SPOTLIGHTING CLASSIC ARTICLES
Original research findings and
reviews spanning all aspects of
the science and technology of
casting Since 1971, The
Minerals, Metals & Materials
Society has published the Light
Metals proceedings.

Highlighting some of the most
important findings and insights
reported over the past four
decades, this volume features
the best original research
papers and reviews on cast shop
science and technology for
aluminum production published
in Light Metals from 1971 to
2011. Papers have been divided
into ten subject sections for
ease of access. Each section

has a brief introduction and a list of recommended articles for researchers interested in exploring each subject in greater depth. Only 12 percent of the cast shop science and technology papers ever published in Light Metals were chosen for this volume. Selection was based on a rigorous review process. Among the papers, readers will find landmark original research findings and expert reviews summarizing current thinking on key topics at the time of publication. From basic research to industry standards to advanced applications, the articles published in this volume collectively represent a complete overview of cast shop science and technology, supporting the work of students, researchers, and engineers around the world.

Escape to the idyllic Åland Islands with this small-town romance series. Follow Alicia and the interconnected stories of her family and friends as they navigate the twists and turns of life and love, with secrets, surprises, tragedy, and plenty of passion along the way. Alicia, a journalist from London, travels to a small island in the Baltic Sea where she grew up to heal her broken heart. She begins to investigate a mysterious death and ends up getting involved in a passionate love affair. Her mother, Hilda, as well as her friends, Brit and single mom Frida, all get entangled in the long-held secrets of the island. The boxset includes six full-length novels: 1. The Island Affair 2. An Island Christmas 3. The Island Daughter 4. An Island Summe 5. The Island Child 6. An Island Heatwave With vivid

characters, richly detailed settings, and expertly woven plots, the Love on the Island series is a must-read for all small-town romance fans. Get all the novels in this bumper ebook box set with over 1,500 pages of "sensational fiction" (NetGalley) today!

Golf is perhaps the most complicated simple game ever invented. Watching the professionals gives you only a glimpse of the complexity of what is happening, with each shot involving biomechanics, aerodynamics, ballistics, materials science, probability, even meteorology. Golf Science takes a timely new look at the game by investigating the scientific wonders that transfer the ball from tee to hole. Each chapter investigates a different area of the game and is organized around a series of Q&As. What is the optimum length for a driver? How does backspin work? The answers and the data are presented through illuminating info-graphics. The perfect way to analyse your own kit and technique, by studying the techniques of the professionals and the latest innovations in design and coaching. Golf Science is the ultimate accessory for any golfer wishing to understand their craft.

Introduction to Optics is now available in a re-issued edition from Cambridge University Press. Designed to offer a comprehensive and engaging introduction to intermediate and upper level undergraduate physics and engineering students, this text also allows instructors to select specialized content to suit individual curricular needs and goals. Specific features of the text, in terms of coverage beyond traditional areas, include extensive use of matrices in dealing with ray tracing, polarization, and multiple thin-film interference; three chapters devoted to lasers; a separate chapter on the optics of the eye; and individual chapters on holography, coherence, fiber optics, interferometry, Fourier optics, nonlinear optics, and Fresnel equations.
