Many thousands of different types of vehicles were used by the armies during the Second World War for various roles, including the fighting vehicles such as armoured cars and tanks. Today these are very popular with enthusiasts who restore these historic vehicles to their pristine state and attend specialist gatherings around the UK, Europe and the USA. This book explores original and reconstructed military vehicles from British, US, Russian, Italian and German forces using stunning colour photographs. It also provides a detailed history of each vehicle's development and use in the war, plus a wealth of technical information and rare internal shots. The range of vehicles includes trucks, ambulances, half-tracks, motorcycles, bulldozers, armoured cars and of course the impressive range of tanks, from tankettes to the fearsome German Tiger. Some vehicles are so rare that examples have been recreated using designs of the era and together with the original vehicles their fascinating wartime experiences are revealed. From the Moto Guzzi tricycle to the Schwimmwagen,

the T-34 to the Austin ambulance, this is the perfect book for recreating, restoring and exploring the history of these classic military vehicles.

The VW Beetle is simply the best-known and most-loved car in the history of the motor car. Amazingly, some of the earliest Beetles, now seven decades old, are still on the road, while more recent examples, particularly the classics from the late 1950s and '60s are many an enthusiast's pride and joy. Created through the ingenuity of Ferdinand Porsche, brought to the brink of series production by Hitler's Nazis and rescued from oblivion by the British after the war, the Beetle soon developed into a phenomenon under the guardianship of Heinz Nordhoff, the VW boss for two decades. Overwhelmingly successful in over 150 countries across the world, most notably in the USA; when the car finally fell from grace in Europe after Nordhoff's death, it was destined to enjoy a revitalised and lengthy swansong in South America. The legendary Beetle 's intriguing story is unravelled in this fascinating and handsome book.

Volkswagen Bus History of the Volkswagen Bus. List of the Volkswagen Bus. The concept for the Type 2 is credited to Dutch Volkswagen importer Ben Pon. (It has similarities in concept to the 1920s Rumpler Tropfenwagen and 1930s Dymaxion car by Buckminster Fuller, neither of which reached production.) Pon visited Wolfsburg in 1946, intending to purchase Type 1s for import to Holland, where he saw an improvised parts-mover and realized something better was possible using the stock Type 1 pan. He first sketched the van in a doodle dated April 23, 1947, proposing a payload of 690 kg (1,500 lb) and placing the driver at the very front. Production would have to wait, however, as the factory was at capacity producing the Type 1. The first generation of the Volkswagen Type 2 with the split windshield, informally called the Microbus, Splitscreen, or Splittie among modern fans, was produced from 8 March 1950 through the end of the 1967 model year. From 1950 to 1956, the T1 was built in Wolfsburg; from 1956, it was built at the completely new Transporter factory in Hanover. Like the Beetle, the first Transporters used the 1100 Volkswagen air-cooled engine, an 1,131 cc (69.0 cu in), DIN-rated 18 kW (24 PS; 24 bhp), air-cooled flat-four-cylinder 'boxer' engine mounted in the rear. This was upgraded to the 1200 - an 1,192 cc (72.7 cu in) 22 kW (30 PS; 30 bhp) in 1953. A

higher compression ratio became standard in 1955; while an unusual early version of the 30 kW (41 PS; 40 bhp) engine debuted exclusively on the Type 2 in 1959. This engine proved to be so uncharacteristically troublesome that Volkswagen recalled all 1959 Transporters and replaced the engines with an updated version of the 30 kW engine. Portland Speedway, also known as Union Avenue Speedway, opened in the summer of 1936 and enjoyed a 66-year run as the leading oval track in Portland. Originally built as a dirt track on a farmer s field in the far north of the city, the track was known for track roadsters based on Ford s Model T, sprint cars, and stock cars. As returning servicemen discovered a love for racing, the track exploded in

popularity after World War II. The track was paved in 1946 and flourished as a center for racing; it even included a drive-in movie theater. Many notable racers, such as Len Sutton, Rolla Vollstedt, Greg Biffle, and Mike Bliss, either started their careers at or visited Portland Speedway. But the real story of Portland Speedway is told in the hundreds of people who made a living or simply enjoyed the racing life while competing at the Pacific Northwest s finest track."
