VOLVO Fault Codes
DTC - Trucks, Tractor

& Forklift Manual PDF

SOURCE: What mean
this default code on
volvo d13 SPN. faulty
aftertreatment outlet,
..... knock sensor, and
check coolant temp
sensor,if it is faulty it
will cause a rich
condition that can
throw misleading
codes. knock sensors
often fail and throw
code when no other
fault is present. good
luck and happy

Hi folks, I took my Volvo
VNL to the quarter car
wash, I was neither careless
or careful, I just took some
grime and dirt off. Bug
splats didnt really come off
much but I tried. Later that
day I dont know when, I

noticed there is a fault in the
engine. I looked it up, its the
NOX sensor in the ex...

Sounds good, thanks a lot for the
input. The injectors on the Volvo
D13 and D16 use wiring with 2
common feeds, having one for
the front Bank of 1-3, and a
second for the rear bank 4-6.
Then individual control circuits
for each coil with all wiring being
fed from the ECM, both the
NCV , and SV are wired in this
way.

More About The Volvo D13
Like all of Volvo's engines, the
D13 is built on a foundation of
proven, developed architecture
that leverages innovative
hardware to maximize efficiency.
Energy that is normally lost is
recovered with standard features
including low-friction pistons and
a two-speed water pump, as well
as optional features like turbo ...
