Volvo 120s Sail Manual

I have a Volvo 120S saildrive. The users manual notes that you need to use engine oil in the tranny (I have a Volvo 2002 engine). However, I discovered last week that the engine company that serviced the engine used a tranny oil that is green in color. Obviously, they didnt use

normal oil as requ...

One of the important things to do when you have the boat on land is to change the oil in the saildrive. If there is water in the oil it will be grey and a gasket is leaking.

The Volvo Penta 120

Saildrive unit followed on from the popular 110S sail drive. The 120C and 120S are close coupled saildrive units, coupled to the engine directly without a shaft and gaiter. The 120C & 120S Volvo sail drive units were a popular choice when mated to one of the small Volvo diesel engines, especially for sail boat applications.

Volvo Penta 120S saildrive oil change and winterize engine
Volvo Penta D1-30 is a totally integrated package, with the perfectly matched Saildrive 130 S powered by the in-line 3-cylinder, 1.1-liter, naturally aspirated diesel engine using a cam-driven, in-line injection pump, and freshwater cooling. Together, the package gives low cruising rpm with quiet running, and minimal vibrations.
Volvo Penta 120S Manuals
Probably a long shot but i'm looking for the workshop manual to strip down a Volvo Penta 120SD saildrive. Does anyone have a copy i can borrow for a few days? So far i've drawn a blank with forum search, google. I'd prefer not to buy a manual for one off job -

thanks David.

All the Volvo Sail drives now use engine oil , (or may still have ATF in them) except for the 120S-E which uses a synthetic SAE 75W-90, GL5 gear oil and I think is only used on some more powerful engines. Engine oil and ATF dont smell bad and are not thick. It's the EP additives in gear oils that smell.

Presumably you have another make, or a 120S-E

Marine Parts Express
The 110S, 120S, MS25S,
130S and 150S Saildrives
run on VDS 3 engine oil, but
the 120S-E version uses
Volvo Penta 75/90 gear oil.
Volvo Penta VDS 3, is
specifically blended to be
suitable for use in Saildrives
and is the only engine oil
that should be used. It is
important to use genuine
anodes on a Volvo Saildrive.
