"Builders of Ohio is composed of twenty-four essays that use biography to explore Ohio's history. Collectively, they provide a historical overview of the state's development from George Croghan's search for fame and fortune on the seventeenth-century frontier through Dave Thomas's more recent creation of a fast-food empire. Each chapter also addresses important events and transformations in the state's history such as: European settlement; Native American resistance; the creation of territorial and state governments; the development of the state's educational and economic institutions; the disruption created by the Civil War; the struggle of African Americans and women to participate in Ohio's public

life; efforts to ameliorate the pernicious effects of industrialization; the negotiation of the state's role in a nation increasingly dominated by the federal government; or the ramifications of de-industrialization and rise of a service economy.

And as if all that weren't enough, she must put up with her gregarious and over-bearing 67-year-old mother as a housemate. Afraid that if this goes on, she'll finally unravel completely, Anviksha decides that she needs a break - a Bollywood style, solo-trip across Europe kind of break. What she doesn't expect is that her mother, Smita Punjabi, will insist on coming along. The unlikely duo embarks on a journey complete with nudists, an unwelcome blast from the past, a British dog named Bhindi, and several eligible bachelors, and slowly, what was supposed to be a soul-searching journey for one, turns into a life-altering experience for two.

"Local editors Schaper and Horwitz have assembled a noteworthy collection of noir-infused stories mixed with laughter... The Akashic noir short-story anthologies are avidly sought and make ideal samplers for regional mystery collecting." --Library Journal

"The best pieces in the collection turn the clichés of the genre on their head . . . and despite the unseemly subject matter, the stories are often surprisingly funny." —City Pages (Minneapolis) Brand-new stories from John Jodzio, Tom Kaczynski, and Peter Schilling, Jr., in addition to the

original volume's stories by David Housewright, Steve Thayer, Judith Guest, Mary Logue, Bruce Rubenstein, K.J. Erickson, William Kent Krueger, Ellen Hart, Brad Zellar, Mary Sharratt, Pete Hautman, Larry Millett, Quinton Skinner, Gary Bush, and Chris Everheart.

"St. Paul was originally called Pig's Eye's Landing and was named after Pig's Eye Parrant--trapper, moonshiner, and proprietor of the most popular drinking establishment on the Mississippi. Traders, river rats, missionaries, soldiers, land speculators, fur trappers, and Indian agents congregated in his establishment and made their deals. When Minnesota became a territory in 1849, the town leaders, realizing that a place called Pig's Eye might not inspire civic confidence, changed the name to St. Paul, after the largest church in the city . . . Across the river, Minneapolis has its own sordid story. By the turn of the

---

twentieth century it was considered one of the most crooked cities in the nation. Mayor Albert Alonzo Ames, with the assistance of the chief of police, his brother Fred, ran a city so corrupt that according to Lincoln Steffans its 'deliberateness, invention, and avarice has never been equaled.' As recently as the mid-'90s, Minneapolis was called 'Murderopolis' due to a rash of killings that occurred over a long hot summer . . . Every city has its share of crime, but what makes the Twin Cities unique may be that we have more than our share of good writers to chronicle it. They are homegrown and they know the territory--how the cities look from the inside, out . . ."

Lance Out Loud Glitterati Acupuncturist and herbalist Aimee Raupp, M.S., L.Ac., offers a holistic plan for healing from autoimmune disease through reconnection to yourself, renewal of your beliefs, and reawakening of your health. This book will guide you on a life-changing path to radically shift your health and love your body more. Raupp posits that the rampant rise in autoimmune illness is due to three co-existing factors: body disconnect (a loss of connection to the spiritual, emotional, and physical aspects of self, resulting in systemic body chaos), behavioral sabotage (where deep-rooted beliefs negatively dictate your

---

behavior, which dictates your health), and environmental toxins (exposure to external disease-promoting elements). With warmth, sensitivity, and practicality, Raupp will help you to resurrect your full potential to happily and gracefully inhabit your body and mind. As you follow Raupp ' s two-phase Body Belief diet and Body Belief lifestyle roadmap, your health will begin to thrive, both inside and out. Included are a diet plan, shopping lists, menus, meditations, mantras, and DIY and commercial suggestions for bath, beauty, and home products for self-care.

American diners began to flock to Chinese restaurants more than a century ago, making Chinese food the first mass-consumed cuisine in the United States. By 1980, it had become the country's most popular ethnic cuisine. Chop Suey, USA offers the first comprehensive interpretation of the rise of Chinese food, revealing the forces that made it ubiquitous in the American gastronomic landscape and turned the country into an empire of consumption. Engineered by a politically disenfranchised, numerically small, and economically exploited group, Chinese food's tour de America is an epic story of global cultural encounter. It reflects not only changes in taste but also a growing appetite for a more leisurely lifestyle. Americans fell in love with Chinese food not

because of its gastronomic excellence but because of its affordability and convenience, which is why they preferred the quick and simple dishes of China while shunning its haute cuisine. Epitomized by chop suey, American Chinese food was a forerunner of McDonald's, democratizing the once-exclusive dining-out experience for such groups as marginalized Anglos, African Americans, and Jews. The rise of Chinese food is also a classic American story of immigrant entrepreneurship and perseverance. Barred from many occupations, Chinese Americans successfully turned Chinese food from a despised cuisine into a dominant force in the restaurant market, creating a critical lifeline for their community. Chinese American restaurant workers developed the concept of the open kitchen and popularized the practice of home delivery. They streamlined certain Chinese dishes, such as chop suey and egg foo young, turning them into nationally recognized brand names.
