Blood Rites Simon and Schuster

Infants, children and adolescents with congenital heart disease (CHD) are a challenge to manage and an ever-increasing number are reaching adulthood. CHD is one of the most important topics in cardiology today, yet this book is the only clinically-orientated monograph devoted exclusively to ventricular function and blood flow as it relates to CHD. Written by a distinguished panel of cardiologists, bioengineers, physiologists, and clinical investigators, *Ventricular Function and Blood Flow in Congenital Heart Disease* is an extensive and comprehensive presentation of the key aspects of this branch of CHD.

The incredible, hilarious insider's story of Britain's favourite film company! It all started when Beatle George Harrison stepped in to fund *Life of Brian* when Monty Python's original backers pulled out. His company, HandMade films, went on to make some of the best British films of the 80s (*Withnail and I*, *Time Bandits* and *Mona Lisa* among them), but then things started to go wrong... This is the incredible and often hilarious insiders' story of what happened...

It is 1958 and the Phelan clan has gathered to hear Peter Phelan's will, read by the living Peter himself, an artist whose paintings about members of the family have given him belated critical recognition. The paintings illuminate the lives of his brother Francis (the exiled hero of *Ironweed*), and a family ancestor, Malachi McIlhenny, a true madman beset by demons, and determined to send them back to hell. Orson Purcell, bastard son of Peter, and half-mad himself, encounters his first true solace through this obsessive and close-knit family he has never quite entered; most especially through his Aunt Molly, whose intense love affair holds secrets that only another love can resurrect. It is through Orson's modern eye that we

see the tragedies, obsessions, and clandestine joys of this singular family. This is climatic work in William Kennedy's Albany Cycle, riding on the melody of its language and the power of its story, which is full of surprise, comedy, terror, and earthly delight.

Venus of Shadows Macmillan

New in paperback! This book comes at a time when opera-lovers, singers, directors, and critics alike are taking a new look at the dramatic soprano heroines created by Giuseppe Verdi and Giacomo Puccini, endeavoring to delve beyond inherited scholarly interpretation and gain a richer understanding of these compelling female characters. Artistically limited by the bel canto musical tradition popular at the time, Verdi launched a new style *dramma per*

musica which also demanded a new soprano archetype. This book illustrates the musical evolution of the Verdi and Puccini soprano while illuminating the dramatic scope and power of these great heroines. Avoiding critical reductionism, *Verdi and Puccini Heroines* provides an unprecedented and probing discussion of how these great soprano roles were conceived and executed. Accordingly, the authors take a three-dimensional look at these heroines, examining seven operas: *Il Trovatore*, *La Forza del Destino*, *Aida*, *La Bohème*, *Tosca*, *Madama Butterfly*, and *Turandot*. The chapters, which are fully self-contained analyses, contain translations, illustrative musical examples, supplementary notes, and references to each opera's literary sources.

The musical analysis, while thorough, is descriptive and accessible to all levels of readers.

Venus in India Charles Devereaux - Steamy smut from the Victorian era! Venus in India is said to be the autobiography of a British Army officer serving on the North West Frontier of India, describing his erotic adventures with Lizzie Wilson and the three daughters of Colonel Selwyn. Before internet porn, before porn videos, before porn movies, people lusting for raunchy, X-rated entertainment read pornographic books and magazines. Victorian England had its own adult entertainment industry countless erotic novels were put out by shady publishers, some books were printed by the authors themselves, and most of the writers were anonymous. Many of these 19th century books are surprisingly kinky, and some of them may be quite

offensive to modern day readers in more ways than one. First published in 1889, this classic of Victorian pornography was written by the pseudonymous Charles Devereaux.

Venus and Mercury have long been regarded

as difficult targets for amateur observers, but advances in commercially-made telescopes have brought them within the skills of observers of only moderate experience. Peter Grego ' s fascinating book presents an up-to-date, detailed description of the history and geology of the so-called inferior planets, and provides the latest, most useful advice on observing and recording them with commercially-available telescopes and cameras. The book also offers a wealth of detailed practical information on every aspect of observing, from safely targeting the two planets, through visual observing, to sketching and electronic imaging.

La crescita esponenziale dell ' interesse per la ventilazione non invasiva (NIV) verificatasi negli ultimi 10-15 anni, non solo dal punto di vista clinico e applicativo, ma

anche speculativo, ha pochi eguali nella recente storia della medicina. In Italia e in Europa in generale tale metodica è applicata su larga scala, prevalentemente nei reparti di Pneumologia e nelle Unit à di Cure Intermedie Respiratorie, mentre per quanto riguarda la sua applicazione nei reparti di Terapia Intensiva Generale (UTI) i dati emersi da uno studio multicentrico condotto nei paesi francofoni vedono la NIV impiegata in una quantit à di casi che rappresenta fino al 50% dei pazienti che richiedono assistenza ventilatoria. Il recente studio EUROVENT ha inoltre dimostrato come la NIV non si limiti alla sua applicazione " acuta " , dal momento che circa 25.000 pazienti sono attualmente ventilati " in cronico " a domicilio. Inoltre,

si calcola che milioni di cittadini europei soffrano attualmente di disturbi respiratori durante il sonno, e per molti di essi il trattamento medico di prima scelta è rappresentato dalla NIV. Questo libro si propone lo scopo di richiamare l'attenzione sulle più recenti acquisizioni in questo campo, con la speranza di fornire uno strumento valido e maneggevole per la scelta e l'impostazione della migliore modalità di ventilazione.

Where the eye sees the brushstroke, the heart sees the truth. At thirty-five, Gabriella “Ella” Graham is a successful portrait artist in London. She captures the essential truth in each of her subjects' faces—a tilt of the chin, a glint in the eye—and immortalizes it on canvas. But closer to home, Ella finds the truth more elusive. Her father abandoned the family when she was five, and her mother has remained silent on the subject ever since. Ella's sister, Chloe, is engaged to Nate, an American working in London, but Ella suspects that he may not be so committed. Then, at Chloe's behest, Ella agrees to paint Nate's portrait. From session to session, Ella begins to see Nate in a different light, which gives rise to conflicted feelings. In fact, through the various

people she paints—including an elderly client reflecting on her life and a woman dreading the prospect of turning forty—Ella realizes that there is so much more to a person's life than what is seen on the surface. And as her portraits of Nate and the others progress, they begin to reveal less about their subjects than about the artist herself. Look for special features inside. Stanley Fish, one of the foremost critics of literature working today, has spent much of his career writing and thinking about Milton. This book brings together his finest published work with brand new material on Milton and on other authors and topics in early modern literature. In his analyses of Renaissance texts, he meditates on the interpretive problems that confront readers and offers a sustained critique of historicist methods of interpretation. Intention, he argues, is key to

understanding which pieces of historical data are relevant to literary criticism. Lucid, provocative, direct and inimitable, this new book from Stanley Fish is required reading for anyone teaching or studying Milton and early modern literary studies.
