Imagine a young
boy who has never
had a loving

home. His only possessions are the old, torn clothes he carries in a paper bag. The only world he knows is one of isolation and fear. Although others had rescued this boy from his abusive alcoholic mother, his real hurt is just begining -- he has no place to call home. This is Dave Pelzer's long-awaited sequel to *A Child Called "It"*. In *The Lost Boy*, he answers questions and reveals new adventures through the compelling story of his life as an adolescent. Now

considered an F-Child (Foster Child), Dave is moved in and out of five different homes. He suffers shame and experiences resentment from those who feel that all foster kids are trouble and unworthy of being loved just because they are not part of a "real" family. Tears, laughter, devastation and hope create the journey of this little lost boy who searches desperately for just one thing -- the love of a family. [Empowering Smart Shoppers to Live Rich](#)

How does a privileged, eighteen year old end up in prison, convicted of one of the rarest of crimes--matricide?
The literary nonfiction
Stranger to the Truth explores the fatal intersection in the lives of Noura Jackson, her circle of dissolute Memphis friends, and the death of Noura's mother, Jennifer, on the eve of a popular outdoor festival. The brutal attack seemed to reflect personal and exponential rage.

Tragedy stalked Noura. Her father was fatally shot when she was seventeen. A mystery never solved. A year later an auto accident claimed her best friend. Both mother and daughter were reeling from shock, grief, and confusion. The tension between them escalated until Noura's difficult teenage years yielded to something much darker. More than a whodunit, this fact-based account tells a spellbinding tale of impetuous youth and a single parent who too late

assumes the role of disciplinarian, saying no to the demands of her daughter who will not listen. Weaving multiple points of view, back stories, and extensive research, Stranger to the Truth corrals a timely, complex story in an absorbing narrative. Praise for Stranger to the Truth "In Stranger to the Truth, Ms. Hickman has taken a local tragedy and, with eloquence and empathy, given it universal application. The reader will find not only a gripping

story, but also a moving exploration of the shadows that dwell within us all.”

#1 NEW YORK TIMES BEST SELLER • John Grisham takes you to a different kind of court in his first basketball novel. Samuel “Sooley” Sooleymon is a raw, young talent with big hoop dreams—and even bigger challenges off the court. “Hard to put down ... the pages turn quickly ... building to a climax that won’t

leave readers doubting whether this is a John Grisham novel.” —Associated Press
In the summer of his seventeenth year, Samuel Sooleymon gets the chance of a lifetime: a trip to the United States with his South Sudanese teammates to play in a showcase basketball tournament. He has never been away from home, nor has he ever been on an airplane. The opportunity to be scouted by dozens of college coaches is a dream come true. Samuel is an amazing athlete, with speed, quickness, and an astonishing vertical leap. The rest of his game, though, needs work, and the

American coaches are less than impressed. During the tournament, Samuel receives devastating news from home: A civil war is raging across South Sudan, and rebel troops have ransacked his village. His father is dead, his sister is missing, and his mother and two younger brothers are in a refugee camp. Samuel desperately wants to go home, but it’s just not possible. Partly out of sympathy, the coach of North Carolina Central offers him a scholarship. Samuel moves to Durham, enrolls in classes, joins the team, and prepares to sit out his freshman season. There is

plenty of more mature talent and he isn't immediately needed. But Samuel has something no other player has: a fierce determination to succeed so he can bring his family to America. He works tirelessly on his game, shooting baskets every morning at dawn by himself in the gym, and soon he's dominating everyone in practice. With the Central team losing and suffering injury after injury, Sooley, as he is nicknamed, is called off the bench. And the legend begins. But how far can Sooley take his team? And will success allow him to save his family? Gripping

and moving, Sooley showcases John Grisham's unparalleled storytelling powers in a whole new light. This is Grisham at the top of his game. **Crazy-Cool Duct Tape Projects** Penguin Books Earth Day celebrates our beautiful planet and calls us to act on its behalf. An “ingenious, horrifying” (The Guardian) first contact story by one of the twentieth century’s most brilliant—and neglected—science fiction and horror writers, whom Stephen King called “the best writer of science fiction that England has ever produced.” “Few books capture the obscure, elliptical way that threats move from the background to the foreground of reality like *The Kraken Wakes*. . . . Feels all too familiar in today’s age of anti-vaxxer

disinformation and QAnon conspiracists.” —Alexandra Kleeman, from the Introduction What if aliens invaded and colonized Earth’s oceans rather than its land? Britain, 1953: It begins with red dots appearing across the sky and crashing to the oceans’ deeps. At first, many people believe that these aliens are interested in only what’s down below. But when the polar ice-caps begin to melt, it becomes clear that these beings are not interested in sharing the Earth and that humankind might just be on the brink of extinction. . . .

