Winner of the Saturnalia Books Poetry Prize, selected by Ross Gay. (2017) At the core of Libby Burton's highly anticipated debut poetry collection, *Soft Volcano*, are the vivid details underpinning the relationships we hold dearly in our lives. A feminist force, highly wrought and impressionistic, surges from these

intensely lyric distillations that show us what we look like standing in the hallways of the museum of lost love--where we stand, how our hair looks, what marks of woe and time are left upon the body after love is strained or abandoned. *Soft Volcano* is a book of vivid and crushing lyric poems, each one a swell of danger, beauty, and truth.

11 days. 13 clues. And one kid who won't give up. *Smack Dab in the Middle of Maybe* is "part treasure hunt, part wilderness adventure, and all heart" (Alan Gratz, *New York Times* bestselling author of *Refugee*). How far would you go to find something that might not even exist? All her life, Cricket's mama has told her stories about a secret room painted by a mysterious artist. Now Mama's run off, and Cricket thinks the room might be the answer to getting her to come back. If it exists. And if she can find it. Cricket's first clue is a coin from a grown-over ghost town in the woods. So with her daddy's old guidebook and a coat full

of snacks stolen from the Cash 'n' Carry, Cricket runs away to find the room. Surviving in the woods isn't easy. While Cricket camps out in an old tree house and looks for clues, she meets the last resident of the ghost town, encounters a poetry-loving dog (who just might hold a key to part of the puzzle), and discovers that sometimes you have to get a little lost . . . to really find your way. 2020 Mississippi Library Association Children's Author Award 2019 Southern Book Award Winner--Children's Category "A tale of adventure, full of mystery." --Robert Beatty, New York Times bestselling author of *Serafina and the Black Cloak* "An unforgettable story about a gutsy girl who will steal your heart." --Kathleen Glasgow, New York Times bestselling author of *Girl in Pieces* "Lyrical and endearing, this debut is a genuine adventure tale." --Kirkus Reviews, Starred Colour Oxford English Dictionary Penguin UK Our Big Cool USA Big Activity Book Gallopade International

The mutiny on HMS Bounty, in the South Pacific on 28 April 1789, is one of history's truly great stories - a tale of human drama, intrigue and adventure of the highest order - and in the hands of Peter FitzSimons it comes to life as never before. Commissioned by the Royal Navy to collect breadfruit plants from Tahiti and take them to the West Indies, the Bounty's crew found themselves in a tropical paradise. Five months later, they did not want to leave. Under the leadership of Fletcher Christian most of the crew mutinied soon after sailing from Tahiti, setting Captain William Bligh and 18 loyal crewmen adrift in a small open boat. In one of history's great feats of seamanship, Bligh navigated this tiny vessel for 3618 nautical miles to Timor. Fletcher Christian and the mutineers sailed back to Tahiti, where most remained and were later tried for mutiny. But Christian, along with eight fellow mutineers and some Tahitian men and

women, sailed off into the unknown, eventually discovering the isolated Pitcairn Island - at the time not even marked on British maps - and settling there. This astonishing story is historical adventure at its very best, encompassing the mutiny, Bligh's monumental achievement in navigating to safety, and Fletcher Christian and the mutineers' own epic journey from the sensual paradise of Tahiti to the outpost of Pitcairn Island. The mutineers' descendants live on Pitcairn to this day, amid swirling stories and rumours of past sexual transgressions and present-day repercussions.

Mutiny on the Bounty is a sprawling, dramatic tale of intrigue, bravery and sheer boldness, told with the accuracy of historical detail and total command of story that are Peter FitzSimons' trademarks.

Though left uncompleted, "Kubla Khan" is one of the most famous examples of Romantic era poetry. In it, Samuel Coleridge provides a stunning and detailed example of the power of the poet's imagination through his whimsical description of Xanadu, the capital city of Kublai Khan's empire. Samuel Coleridge penned "Kubla Khan" after waking up from an opium-induced dream in which he experienced and imagined the realities of the great Mongol ruler's capital city. Coleridge began writing what he remembered of his dream immediately upon waking from it, and intended to write two to three hundred lines. However, Coleridge was interrupted soon after and, his memory of the dream dimming, was ultimately unable to complete the poem.

Poetry. "DARKLING is a book-length sequence of elegiac fragments, obsessive ruminations on the lives of the poet's Polish-Jewish parents, grandparents, as well as her own, filtered through the eyes of an extraordinarily clear-eyed contemporary witness. It would be easy to sentimentalize the events portrayed - the childhood memory, for example, of nearly losing one's little brother because of one's own carelessness - but Rabinowitz's technical brilliance, allusive texture, verbal and rhythmic precision, and especially her self-irony give these lyrics their razor edge, their air of hard-earned authenticity. This is a deeply moving book" - Marjorie Perloff.

Benefits of Volcano Monitoring Far Outweigh Costs Good Year Books Winner of the 2021 Silver Medal for Best Illustrator, Moonbeam Children's Book Awards On a school trip to Honolulu's Bishop Museum, Manu and his classmates are excited to see an ancient skirt made with a million yellow feathers from the 'Ōmānū, a bird native to Hawai'i that had gone extinct long ago. Manu knew his full name, Manu 'Ōmānū mauloa, meant "May the 'Ōmānū bird live on" but never understood: Why was he named after a native forest bird that no longer existed? Manu told his parents he wanted to know more about 'Ōmānū birds and together they searched the internet. The next day, his teacher shared more facts with the class.

There was so much to learn! As his mind fills with new discoveries, Manu has vivid dreams of his namesake bird. After a surprise visit to Hawai'i Island where the family sees native forest birds in their natural setting, Manu finally understands the meaning of his name, and that he can help the birds and promote a healthy forest. Manu, the Boy Who Loved Birds is a story about extinction, conservation, and culture, told through a child's experience and curiosity. Readers learn along with Manu about the extinct honeyeater for which he was named, his Hawaiian heritage, and the relationship between animals and habitat. An afterword includes in-depth information on Hawai'i's forest birds and featherwork in old Hawai'i, a glossary, and a list of things to do to help. Illustrated with eye-catching, full-color block prints, the book accurately depicts and incorporates natural science and culture in a whimsical way, showing how we can all make a difference for wildlife. The book is also available in a Hawaiian-language edition, 'O Manu, ke Keiki Aloha Manu, translated by Blaine Namahana Tolentino (ISBN 9780824883430).

The Earth is a solid structure on which we live, but it is not unchanging. Forces inside Earth constantly change both the inside and outside of the planet we call home. When students consider the concept of structures, they will discover that the word has many meanings. The books in Prufrock's new Differentiated Curriculum Kits employ a differentiated, integrated curriculum based on broad themes. This all-in-one curriculum helps teachers save planning time, ensure compliance with national standards, and most importantly, pique their students' natural excitement and interest in discovery. By participating in the wide variety of activities in the Differentiated Curriculum Kit for Grade 5, students will discover the structures around them and gain a lifelong desire to learn. In *Structures Book 3: Government, Cycles, and Physics*, students will explore cycles in time, business, monetary value, and life. A study of Tuck Everlasting will cause students to realize that a break in the normal life cycle might not be in our best interest. Students also look at structures within the topics of electricity and magnetism, and the relationship between the two.
