Homeschooling Grammar, Vocabulary and SAT prep. Advanced Language Arts for High School Students A complete English curriculum, ideal for 10th, 11th or 12th grade. This book is designed to teach practical writing skills on a "college-prep" level. Students preparing for college placement tests will benefit from the unforgettable learning experiences that they will discover in this workbook. Though this book is excellent in terms of preparing your student for high level learning, it is also very practical for teens who want to become writers. This course covers: Historical

Fiction Advanced English Language Arts Creative Writing Rhetoric Writing Techniques Grammar PROLOGUE "Life, Liberty, and the Pursuit of... Rhetoric!" Enhancing your language efficiency through the art of rhetoric is an achievable task. It is not exclusive to the elect of a society, nor is it a trait known only by the wise or seemingly infallible. In fact, to smarten yourself in this area is not at all problematic. Rhetoric by nature is manifold, containing within itself a numerous and diverse assortment of constituents. The component we will be most often exploring is that which pertains to prose. Our focus will be on learning to edify the listener or reader with a beautiful and stylistic word set. The art of language has been modeled for us throughout the ages by countless Greek and Latin speaking philosophers and even by the bishops of the early Catholic Church. However, not every example is what we would call "shining". Many have sought for an occasion to use it as a means to peacock their affluent wellspring of education upon the neophytes of their day and age, as well as to impress colleagues. Its purpose, I'm sure, was to put on display an alluring outward aesthetic even if the content of their ideology was considered, by certain others to be, in reality, purely detrimental balderdash. Hopefully, this brief study in language will spur you on to greater degrees of thought. It is my wish that you might feel inspired enough to continue educating yourself long after your time with this book is finished. Vocabulary and grammar are some of the fundamental pillars of our everyday lives. Quite truthfully, if

you desire to obtain understanding, you will. We are, after all, living in the day of knowledge, where all the information necessary for our daily lives can easily be accumulated in mere moments. Therefore, you don't need me to tell you anything! But perhaps, you just need a nudge in the right direction. IMPORTANT: Things you will need for this course!
