Volvo D11 Engine Problems  
Volvo D11 The first on our list is the D11 which can be configured in the new VNR the VNL VHD and VAH. With is low weight of only 2259lb, pushing 325Hp and 1250lb-ft of torque the D11 can make sure to haul your day to day loads with Page 4/23  
**volvo D12 problems - MHH AUTO - Page 1**  
Like all of Volvo's engines, the D11 is built on a foundation of proven, developed architecture that leverages innovative hardware to maximize efficiency. Energy that is normally lost is recovered with standard features

---

including low-friction pistons and a two-speed water pump. A standard hybrid common rail fuel injection system gets the most power out of every drop of fuel.

### Volvo D11 Engine Problems

Volvo D11 The first on our list is the D11 which can be configured in the new VNR the VNL VHD and VAH. With is low weight of only 2259lb, pushing 325Hp and 1250lb-ft of torque the D11 can make sure to haul your day to day loads with ease.

DEF ...*

1. If the spray starting the engine starts and runs, then replace the injectors - give a low dose of fuel on startup. Mostly if the engine is warm started but only if it is cold, will not start without a spray.
2. If the engine starts to spray starting and running just a

moment, look for the fault in the fuel system.

### Volvo Trucks. Driving Progress VOLVO D11 Engine family

Volvo D11 Engine Family

The Volvo D11 is a fuel efficient, lightweight engine designed to improve reliability and minimize cost of operation. Five power ratings are available in the range from 355 to 405 hp.

The D11 delivers performance competitive with larger engines with an impressive 405 hp and 1,550 lbs. ft. torque.

The problem is with the port motor; an oil analysis with around 300 hours on the oil showed high levels of Aluminum (141ppm), Copper (110), and Chromium (14). The recommendation was made that high levels of Aluminum and Copper indicate turbo bearing wear

---

and the elevated levels of chromium may come from piston ring.
