The need for safety nets in Sub-Saharan Africa is  
vast. In addition to being the world's poorest  
region, Sub-Saharan Africa is also one of the most  
unequal. In this context, redistribution must be  
seen as a legitimate way to fight poverty and  
ensure shared prosperity - and all the more so in  
countries where growth is driven by extractive  
industries that are not labor-intensive and often  
employ very few poor people. Given that most  
African countries face difficult decisions about how

to allocate limited resources among a number of  
social programs, evidence is important. Do Safety  
Net programs actually benefit the poorest people?  
This book demonstrates with empirical evidence  
that it is possible to reach the poorest and most  
vulnerable people with safety net programs, and  
provides lessons for the effective use of targeting  
methods to achieve this outcome in the region.

Livestock rearing is an integral part of  
socio-economic framework of India since  
time immemorial. Livestock sub-sector  
being a vital component of agriculture  
sector, plays a multidimensional role and  
acts as a tool in achieving nutritional  
security, employment generation and  
socio-economic development of rural  
sector, particularly among the landless,  
small, marginal farmers and women. India  
possesses huge livestock population of  
varying production potentials, distributed

across different agro-ecological zones  
under different operational and livestock  
holding size. Hence, it requires different  
package of practices for their  
management. Further, factors like drivers  
of development change and climate  
change pose many challenges to this  
sector. Farm animal management  
encompasses integrated and precise  
application of basic scientific principles of  
breeding, feeding, heeding and weeding in  
general as well as in times of specific  
need. Therefore, an attempt has been  
made in this book to cover all these basic  
and applied aspects of livestock  
management in detail. In the perspective  
of reorganization of the syllabus of  
veterinary science and animal husbandry  
programme. This book is appropriately  
divided into fifteen s covering almost each  
and every aspect of livestock production  
management.

This book looks at the trends in the development of the Igbo novel from its antecedents in oral performance, through the

emergence of the first published novel, Omenuko, in 1933 by Pita Nwana, to the contemporary Igbo novel. Defining "Igbo literature" as literature in Igbo language, and "Igbo novel" as a novel written in Igbo language, the author argues that oral and written literature in African indigenous languages hold an important foundational position in the history of African literature. Focusing on the contributions of Igbo writers to the development of African literature in African languages, the book examines the evolution, themes, and distinctive features of the Igbo novel, the historical circumstances of the rise of the African novel in the pre-colonial era and their impact on the contemporary Igbo novel. This book will be of interest to scholars of African literature, literary history, and Igbo studies.

Innovations in Technology Enhanced Learning, edited by Dr Anton Ravindran and Professor Liz Bacon, is a collection of state-of-the-art research papers discussing innovations in the area of technology enhanced learning in adult education. It was inspired by ideas presented at the annual Computer Science Education:

Innovation and Technology Conferences, organized and administered by Global Science and Technology Forum (GSTF). Input for the twelve chapters have been sourced from ten geographically dispersed countries from across the world: USA, Spain, Portugal, UK, Bahrain, Saudi Arabia, Malaysia, Singapore, Iran and Australia, providing a truly international perspective on the field. With rapid developments in the technology and delivery mechanisms including the development of MOOCs (Massive Open Online Courses), online learning is in the process of revolutionising higher education, which makes this book all the more relevant and timely.

This Special Issue of Sustainability on “Partnerships for the Sustainable Development Goals (SDGs)” brings together a collection of articles that explore a diverse range of issues and challenges faced by partnership arrangements that seek to support the achievement of the SDGs and the United Nations 2030 Agenda for Sustainable Development. As well as encompassing a diverse range of collaborative forms and themes, and involving a variety of stakeholders, these collaborative initiatives are all notably shaped by the dynamics of the particular contexts in which they operate. These contexts include individual, organizational, sectoral, spatial, and geographical settings. The impact of the COVID-19 pandemic on partnering for the SDGs is also apparent. The interplay between these elements offers a useful global-local context for further inquiry and reflection on how deeper and more meaningful collaborative relationships might be developed to achieve the SDG targets and beyond.

