A KISS OF MADNESS Madness - A word defined as the state of insanity. Chaotic frenzy. Crazy. It doesn't matter how you define it. It only matters how you perceive it. I've always known things I shouldn't know. Seen things I shouldn't see, things no one else sees. But one terrifying vision--and my reaction to it--lands me in Brocker's Center for the Criminally Insane. I'm convinced I can make it through my time here unscathed. After all, I'm not crazy. But after spending time with three guys--a schizophrenic with two personalities, a pathological liar who isn't to be trusted, and a nymphomaniac with a penchant for knives--I'm beginning to doubt my sanity. Can I separate the real from the mad, or will this place make me spiral further down into the dark recesses of my mind? Am I crazy? I'll let you decide...

A "skillfully rendered and emotionally insightful" reimagining of the Bloomsbury group and Virginia Woolf's last years (Publishers Weekly). In 1925, she began writing *To the Lighthouse*, an epic piece of prose that instantly became a beloved classic. In 1941, she walked into the River Ouse, never to be heard from again. What happened in between those two moments is a story to be told, one of insight and camaraderie, loneliness and loss—the story of a woman, named Adeline at birth, heading toward an inexorable demise. With poetic precision and psychological acuity, Norah Vincent paints an intimate portrait of what might have happened in those last years of Virginia Woolf's life. From her friendships with the so-called Bloomsbury Group, which included the likes of T. S. Eliot, to her struggles with her husband, Leonard, Vincent explores the intimate conversations, tormented confessions, and internal struggles Woolf may have faced. Praised by USA Today as "daring" and by the New Statesman as "electrifyingly good," Adeline takes a keen look at one of the most beloved, mourned, and mysterious literary giants of all time. "Vincent is a sensitive recorder of a mind's movements as it shifts in and out of inspiration, and as it fights before submitting to despair." —The New York Times Book Review "Skillfully rendered and emotionally insightful." —Publishers Weekly

A Sunday Times Bestseller Have you ever had a strange urge to jump from a tall building, or steer your car into oncoming traffic? You are not alone. In this captivating fusion of science, history and personal memoir, writer David Adam explores the weird thoughts that exist within every mind, and how they drive millions of us towards obsessions and compulsions. David has suffered from OCD for twenty years, and *The Man Who Couldn't Stop* is his unflinchingly honest attempt to understand the condition and his experiences. What might lead an Ethiopian schoolgirl to eat a wall of her house, piece by piece; or a pair of brothers to die beneath an avalanche of household junk that they had compulsively hoarded? At what point does a harmless idea, a snowflake in a clear summer sky, become a blinding blizzard of unwanted thoughts? Drawing on the latest research on the brain, as well as historical accounts of patients and their treatments, this is a book that will challenge the way you think about what is normal, and what is mental illness. Told with fierce clarity, humour and urgent lyricism, this extraordinary book is both the haunting story of a personal nightmare, and a fascinating doorway into the darkest corners of our minds.

NATIONAL BESTSELLER • In 1967, after a session with a psychiatrist she'd never seen before, eighteen-year-old Susanna Kaysen was put in a taxi and sent to McLean Hospital. Her memoir of the next two years is a "poignant, honest ... triumphantly funny ... and heartbreaking story" (The New York Times Book Review). The ward for teenage girls in the McLean psychiatric hospital was as renowned for its famous clientele—Sylvia Plath, Robert Lowell, James Taylor, and Ray Charles—as for its progressive methods of treating those who could afford its sanctuary. Kaysen's memoir encompasses horror and razor-edged perception while providing vivid portraits of her fellow patients and their keepers. It is a brilliant evocation of a "parallel universe" set within the kaleidoscopically shifting landscape of the late sixties. *Girl, Interrupted* is a clear-sighted, unflinching document that gives lasting and specific dimension to our definitions of sane and insane, mental illness and recovery.

A trenchant look at how the coronavirus reveals the dangerous fault lines of contemporary society As seen on CNN's Fareed Zakaria GPS: "A stirring alarm addressed to an unsettled world." (Kirkus Reviews) Forget the world that came before. The author of *American Vertigo* serves up an incisive look at how COVID-19 reveals the dangerous fault lines of contemporary society. With medical mysteries, rising death tolls, and conspiracy theories beamed minute by minute through the vast web universe, the coronavirus pandemic has irrevocably altered societies around the world. In this sharp essay, world-renowned philosopher Bernard-Henri Lévy interrogates the many meanings and metaphors we have assigned to the pandemic—and what they tell us about ourselves. Drawing on the philosophical tradition from Plato and Aristotle to Lacan and Foucault, Lévy asks uncomfortable questions about reality and mythology: he rejects the idea that the virus is a warning from nature, the inevitable result of global capitalism; he questions the heroic status of doctors, asking us to think critically about the loci of authority and power; he challenges the panicked polarization that dominates online discourse. Lucid, incisive, and always original, Lévy takes a bird's-eye view of the most consequential historical event of our time and proposes a way to defend human society from threats to our collective future. A

portion of the author's proceeds will be donated to Binc (The Book Industry Charitable Foundation).

