How and Why to Read and Create Children's Digital Books outlines effective ways of using digital books in early years and primary classrooms, and specifies the educational potential of using digital books and apps in physical spaces and virtual communities. With a particular focus on apps and personalised reading, Natalia Kucirkova combines theory and practice to argue that personalised reading is only truly personalised when it is created or co-created by reading communities. Divided into two parts, Part I suggests criteria to evaluate the educational quality of digital books and practical strategies for their use in the classroom. Specific attention is paid to the ways in which digital books can support individual children's strengths and difficulties, digital literacies, language and communication skills. Part II explores digital books created by children, their caregivers, teachers and librarians, and Kucirkova also offers insights into how smart toys, tangibles and augmented/virtual reality tools can enrich children's reading for pleasure. How and Why to Read and Create Children's Digital Books is of interest to an international readership ranging from trainee or established teachers to MA level students and researchers, as well as designers, librarians and publishers. All are inspired to approach children's reading on and with screens with an agentic perspective of creating and sharing. Praise for How and Why to Read and Create Children's Digital Books 'This is an exciting and innovative book – not least because it is freely available to read online but because its origins are in primary practice. The author is an accomplished storyteller, and whether you know, as yet, little about the value of digital literacy in the storymaking process, or you are an accomplished digital player, this book is full of evidence-informed ideas, explanations and inspiration.' Liz Chamberlain, Open University 'At a time when children's reading is increasingly on-screen, many teachers, parents and carers are seeking practical, straightforward guidance on how to support children's engagement with digital books. This volume, written by the leading expert on personalised e-books, is packed with app reviews, suggestions and insights from recent international research, all underpinned by careful analysis of digital book features and recognition of reading as a social and cultural practice. Providing accessible guidance on finding, choosing, sharing and creating digital books, it will be welcomed by those excited by the possibilities of enthusing children about reading in the digital age.' Cathy Burnett, Professor of Literacy and Education, Sheffield Hallam University

### Animal Friends Nursery Rhymes Beat Your A-Fib

Topics covered include: performance vs. economy; air intakes, manifolds and throttle bodies; tuning; turbocharging; supercharging; and nitrous oxide.

### Land Rover Series II, IIA and III Independently Published

While the national narrative coming out of Ireland since the 2008 economic crisis has been relentlessly sanguine, fiction has offered a more nuanced perspective from both well-established and emerging authors. In Broken Irelands, McGlynn examines Irish fiction of the post-crash era, addressing the proliferation of writing that downplays realistic and grammatical coherence. Noting that these traits have the effect of diminishing human agency, blurring questions of responsibility, and emphasizing emotion over rationality, McGlynn argues that they reflect and respond to social and economic conditions during the global economic crisis and its aftermath of recession, austerity, and precarity. Rather than focusing on overt discussions of the crash and recession, McGlynn explores how the dominance of an economic worldview, including a pervasive climate of financialized discourse, shapes the way stories are told. In the writing of such authors as Anne Enright, Colum McCann, Mike McCormack, and Lisa McLnerney, McGlynn unpacks the ways that formal departures from realism through grammatical asymmetries like unconventional verb tenses, novel syntactic choices, and reliance on sentence fragments align with a cultural moment shaped by feelings of impotence and rhetorics of personal responsibility.

### Autocar & Motor Courier Corporation

Recommends toys for infants, preschoolers, school-age children, and children with special needs, and includes toys for travel and preschool programs

This is an informative guide that covers three generations of video game consoles. This is the first book in the Retro: id series.

### Malice Penguin

Marvin Heemeyer was a blue-collar man whose greatest joy in life was to see his muffler-repair shop prosper. When he felt the government of Granby, Colorado, was conspiring against him and the success of his business, he decided to take action. He did not take his vengeance by walking into the town hall with a gun. Nor did he build bombs and deliver them to local politicians. No, Marvin was more ingenious than that. He put his welding skills to work. In so doing, Marvin Heemeyer made history as one of the most original, complex, controversial, and misunderstood criminals in history. Malice is the story of his life leading up to his one-of-a-kind crime. Exhaustively researched, author Liam Llewellyn portrays the story in its entirety, then poses an alternative interpretation. Malice challenges the reader to ask such questions as: Do governments conspire against individuals? In the wake of enormous tragedy, do governments tell the truth? What is a criminal? Do two wrongs make a right?

### Antistatic Sprays Landlinks Press

### Radar Instruction Manual Penguin

Since 1958 the Maritime Administration has continuously conducted instructions in use of collision avoidance radar for qualified U.S. seafaring personnel and representatives of interested Federal and State Agencies.Beginning in 1963, to facilitate the expansion of training capabilities and at the same time to provide the most modern techniques in training methods, radar simulators were installed in Maritime Administration's three region schools.It soon became apparent that to properly instruct the trainees, even with the advanced equipment, a standardize up-to-date instruction manual was needed. The first manual was later revised to serve both as a classroom textbook and as an onboard reference handbook.This newly updated manual, the fourth revision, in keeping with Maritime Administration policy, has been restructured to include improved and more effective methods of plotting techniques for use in Ocean, Great Lakes, Coastwise and Inland Waters navigation.Robert J. BlackwellAssistant Secretary for Maritime Affairs

### Friends, Fashion, and Fun! (Barbie) Baby Signs Incorporated

Master's Guide to Hatch Cover Maintenance CarTech Inc

Antistatic sprays from several different manufacturers are examined. The sprays are examined for contamination potential (i.e., outgassing and nonvolatile residue), corrosiveness on an aluminum mirror surface, and electrostatic effectiveness. In addition, the chemical composition of the antistatic sprays is determined by infrared spectrophotometry, mass spectrometry, and ultraviolet spectrophotometry. The results show that 12 of the 17 antistatic sprays examined have a low contamination potential. Of these sprays, 7 are also noncorrosive to an aluminum surface. And of these, only 2 demonstrate good electrostatic properties with respect to reducing voltage accumulation; these sprays did not show a fast voltage dissipation rate however. The results indicate that antistatic sprays can be used on a limited basis where contamination potential, corrosiveness, and electrostatic effectiveness is not critical. Each application is different and proper evaluation of the situation is necessary. Information on some of the properties of some antistatic sprays is presented in this document to aid in the evaluation process. Ming, James E. Goddard Space Flight Center
