NMR-Spectroscopy: Modern Spectral Analysis Opera Journeys Publishing
Infants, children and adolescents with congenital heart disease (CHD) are a challenge to manage and an ever-increasing number are reaching adulthood. CHD is one of the most important topics in cardiology today, yet this book is the only clinically-orientated monograph devoted exclusively to ventricular function and blood flow as it relates to CHD. Written by a distinguished panel of cardiologists, bioengineers, physiologists, and clinical investigators, *Ventricular Function and Blood Flow in Congenital Heart Disease* is an extensive and comprehensive presentation of the key aspects of this branch of CHD.

Very Old Money American Bar Association

Using an original approach informed by literary theory, Amit delivers a fascinating view of the book of Judges as a whole by concentrating on its editorial methods and artistry.

Venous Valves Prentice Hall

A new generation steps up in the colonization and terraforming of Venus in the Nebula Award-winning author's "masterful SF trilogy" (Publishers Weekly). The Venus Project calls upon the strongest and most courageous to create a prosperous world in the dismal wilderness of Venus. Those who demonstrate the skill and the passion to embark on this adventure must transform the barren planet in the midst of political and cultural unrest. When Risa and Benzi, children of Iris, one of the first people to partake in this project, find themselves in opposing forces on the battlefield, it is their love and perseverance that will determine the destiny of the new land.

Ventricular Function and Blood Flow in Congenital Heart Disease Hachette UK
A comprehensive guide to Verdi's DON CARLO, featuring Principal Characters in the opera, Brief Story Synopsis, Story Narrative with Music Highlight Examples, and an insightful and in depth Commentary and Analysis by Burton D. Fisher, noted opera author and lecturer.

Venus of Dreams Simon and Schuster

Stanley Fish, one of the foremost critics of literature working today, has spent much of his career writing and thinking about Milton. This book brings together his finest published work with brand new material on Milton and on other authors and topics in early modern literature. In his analyses of Renaissance texts, he meditates on the interpretive problems that confront readers and offers a sustained critique of historicist methods of interpretation. Intention, he argues, is key to understanding which pieces of historical data are relevant to literary criticism. Lucid, provocative, direct and inimitable, this new book from Stanley Fish is required reading for anyone teaching or studying Milton and early modern literary studies.

Ventilation Systems Celestial Arts

An intriguing memoir, this personal account tells of Hilda Muir's bush childhood and her forced removal from a loving family to the rigours of life in the Kahlin Home for half-caste children. Revealing that she grew up to marry the love of her life, Billy Muir, the book also follows her challenges dealing with the demands of a growing family and their evacuation to Brisbane during World War II. Back in Darwin? and after the devastation of Cyclone Tracy? Hilda ultimately struggled to find her place in the world again.

Verdi's Don Carlo (Opera Journeys Mini Guide Series) Simon and Schuster

Venus and Mercury have long been regarded as difficult targets for amateur observers, but advances in commercially-made telescopes have brought them within the skills of observers of only moderate experience. Peter Grego's fascinating book presents an up-to-date, detailed description of the history and geology of the so-called

inferior planets, and provides the latest, most useful advice on observing and recording them with commercially-available telescopes and cameras. The book also offers a wealth of detailed practical information on every aspect of observing, from safely targeting the two planets, through visual observing, to sketching and electronic imaging.

Very Naughty Boys [EBK] Cambridge University Press

This much-needed reference equips electrical engineers, designers, and researchers in the microwave industry with comprehensive, up-to-date information on the theoretical principles and practical applications of dielectric integrated guides and circuits.

Venus in Winter Springer Science & Business Media

"It is a rule that no Trevelyan ever sucks up either to the press, or the chiefs, or the "right people". The world has given us money enough to enable us to do what we think is right. We thank it for that and ask no more of it, but to be allowed to serve it" - G.M. Trevelyan. The Trevelyans are unique in British social and political history: a family which for several generations dedicated themselves to the service and chronicling of their country, from the radical, reforming civil servant Charles Edward Trevelyan to the historian G.M. Trevelyan. Often eccentric, priggish, high minded and utterly self-regarding, they have nonetheless left their mark on our past. This engaging history dispassionately explores the lives and achievements of this unique family and the part they played in shaping the history of Great Britain. From their inauspicious beginnings in a small dwelling in Cornwall to the present day, some Trevelyans have been famous and distinguished, others less so, but for a hundred years from the mid-nineteenth to the mid-twentieth century family members from Lord Macaulay to G.M. Trevelyan contributed to both the writing and the making of history. This book is primarily the tale of the five men who flourished during this period - Charles Edward, George Otto, Charles Philips, George Macaulay and Humphry Trevelyan - and the clever and formidable women they married. Including many vivid portraits of the most influential members of this remarkable family, The Trevelyans casts light on the period of enormous social and cultural change in which they lived and examines why they chose not to simply exploit their position as landed gentry but instead to take their place at the centre of scholarship and politics.

