Volkswagen Bay Transporter Restoration Manual  
The Step-by-Step Guide to the Entire Restoration Process

408 pages, with more than 600 illustrations, size 5.5 x 8.5 inches. Originally published by Floyd Clymer, prior to his untimely death in 1970, this edition was republished in 2010 by VelocePress. At almost one inch thick this is possibly the most comprehensive shop manual ever published on the Type 2 Volkswagen Transporter series of vehicles. It covers the 1950-1967 SPLITTIE (T1) and the 1967-1979 BAY (T2) models fitted with the 1200cc, 1500cc and 1600cc engines. Written in easy to understand language, it includes complete technical data and specifications, service and maintenance information and comprehensive detailed instructions for the repair and overhaul of all major and minor mechanical and electrical components. This shop manual is absolutely a - must have - reference for any VW Transporter enthusiast and would certainly be a critical resource in the restoration of one of these classic Volkswagens. Out-of-print and unavailable for many years, this book is becoming increasingly more difficult to find on the secondary market and we are pleased to be able to offer this reproduction as a service to all those vintage automotive race car builders

and enthusiasts worldwide.

Once looked upon as being in need of restoration, cars with original paint, rust and patina, especially within the global Volkswagen community, have gradually become far more popular than restored cars. When walking down a line of cars at a car show, it's easy to see why; these cars are rare, unspoiled survivors — cars that tell a story of an interesting and varied past. The look of the Volkswagens being built in this style is so honest, unspoiled and characterful, that it has begun to inspire the media; even Hollywood movie stars and celebrities. Whilst this has undoubtedly resulted in increased car values, and turned a brand of cars that had always been a cheap, honest mode of transportation into something cool with a high price tag, the generation it initially inspired has grown with the hobby, and produced a micro-industry that still manages to embrace the 'Built not bought' ethos. This book, superbly illustrated with stunning colour photographs, takes an inside look at some of the key car builders, dealers, celebrities and hobbyists, as well as the different styles of build, meaning every single car has a style all its own. Foreword by Drew Pritchard of TV's 'Salvage Hunters' fame.
