Just like the entire Volvo engine family, the D11 is designed to produce the power needed for your

specific application, the fuel economy crucial to your bottom line, and the reliability your customers demand. Volvo achieves these goals by starting with a foundation of proven, mature engine architecture, and then leveraging 2001 Volvo VNL with a Volvo VE D12 Engine 474HP
From the beginning, D12 was developed especially for the FH trucks. In the late 90 ' s, the engine was introduced in other product areas within Volvo, such as Volvo Penta. Also, the D12 engine has gone through changes over the decades, often as new emission regulations

came out. ” Yes, the engine now has so many more features to meet the ...

Volvo D13 Engine Family -

bangortrucks.com
Due to excessive thirst, diesel engines soon became available in this range of trucks. The B36 was discontinued in 1973, although it had no longer

been used in trucks after 1966. It was the last petrol truck engine built by Volvo, and the only V8 engine in any vehicle except for the newer Yamaha built unit used in XC90 and S80.