Several high-level international groups urged development of methodological standards for securities statistics. In response, the Bank for International Settlements (BIS), the European Central Bank (ECB), and the International Monetary Fund (IMF) jointly developed the Handbook on Securities Statistics. The Handbook is the first publication that deals exclusively with the conceptual framework for the compilation and presentation of relevant, coherent, and internationally comparable securities statistics. Part I of the Handbook covers debt securities issues. Other parts are under development and cover issues of other types of securities and securities holdings.

Adapting to the ever-changing GMAT exam, Manhattan Prep’s 6th Edition GMAT Strategy Guides offer the latest approaches for students

looking to score in the top percentiles. Written by active instructors with 99th-percentile scores, these books are designed with the student in mind. The GMAT Critical Reasoning strategy guide demystifies critical reasoning by teaching a clear, consistent, and effective approach to understanding an argument’s logic and choosing the best answer to the given question. Unlike other guides that attempt to convey everything in a single tome, the GMAT Critical Reasoning strategy guide is designed to provide deep, focused coverage of one specialized area tested on the GMAT. As a result, students benefit from thorough and comprehensive subject material, clear explanations of fundamental principles, and step-by-step instructions of important techniques. In-action practice problems and detailed answer explanations challenge the student, while topical sets of Official Guide problems provide the opportunity for further growth. Used by itself or with other Manhattan Prep Strategy Guides, the GMAT Critical Reasoning strategy guide will help students develop all the knowledge, skills, and strategic thinking necessary for success on the GMAT. Purchase of this book includes one year of access to Manhattan Prep’s Critical Reasoning Question Bank. All of Manhattan Prep’s GMAT Strategy Guides are aligned with

Effective Teaching Methods Routledge An exploration of dreams as a spiritual source of healing and inner guidance for your health and well-being • 2018 Nautilus Silver Award • Shares stories--confirmed by pathology reports--from subjects in medical research projects whose dreams diagnosed illness and helped heal their lives • Explores medical studies and ongoing research on the diagnostic power of precognitive dreams, including Dr. Burk's own medical research • Includes an introduction to dream journaling and interpretation techniques Your dreams can provide inner guidance filled with life-saving information. Since ancient Egypt and Greece, people have relied on the art of dreaming to diagnose illness and get answers to personal life challenges. Now, dreams are making a grand reappearance in the medical arena as recent scientific research and medical pathology reports validate the diagnostic abilities of precognitive dreams. Are we stepping back into the future as modern medical tests show dreams can be early warning signs of cancer and other diseases? Showcasing the

important role of dreams and their power to detect and heal illness, Dr. Larry Burk and Kathleen O'Keefe-Kanavos share amazing research and true stories of physical and emotional healings triggered by dreams. The authors explore medical studies and ongoing research on the diagnostic power of precognitive dreams, including Dr. Burk's own research on dreams that come true and can be medically validated. They share detailed stories--all confirmed by pathology reports--from subjects in medical research projects whose dreams diagnosed illness and helped heal their lives, including Kathleen's own story as a three-time breast cancer survivor whose dreams diagnosed her cancer even when it was missed by her doctors. Alongside these stories of survival and faith, the authors also include an introduction to dream journaling and interpretation, allowing the reader to develop trust in their dreams as a spiritual source of healing and inner guidance. *Seven Things You Should Know about Divine Healing* Simon and Schuster Omen k (real name: Igwegbe Odum) whose home in Okigwe, Eastern Nigeria, was a popular spot for field trips by students in

