Intended as the primary text for introductory courses on medical anthropology, this book integrates human biological data relevant to health and disease with both evolutionary theory and the social environments that more often than not produce major challenges to health and survival. Because students who take this fastest-growing anthropology course come from a variety of disciplines (anthropology, biology, especially pre-med students, and health

sciences, especially), the text does not assume anything beyond a basic high-school level familiarity with human biology and anthropology. The authors first present basic biological information on a particular health condition and then expand their analysis to include evolutionary, historical, and cross-cultural perspectives. Among the topics covered are nutrition, infectious disease, stress, reproductive health, behavioral disease, aging, race/racism and health, mental health, and healers and healing.

Diamonds are a multi-billion dollar business involving some of the world's largest mining companies, a million and a half artisanal diggers,

more than a million cutters and polishers and a huge retail jewellery sector. But behind the sparkle of the diamond lies a murkier story, in which rebel armies in Angola, Sierra Leone and the Congo turned to diamonds to finance their wars. Completely unregulated, so-called blood diamonds became the perfect tool for money laundering, tax evasion, drug-running and weapons-trafficking. Diamonds brings together for the first time all aspects of the diamond industry. In it, Ian Smillie, former UN Security Council investigator and leading figure in the blood diamonds campaign, offers a comprehensive analysis of the history and structure of today's diamond trade, the struggle for effective regulation and the challenges ahead. There is, he argues, greater diversification and competition than ever before, but thanks to the success of the Kimberley Process, this coveted and prestigious gem now represents a fragile but renewed opportunity for development in some of the world's poorest nations. This part of the diamond story has rarely been told.

Diamonds Heyday

It was invented immediately after the war, in the factory a far-sighted English military man had set up to turn the German economy from making machines of warfare to more pacific products. By the seventies that dream had been amply fulfilled, as the VW Campervan became the conveyance of choice for West Coast hippies, Australian surf bums and Europeans taking the overland route to find enlightenment and good karma in India. It had also become - indeed, still is - the first choice for any couple, or family, seeking a cheap camping holiday with wheels attached. So never mind the oddly off-centre driving wheel, the vagaries of the aircooled rear engine - the VW Campervan had become more than a vehicle - it had truly become a way of life. Mike Harding's first ride in a Volkswagen Camper Van was back in 1961, when it was the carrying around the gear and bandmembers of his rock band the Manchester Rainmakers. Finally, in 2009, he could wait no longer, and bought his own, a 2001 Type 2 bay window Brazilian import Danbury conversion in

hot orange and off white. Add in the endless curiosity of the author of eight monographs on church architecture, and the hilarious sense of humour of one of Britain's best stand-up comics, and you have a wonderful social history of the postwar years through the prism of a single transport icon.

My Gaza is a startling contemporary perspective on the photographer's homeland. Saftawi's eye is drawn to moments of humanity and tenderness that redefine this place, outside of propaganda, outside of all we know. The modern reality there leaves no room for further escalation, as these photographs testify. A gun to the head. An interrogation. A family in strife. In vivid images from Saftawi, My Gaza tells an authentic new story with dignity and resolve.

Freud, although best known for his elucidation of the unusual in human mental life, also attempted to illuminate ordinary human experience, such as people's appreciation of humor, their capacity to become engrossed in fiction, and their disposition to a variety of emotional experiences, including the uncanny, the stirrings prompted by beauty, and their disposition to mourn. His insights into the everyday and his sense of where within it the productive questions lie reveal an incisiveness that defies both earlier and subsequent thought on his topics. This book works to expose that vision and to demonstrate its fertility for further inquiry. It reconstructs several of Freud's works on ordinary mental life, tracking his method of inquiry, in particular his search for the child within the adult, and culminating in a deployment of his tools independently of his analyses. It shows how to read Freud for his insight and generativity and how to push beyond the confines of his analyses in pursuit of new lines of exploration.

Recipient of the Independent Publishers Award for Historical Fiction (Gold Medal), the Foreword Book of the Year Award for Historical Fiction (Bronze Medal), and an honorable mention in the category of General Fiction for the Eric Hoffer Award. Luis de Santángel, chancellor to the court and longtime friend of the lusty King Ferdinand, has had enough of the Spanish Inquisition. As the power of Inquisitor General Tomás de Torquemada grows, so does the brutality of the Spanish church and the suspicion and paranoia it inspires. When a dear friend's demise brings the violence close to home, Santángel is enraged and takes retribution into his own hands. But he is from a family of conversos, and his Jewish heritage makes him an easy target. As Santángel witnesses the horrific persecution of his loved ones, he begins slowly to reconnect with the Jewish faith his family left behind. Feeding his curiosity about his past is his growing love for Judith Migdal, a clever and beautiful Jewish woman navigating the mounting tensions in Granada. While he struggles to decide what his reputation is worth and what he can sacrifice, one man offers him a chance he thought he'd lost...the chance to hope for a better world. Christopher Columbus has plans to discover a route to paradise, and only Luis de

Santángel can help him. Within the dramatic story lies a subtle, insightful examination of the crisis of faith at the heart of the Spanish Inquisition. Irresolvable conflict rages within the conversos in *By Fire, By Water*, torn between the religion they left behind and the conversion meant to ensure their safety. In this story of love, God, faith, and torture, fifteenth-century Spain comes to dazzling, engrossing life.
