The Chrysler B-
Bodies from 1966
to 1970 are the
most-restored cars
in the franchise's
storied history.
Popular models
among them
include the
Charger, Coronet,

GTX, Road Runner, and Super Bee. Restoring a Mopar B-Body is easier than ever with numerous of available aftermarket parts suppliers.

This book offers an in-depth resource for restoring a Mopar B-Body. Step-by-step processes walk you through the tasks of metal repair, suspension rebuild, driveline verification, interior restoration, and more. All components are addressed, creating the most complete resource in the marketplace. With

multiple step-by-step procedures and more than 400 color photographs, this is the most-complete hands-on book ever written covering these coveted Chryslers. This will be your primary resource when it's time to tackle a full restoration or complete a simple repair on your prized Pentastar. You won't find a cheaper "part" that helps you more than Mopar B-Body Restoration 1966–1970. David Vizard's How to Port and Flow Test Cylinder Heads Princeton

University Press Riot Control is the classic manual on riot-control techniques and equipment by the father of the science of crowd control, Col. Rex Applegate. This invaluable manual supplies complete training information on organizing riot patrols, handling sniper situations, clearing houses, and street fighting, plus a complete survey of modern gear, such as chemical agents, floggers, batons, helmets, firearms and vehicles. These advanced procedures include unshrouding valves, porting a shortside turn from the floor of the port down toward the valve seat, and developing the ideal port area and angle. All of these changes combine to produce optimal flow velocity through the engine for maximum power.
