Everything you need to troubleshoot, service, & repair the diesel engine & its direct-cylinder fuel injection system! This manual is just as thorough as our other two Rabbit/Jetta/Scirocco/Pickup Truck service manuals, but focuses exclusively on diesel models. We eliminated information covering the gasoline engine, fuel-injection, & other subjects that don't apply to diesel engine models. Removing this potentially confusing material allows us to cover particular features of the diesel models in greater depth. You'll find testing, troubleshooting & repair

steps for everything from diesel fuel injection adjustment to the oil cooler used on models with automatic transmission &/or Turbo-Diesel engines.

"The Child's Play VW Polo" explains, step by step, with a picture for each, how to do the service of your VW Polo. It is based on the certainty that everyone can do it, if clearly explicated and shown. Because it is very simple. Make sure your Polo is from 2001 to 2009 and has an engine 1.4 TDI 51, 55 or 59 kw. These are the engines covered by this VW Polo service manual. It contains an accurate list of the tools you need, a detailed procedure to do your service, but also to check and replace your front brakes (pads and discs). You will see an

example of the service book you should keep up to date, and the scheduled maintenance for all the tasks that have to be done to keep your car in the best conditions. The main goal is to save money. For each maintenance, it will cost you from 35€ to 50€ maximum, while it costs more than 200€ at your car dealer. You save at least 150€ per service. More than money, you save time here ! We assure you that after the first learning, you will not need more than 30 minutes! Better than go to the car dealer and wait for two hours. The Child's Play Maintenance manuals have the goal to allow anyone to do its car service himself. We think that your mechanic charge far too much for what it is, and we want you to avoid this useless expense. Each manual is specific to a single model (location of the parts are different, as the way to replace them)
