On paper the DSG transmission in the GTI is a \$1,100 option above the manual. However it looks like among dealers in my area (Texas), the MTs are much more rare (except in Golf R) and almost invariably they cost \$1000 MORE than DSG, not less. I assume this is related to supply and demand, as most people choose auto I think.

That said, in manual mode, driven with the same process as a manual, it was fun, and the DSG farts

are fantastic. The manual has better throttle response, but the clutch is typically German (long). The gearbox itself is better than the rubbery shifters you got from BMW or VW in the past, but it's definitely not as precise and short as Honda's 6-speed. Obviously, manual is more engaging, with the downside being you can't

disengage when you're stuck in traffic.
