Cisco Hosted Collaboration Solution (HCS) provides industry-leading cloud collaboration services from Cisco-powered partners. If you have an on-premises Cisco Unified Communications Manager (CUCM) based collaboration solution or aging premises communications equipment, HCS provides a clear migration path to cloud-based collaboration.

VoIP for Small Business - Cisco

The company has been in service since 2005, privately owned and fast-growing. We are a wholesale VoIP provider, so our platform generates profit margins up to 75%. We only provide our VoIP hosted platform services to Resellers and Service Providers. We don't sell to end customers or compete with our resellers and partners. Choose Your VoIP Platform

The most significant benefit of cloud services compared to hosted services is the scalability of solutions while remaining relatively affordable for most businesses. When selecting cloud services, the expenses related to the equipment and maintenance of the data center or colocation facility are spread across everyone within the facility.