The must-have

guide to pop culture, singles bar (1965 on history, and world-changing ideas that started in New York City, from the magazine at the center of it all. Since its founding in 1624, New York City has been a place that creates things. What began as a trading post for beaver pelts soon transformed into a hub of technological, social, and cultural innovation—but beyond fostering literal inventions like the elevator (inside Cooper Union in 1853), Q-tips (by Polish immigrant Leo Gerstenzang in 1923), General Tso’s chicken (reimagined for American tastes in the 1970s by one of its Hunanese creators), the

singles bar (1965 on the Upper East Side), and Scrabble (1931 in Jackson Heights), the city has given birth to or perfected idioms, forms, and ways of thinking that have changed the world, from Abstract Expressionism to Broadway, baseball to hip-hop, news blogs to neoconservatism to the concept of “downtown.” Those creations and more are all collected in The Encyclopedia of New York, an A-to-Z compendium of unexpected origin stories, hidden histories, and useful guides to the greatest city in the world, compiled by the editors of New York Magazine (a city invention itself, since 1968) and

featuring contributions from Rebecca Traister, Jerry Saltz, Frank Rich, Jonathan Chait, Rhonda Garelick, Kathryn VanArendonk, Christopher Bonanos, and more. Here you will find something fascinating and uniquely New York on every page: a history of the city's skyline, accompanied by a tour guide's list of the best things about every observation deck; the development of positive thinking and punk music; appreciations of seltzer and alternate-side-of-the-street parking; the oddest object to be found at Ripley's Believe It or Not!; musical theater next to

muckracking and mugging; and the unbelievable revelation that English muffins were created on...West Twentieth Street. Whether you are a lifelong resident, a curious newcomer, or an armchair traveler, this is the guidebook you'll need, straight from the people who know New York best.

New York City: a battered town left for dead, one that almost a million people abandoned and where those who remained had to live behind triple deadbolt locks. It was reinvigorated and became the capital of wealth and innovation, an engine of cultural vibrancy, a magnet for immigrants, and a city of endless possibility. Since its founding in 1968, New York

Magazine has told the story of that city's constant morphing, week after week. This book draws from all that coverage to present an enormous, sweeping, idiosyncratic picture of a half-century at the center of the world. It constitutes an unparalleled history of that city's transformation, and of a New York City institution as well.

The gripping story of Elizabeth Holmes and Theranos—one of the biggest corporate frauds in history—a tale of ambition and hubris set amid the bold promises of Silicon Valley, rigorously reported by the prize-winning journalist. With a new Afterword.
“Chilling ... Reads like a thriller ... Carreyrou tells [the Theranos story] virtually to perfection.” —The New York Times Book Review In 2014, Theranos founder and CEO Elizabeth Holmes was widely seen

as the next Steve Jobs: a brilliant Stanford dropout whose startup “unicorn” promised to revolutionize the medical industry with its breakthrough device, which performed the whole range of laboratory tests from a single drop of blood. Backed by investors such as Larry Ellison and Tim Draper, Theranos sold shares in a fundraising round that valued the company at more than \$9 billion, putting Holmes’s worth at an estimated \$4.5 billion. There was just one problem:

The technology didn’t work. Erroneous results put patients in danger, leading to misdiagnoses and unnecessary treatments. All the while, Holmes and her partner, Sunny Balwani, worked to silence anyone who voiced misgivings—from journalists to their own employees. "The seminal

book on the child-separation policy."
—Rachel Maddow
The award-winning NBC News correspondent lays bare the full truth behind the Trump administration's systematic separation of families at the US-Mexico border. Los Angeles Times Book Prize Finalist | American Bar Association's Silver Gavel Award Finalist In June 2018, Donald Trump's most notorious decision as president had secretly been in effect for months before most Americans

became aware of the astonishing inhumanity being perpetrated by their own government. Jacob Soboroff was among the first journalists to expose this reality after seeing firsthand the living conditions of the children in custody. His influential series of reports ignited public scrutiny that contributed to the president reversing his own policy and earned Soboroff the Cronkite Award for Excellence in Political Broadcast Journalism and, with his colleagues, the 2019 Hillman Prize for Broadcast Journalism. But beyond the headlines, the complete, multilayered story lay untold. How, exactly, had such a humanitarian tragedy—now deemed “torture” by physicians—happened on American soil? Most important, what has been the human experience of those separated children and parents? Soboroff has spent the past two years reporting the many strands of this complex narrative, developing sources from within the Trump administration who share critical details for the first time. He also traces the dramatic odyssey of one separated family from Guatemala, where their lives were threatened by narcos, to seek asylum at the U.S. border, where they were separated—the son ending up in Texas, and the father thousands of miles away, in the Mojave desert of central California. And he joins the heroes who emerged to challenge the policy, and who worked on the ground to reunite parents with children. In this essential