Venous Thromboembolism in Advanced Disease Readers Digest

Discusses common anxieties and outlines several tools and techniques for dealing with phobias, anxieties, and panic attacks.

Readers will be encouraged to retell what they read and will feel confident in their growing reading skills.

Link Analysis Psychology Press

Two servants discover family skeletons behind the closed doors of a forbidding Manhattan mansion in this mystery by a three-time Edgar Award-winning author. In dire financial straits, young couple Mike and Amy Lloyd—a former cab driver and a New York prep-school teacher, respectively—have signed away their independence to become live-in servants for one of the city's wealthiest and most private families. At first, the Durie home, a cavernous Gilded Age palazzo off Fifth Avenue, is a maze of intimidation: sixteen other employees, eight Duries in residence, forbidden rooms, and an exact and unbreakable set of rules. For Amy, personal secretary to the aged and blind Miss Margaret, that includes never broaching the subject of her employer's "condition" or the tragic accident that caused it. On the other hand, Mike, an aspiring writer, is already taking notes for a Durie-inspired novel. A modern gothic, he's guessing—part Rebecca, part Psycho. Most of the plot, he'll soon discover, won't require much imagining. But Amy, bound to the servitude of the matriarch—a woman cut off from the world for fifty years—is growing more curious and unnerved by Miss Margaret's demands: the sudden trips to the Plaza hotel, the mysterious bank transactions, and an extended invitation to a stranger for a private dinner. By the time Amy realizes the truth—that she and her husband have been enlisted as unwitting accomplices in a subtly played series of moves that could lead to something rather unspeakable—it could be too late.

Vertigo 42 Quinn Loftis Books, LLC

Another hilarious offering from bestselling author Cate Kendall. From the backwaters of Tasmania to the sophisticated streets of Sydney, sisters Bellarene and Serandipity have come a long way. As international flight attendants the world is their oyster - until Sera fell in love and settled for family life. Obsessed with keeping up appearances, Sera goes to extreme lengths to maintain the illusion of perfection, while Bella just wants to fly away from the responsibility of mothering her little sister, from the sadness of her broken marriage, and from memories of the past. Gathering her friends at Stitch 'n' Bitch is like therapy. There's a lot of talk, and not much knitting - and they wouldn't have it any other way. Ditzzy Mallory has her own shocks in store, and single mum Chantrea agonises over work and childcare. Widowed single dad, Sam, is terrified of the dating scene, and

Sera's uptight neighbour, Jacqueline, has a little secret, one that could destroy her neatly ordered world. Meanwhile Joan, Sera's mother-in-law, watches them all and sniffs with disdain at their trivial worries. Sera wants to be perfect. Bella just wants to be free. Will the sisters get what they want?

How to Catch a Bogle Springer Science & Business Media

This book provides an evidence-based, clinical guide to treating venous thromboembolism in palliative care, highlighting the uncertainties faced by clinicians when confronted with this common but complex issue, and dealing with both cancer and non-malignant diseases.

Venture Capital Investing Penguin

It is 1958 and the Phelan clan has gathered to hear Peter Phelan's will, read by the living Peter himself, an artist whose paintings about members of the family have given him belated critical recognition. The paintings illuminate the lives of his brother Francis (the exiled hero of Ironweed), and a family ancestor, Malachi McIlhenny, a true madman beset by demons, and determined to send them back to hell. Orson Purcell, bastard son of Peter, and half-mad himself, encounters his first true solace through this obsessive and close-knit family he has never quite entered; most especially through his Aunt Molly, whose intense love affair holds secrets that only another love can resurrect. It is through Orson's modern eye that we see the tragedies, obsessions, and clandestine joys of this singular family. This is climatic work in William Kennedy's Albany Cycle, riding on the melody of its language and the power of its story, which is full of surprise, comedy, terror, and earthly delight.

Do You See a Shape? Open Road Media

In Vergil's Empire, Eve Adler offers an exciting new interpretation of the political thought of Vergil's Aeneid. Adler argues that in this epic poem, Vergil presents the theoretical foundations of a new political order, one that resolves the conflict between scientific enlightenment and ancestral religion that permeated the ancient world. The work concentrates on Vergil's response to the physics, psychology, and political implications of Lucretius' Epicurean doctrine expressed in De Rerum Natura. Proceeding by a close analysis of the Aeneid, Adler examines Vergil's critique of Carthage as a model of universal enlightenment, his positive doctrine of Rome as a model of universal religion, and his criticism of the heroism of Achilles, Odysseus, and Epicurus in favor of the heroism of Aeneas. Beautifully written and clearly argued, Vergil's Empire will be of great value to all interested in the classical world.