schools and colleges, as well as a favourite attraction for tourists in the decades before and after the Nigerian Independence in 1960. Generations of Igbo children began their reading in Igbo with Omen k, and those who did not have the opportunity to go to school still read Omen k in their homes or at adult education centers. Omen k was a legendary figure and his 'sayings' became part of the Igbo speech repertoire that young adults were expected to acquire. Omen k, a classic in Igbo Literature, written by Pita Nwana and published in 1933 by Longman, Green & Co, Ltd, London, is in this translation made accessible to a global audience. Emenyonu utilizes his mastery of both languages (Igbo and English) to faithfully present to his audience a complete rendition of Omen k as originally written. The timeless significance of this novel as a progenitor of the Igbo language novel is again underscored. *News, Business and Public Information* World Bank Publications The history of newspaper advertising began in the seventeenth-century Low Countries. The newspaper publishers of the Dutch Republic were the first to embrace advertisements, decades before their peers in other news markets in Europe. In this survey, Arthur der Weduwen and Andrew Pettegree have brought

together the first 6,000 advertisements placed in Dutch and Flemish newspapers between 1620 and 1675. Provided here in an English translation, and accompanied by seven indices, this work provides for the first time a complete overview of the development of newspaper advertising and its impact on the Dutch book trade, economy and society. In these evocative announcements, ranging from advertisement for library auctions, the publication of new books, pamphlets and maps to notices of crime, postal schedules or missing pets, the seventeenth century is brought to life. This survey offers a unique perspective on daily life, personal relationships and societal change in the Dutch Golden Age.

Each volume in the 7-volume series *The World of Science Education* reviews research in a key region of the world. These regions include North America, South and Latin America, Asia, Australia and New Zealand, Europe and Israel, North Africa and the Middle East, and Sub-Saharan Africa. The focus of this Handbook is on research in science education in mostly former British colonies in Sub-Saharan Africa and the scholarship that most closely support this program. The reviews of the research situate what has been accomplished within a given field in Sub-Saharan Africa rather

than an international context. The purpose therefore is to articulate and exhibit regional networks and trends that produced specific forms of science education. The thrust lies in identifying the roots of research programs and sketching trajectories – focusing the changing façade of problems and solutions within regional contexts. The approach allows readers to review what has been done and accomplished, what is missing and what might be done next.

#### *Cognition, Metacognition, and Culture in STEM Education* International Monetary Fund

This book addresses the point of intersection between cognition, metacognition, and culture in learning and teaching Science, Technology, Engineering, and Mathematics (STEM). We explore theoretical background and cutting-edge research about how various forms of cognitive and metacognitive instruction may enhance learning and thinking in STEM classrooms from K-12 to university and in different cultures and countries. Over the past several years, STEM education research has witnessed rapid growth, attracting considerable interest among scholars and educators. The book provides an updated collection of studies about cognition, metacognition and culture in the four STEM domains. The field of research, cognition and metacognition in STEM education still suffers from ambiguity in meanings of key concepts that various

researchers use. This book is organized according to a unique manner: Each chapter features one of the four STEM domains and one of the three themes—cognition, metacognition, and culture—and defines key concepts. This matrix-type organization opens a new path to knowledge in STEM education and facilitates its understanding. The discussion at the end of the book integrates these definitions for analyzing and mapping the STEM education research.

Assessing Student Learning in Africa BRILL  
Satirist and chronicler of the many-faceted world of education in Nigeria, the author is one of Nigeria's foremost writers. In this novel, he tells of Obuechina, the only brother of six older sisters, prize pupil in the village school, apple of his doting mother's eye, eight years old and hopelessly spoilt. In a vain attempt to salvage his character, his father decides he must be sent away as a servant to a schoolmaster with a dragon of a wife. Obu goes - and comes back very different.

and Financial Accountability (PEFA) methodology. The assessment was undertaken in close collaboration with the Ministry of Finance's (MoF) PFM Reform Coordination Unit (RCU), with the participation of staff of the African Development Bank and the World Bank, and with financial support from the European Union and Sida. The assessment examines progress since the PEFA assessment of 2007 and provides a renewed baseline for monitoring progress in PFM reform and for supporting the GoL in refining, where necessary, the current PFM reform strategy. The assessment snapshot date was April 23, 2012. The report was reviewed by the GoL, the PEFA Secretariat, a donor reference group, and FAD, the latter being at the same time responsible for quality assurance.
