Matlab or Mathcad."--Publisher's description.

My Book of Letters and Numbers

Annotation "From Rat Pants to Eagle and Tweeds is James Morrison's firsthand account of experience growing up in the segregated South, his attitudes and approaches to the military as a cadet at the Virginia Military Institute, and his years as a history teacher at York College in Pennsylvania." "Morrison attended several army service schools; served as a midshipman before and after World War II completed several overseas tours, including service is an American adviser to a Vietnamese Infantry division, 1964-65; obtained an M.A. in history from the University of Virginia and a doctorate from Columbia University; and served on the history faculty at the United States Military Academy at West Point for eleven years." "Morrison shares his critique of the army, West Point, and teaching, along with his assessment of the present status of American life and his attitudes toward the quality and effectiveness of army officer education and training. He analyzes some of the pitfalls and the strengths of preparing U.S. military organizations for service now and in the future, and he furnishes the reader with insights into how history is taught at a typical American college." "It is a significant contribution to the study of American military history and will be of interest to military officers, military educators and historians, and alumni of the Virginia Military Institute and West-Point."--BOOK JACKET.