A grieving widow discovers a most unexpected form of healing—hunting for mushrooms. "Moving . . . Long tells the story of finding hope after despair lightly and artfully, with self-effacement and so much gentle good nature."—The New York Times Long Litt Woon met Eiof a month after arriving in Norway from Malaysia as an exchange student. They fell in love, married, and settled into domestic bliss. Then Eiof's unexpected death at fifty-four left Woon struggling to imagine a life without the man who had been her partner and anchor for thirty-two years. Adrift in grief, she signed up for a beginner's course on mushrooming—a course the two of them had planned to take together—and found, to her surprise, that the pursuit of mushrooms rekindled her zest for life. *The Way Through the Woods* tells the story of parallel journeys: an inner one, through the landscape of mourning, and an outer one, into the fascinating realm of mushrooms—resilient, adaptable, and essential to nature's cycle of death and rebirth. From idyllic Norwegian forests and urban flower beds to the sandy beaches of Corsica and New York's Central Park, Woon uncovers an abundance of surprises often hidden in plain sight: salmon-pink Bloody Milk Caps, which ooze red liquid when cut; delectable morels, prized for their earthy yet delicate flavor; and bioluminescent mushrooms that light up the forest at night. Along the way, she discovers the warm fellowship of other mushroom obsessives, and finds that giving her full attention to the natural world transforms her, opening a way for her to survive Eiof's death, to see herself anew, and to reengage with life. Praise for *The Way Through the Woods* "In her search for new meaning in life after the death of her husband, Long Litt Woon undertook the study of mushrooms. What she found in the woods, and expresses with such tender joy in this heartfelt memoir, was nothing less than salvation."—Eugenia Bone, author of *Mycophilia* and *Microbia*

[The Collected Schizophrenias](#) ABC-CLIO

Powerful, affecting essays on mental illness, winner of the Graywolf Press Nonfiction Prize and a Whiting Award An intimate, moving book written with the immediacy and directness of one who still struggles with the effects of mental and chronic illness, *The Collected Schizophrenias* cuts right to the core. Schizophrenia is not a single unifying diagnosis, and Esmé Weijun Wang writes not just to her fellow members of the "collected schizophrenias" but to those who wish to understand it as well. Opening with the journey toward her diagnosis of schizoaffective disorder, Wang discusses the medical community's own disagreement about labels and procedures for diagnosing those with mental illness, and then follows an arc that examines the manifestations of schizophrenia in her life. In essays that range from using fashion to present as high-functioning to the depths of a rare form of psychosis, and from the failures of the higher education system and the dangers of institutionalization to the complexity of compounding factors such as PTSD and Lyme disease, Wang's analytical eye, honed as a former lab researcher at Stanford, allows her to balance research with personal narrative. An essay collection of undeniable power, *The Collected Schizophrenias* dispels misconceptions and provides insight into a condition long misunderstood.

A powerful, breathtaking memoir about a young man's descent into madness, and how running saved his life. "Voluntary or involuntary?" asked the nurse who admitted J. M. Thompson to a San Francisco psychiatric hospital in January 2005. Following years of depression, ineffective medication, and therapy that went nowhere, Thompson feared he was falling into an inescapable darkness. He decided that death was his only exit route from the torture of his mind. After a suicide attempt, he spent weeks confined on the psych ward, feeling scared, alone, and trapped. One afternoon during an exercise break he experienced a sudden urge. "Run, I thought. Run before it's too late and you're stuck down there. Right now. Run." The impulse that starts with sprints across a hospital rooftop turns into all night runs in the mountains. Through motion and immersion in the beauty of nature, Thompson finds a way out of the hell of depression and drug addiction. Step by step, mile by mile, his body and mind heal. In this lyrical, vulnerable, and breathtaking memoir, J. M. Thompson, now a successful psychologist, retraces the path that led him from despair to wellness, detailing the chilling childhood trauma that caused his depression, and the unorthodox treatment that saved him. *Running Is a Kind of Dreaming* is a luminous literary testament to the universal human capacity to recover from our deepest wounds.

A journalist's provocative and spellbinding account of her eighteen months spent disguised as a man. Norah Vincent became an instant media sensation with the publication of *Self-Made Man*, her take on just how hard it is to be a man, even in a man's world. Following in the tradition of John Howard Griffin (*Black Like Me*), Vincent spent a year and a half disguised as her male alter ego, Ned, exploring what men are like when women aren't around. As Ned, she joined a bowling team, took a high-octane sales job, went on dates with women (and men), visited strip clubs, and even managed to infiltrate a monastery and a men's therapy group. At once thought-provoking and pure fun to read, *Self-Made Man* is a sympathetic and thrilling tour de force of immersion journalism.
