The Financial Crisis Inquiry
Report, published by the U.S.
Government and the Financial
Crisis Inquiry Commission in
early 2011, is the official
government report on the
United States financial collapse
and the review of major
financial institutions that
bankrupted and failed, or
would have without help from
the government. The
commission and the report
were implemented after
Congress passed an act in 2009
to review and prevent

fraudulent activity. The report
details, among other things, the
periods before, during, and
after the crisis, what led up to it,
and analyses of subprime
mortgage lending, credit
expansion and banking policies,
the collapse of companies like
Fannie Mae and Freddie Mac,
and the federal bailouts of
Lehman and AIG. It also
discusses the aftermath of the
fallout and our current state.
This report should be of interest
to anyone concerned about the
financial situation in the U.S.
and around the world. THE
FINANCIAL CRISIS
INQUIRY COMMISSION is

an independent, bi-partisan,
government-appointed panel of
10 people that was created to
"examine the causes, domestic
and global, of the current
financial and economic crisis in
the United States." It was
established as part of the Fraud
Enforcement and Recovery Act
of 2009. The commission
consisted of private citizens
with expertise in economics and
finance, banking, housing,
market regulation, and
consumer protection. They
examined and reported on "the
collapse of major financial
institutions that failed or would
have failed if not for

exceptional assistance from the government." News Dissector

DANNY SCHECHTER is a journalist, blogger and filmmaker. He has been reporting on economic crises since the 1980's when he was with ABC News. His film *In Debt We Trust* warned of the economic meltdown in 2006. He has since written three books on the subject including *Plunder: Investigating Our Economic Calamity* (Cosimo Books, 2008), and *The Crime Of Our Time: Why Wall Street Is Not Too Big to Jail* (Disinfo Books, 2011), a companion to his latest film *Plunder The*

Crime Of Our Time. He can be reached online at www.newsdissector.com. *Glencoe Precalculus Student Edition* Westminster John Knox Press

Cuneiform to Computer provides a brief history of how reference works developed, but concentrates on how they reflect attitudes of their particular period of publication. Each chapter focuses on a basic reference form and highlights the major titles in its evolution. Stress is on the inter-relationship of reference sources with social change and development.

Designed to empower preachers as they lead their congregations to connect their lives to Scripture, *Connections* features a broad set of interpretive tools that provide commentary and worship aids on the Revised Common Lectionary. This nine-volume series offers

creative commentary on each reading through the lens of its connections to the rest of Scripture and then seeing the reading through the lenses of culture, film, fiction, ethics, and other aspects of contemporary life. Commentaries on the Psalms make connections to other readings and to the congregation's experience of worship. *Connections* is published in partnership with Austin Presbyterian Theological Seminary.

Jenna Fischer's Hollywood journey began at the age of 22 when she moved to Los Angeles from her hometown of St. Louis. With a theater degree in hand, she was determined, she was confident, she was ready to work hard. So, what could go wrong? Uh, basically

everything. The path to being a professional actor was so much more vast and competitive than she'd imagined. It would be eight long years before she landed her iconic role on *The Office*, nearly a decade of frustration, struggle, rejection and doubt. If only she'd had a handbook for the aspiring actor. Or, better yet, someone to show her the way—an established actor who could educate her about the business, manage her expectations, and reassure her in those moments of despair. Jenna

wants to be that person for you. With amusing candor and wit, Fischer spells out the nuts and bolts of getting established in the profession, based on her own memorable and hilarious experiences. She tells you how to get the right headshot, what to look for in representation, and the importance of joining forces with other like-minded artists and creating your own work—invaluable advice personally acquired from her many years of struggle. She provides helpful hints on how to be gutsy and take

risks, the tricks to good auditioning and callbacks, and how not to fall for certain scams (auditions in a guy's apartment are probably not legit—or at least not for the kind of part you're looking for!). Her inspiring, helpful guidance feels like a trusted friend who's made the journey, and has now returned to walk beside you, pointing out the pitfalls as you blaze your own path towards the life of a professional actor.

This book by a well-respected teacher of preachers develops an integrated biblical and theological vision for preaching that addresses the essentials of this most important activity in the church. Drawing on influential voices from church history, Abraham Kuruvilla reclaims what has been lost through the centuries and offers fresh insights, showing preachers what they can aim for as an ideal in their preaching. He helps preachers have a better conception of what it means to preach, a fuller understanding of the divinely granted privilege of preaching, and a

greater excitement for the preaching ministry. Concluding biblical reflections reinforce the teaching of each chapter.

The pressure is on during the interview process but with the right preparation, you can walk away with your dream job.

This classic book uncovers what interviews are really like at America's top software and computer companies and provides you with the tools to succeed in any situation. The authors take you step-by-step through new problems and complex brainteasers they were asked during recent technical interviews. 50

interview scenarios are presented along with in-depth analysis of the possible solutions. The problem-solving process is clearly illustrated so you'll be able to easily apply what you've learned during crunch time. You'll also find expert tips on what questions to ask, how to approach a problem, and how to recover if you become stuck. All of this will help you ace the interview and get the job you want. What you will learn from this book
Tips for effectively completing the job application
Ways to prepare for the entire programming interview process
How to find the kind of programming job that fits you

best Strategies for choosing a solution and what your approach says about you How to improve your interviewing skills so that you can respond to any question or situation Techniques for solving knowledge-based problems, logic puzzles, and programming problems Who this book is for This book is for programmers and developers applying for jobs in the software industry or in IT departments of major corporations. Wrox Beginning guides are crafted to make learning programming languages and technologies easier than you think, providing a structured, tutorial format that

will guide you through all the techniques involved.

Tech Notes ASET

The mission of the Church is to introduce the person of Christ to individual human beings who by faith enter into communion with God. This does not involve adapting information to a particular context, but rather establishing the context prescribed by God for the presence of Christ wherever we happen to be among the peoples of the world.

Contextualization, then, creates a new invitational core context which is host to the presence of the divine person. This is defined with the help of the gifts of ecclesial Tradition, which enables conditions that facilitate communion, and which thus helps us engage the world.

Oxford, Cambridge and Dublin Messenger of Mathematics John Wiley & Sons

The spread of the Arthurian legend during

the course of the twelfth century is one of the most remarkable phenomena in literary history. Arthurian Chronicles looks at two unsung but deserving poets who contributed to the diffusion of the legend, Wace who preceded the more famous Chretien de Troyes, and Layamon, who followed him. Wace was of an inquiring turn of mind, with, for his day, a scholarly and sceptical approach to lais, marvellous tales, and fables. 'Not all lies, nor all true, all foolishness, nor all sense. So much have the story-tellers told, and so much have the makers of fables fabled to embellish their stories, that they have made all seem fable,' he writes. He was the first to mention the famous Round Table. In Layamon's Brut, Arthur, hero and emperor, makes his first appearance in English vernacular literature. It is Layamon who tells of the elves that attended on the infant Arthur and endowed him with gifts and qualities; he also launched Arthur after his last battle to Argante in Avallon, to be healed of his wounds. In this English language prose translation of the Wace and Layamon Arthurian poems, the folk-tale ferocity of Arthur is made as exciting to the readers as to the poets who contributed so much to Arthur's legend.
