Lemon-aid Car Guide 2001 Penguin

The only guide to Southeast Asia that covers the entire length and breadth of a region frequently visited by round-the-world sailors, many of whom leave Australia to head west. This 2008 edition concentrates on the most frequented routes and includes the most popular stops. There are hundreds of possible anchorages, the most popular of which are usefully summarised in tables. Introductory sections cover planning and the last part of the book deals with more general topics including advice on provisioning and the problems that are often faced by cruisers. Stephen Morgan and Elaine Davies first arrived in the region over 30 years ago. They work in Hong Kong- Stephen Davies as Director of the Hong Kong Maritime Museum and Elaine Morgan as a writer and editor. While this pilot is aimed at yachtsmen and indeed was surveyed from the Davies/Morgan yacht, it is just as relevant to the commercial or military mariner. The part of the world described in this work is one of the most interesting on our planet. Culturally, scenically, climatically and commercially- it has everything. This excellent book - now in its second edition, describes it all very enticingly. Set to the usual high standard of the Imray pilots that precede it, this one is spiced up by the wit and anecdotes the authors are so good at.

This survey, carried out by KPL International Limited, India, is a guide for overseas buyers and presents all the information required to find suitable partners in India. The Buyer's Guide to Sourcing Castings from India provides an independent

survey of the casting industry in India and profiles 184 individual foundries that have export potential. It begins by comparing the Indian scenario to the global scene, devoting particular attention to technologies that already exist in India, from pattern making to moulding, metal preparation, and inspection and testing practices. The guide gives complete consolidated details for various foundries along with contact details (address, phone number, and contact person, names of Chairman/Director, e-mail address and website). It also examines the organizational details of foundries such as type of organization, year of incorporation, range of products, quality certification (ISO/QS, etc.), manpower in various departments, industry sectors catered for, facilities and infrastructure. The guide analyses the key performance indicators of foundries including annual turnover, export figures, products exported and countries exported to. Information is also given on installed and spare capacities of the foundries as well as the weight range of castings handled. Commercial aspects prevailing in the industry are also examined, such as pattern development time, sample submission time and payment terms. There is also important information on the Indian economy including the business climate, economic policies, regulatory environment and taxation as well as on the strengths of the Indian castings industry. Particular attention is given to industry-related logistical issues. This guide will be an essential resource for specialist buyers, importers and consulting companies looking to locate prospective partners for outsourcing their casting requirements from India.
