Discover what matter is and what it isn't. Our resource breaks down the physical and chemical properties of matter to make it more accessible to students. Start off by identifying matter as atoms, particles and molecules. Then, explore the three states of matter: solid, liquid and gas. Determine whether something is transparent, opaque or translucent. List three physical changes and three chemical changes that could happen in the kitchen. Conduct an experiment to see chemical change in action. Describe the steps necessary when separating a mixture. Experiment with photosynthesis, an important chemical change.

Aligned to the Next Generation Science Standards and written to Bloom's Taxonomy and STEAM initiatives, additional hands-on experiments, crossword, word search, comprehension quiz and answer key are also included.

There's a lot of math in the Bible! Even so, it's not easy to integrate the Bible into math lessons - especially in middle school and the higher grades. "Bible Math Collection 1" is a cost-saving collection of 5 Bible Math lesson plans which includes math lessons about the Creation, Noah's Ark, Ark of the Covenant, King Solomon's Pool, and Gideon's Army. This book is all about projects. Projects provide a venue for cooperative learning, creativity, and real-life applications. They often provide a "springboard" for thoughtful classroom discussions. Projects are memorable learning experiences. Long after students have forgotten the typical lessons or even the exam, they will remember working on projects. Projects are fun.
