36-year old actuary Gerald Blumenstein despised every aspect of his life. His butterball-esque appearance was unappealing, his dull job unnerving, his cramped apartment uncomfortable, and his love life nonexistent. And yet, not a soul in the world was more petrified of death than Gerald. In fact, Gerald Blumenstein would do anything to avoid dying, even if it meant remaining trapped forever in an existence that, quite frankly, sucked. Then, one fateful night, while attending a highly unorthodox therapy session mandated by his boss, Gerald Blumenstein died. Now his life will never be the same ...*Life Sucks, Death Bites* is a dark

comedy about the inconveniences of daily life and nightly undeath, with some romance and a bit of psychotherapy thrown in for good measure. If the three critically acclaimed HBO series, *Curb Your Enthusiasm*, *True Blood*, and *In Treatment*, could procreate, this novel would undoubtedly be the lovechild that they would produce.

"A week in your life, for a week in mine." I watched her taking the statement in, considering it. Years of dreaming and yearning depended on her one answer. The blood is the life, or at least that is what they say, for Scarlet this rings truer than for most. Her empty vampire life is spent siphoning the memories from her prey, experiencing a life she never knew. Until one day she concocts a plan to swap lives with a human girl named Jessica. Living as Jessica, Scarlet is able to experience for the first time what most of us take for granted; family, friends, school and, of course, her first kiss - one that does not involve drinking the person's blood for a change. But being human, as Scarlet soon learns, is not the picture perfect life she had imagined, darkness doesn't just live underground, sometimes it seeps into the lives of the living and to experience life you must also experience death, real death, not the kind you come back from. In the bowels of the Underdark Jessica, under the protection of the glamour spell, lives amongst Vampires, Witches and the Ghoul underclass. As the days go by in their week long adventure, both girls learn more about the worlds they are embroiled in; where good and evil is not so easy to differentiate and what really makes a monster.

This book critically explores the interconnections between tourism and the contemporary city from a policy-oriented standpoint, combining tourism perspectives with discussion of urban models, issues, and challenges. Research-based analyses addressing managerial issues and evaluating policy implications are described, and a comprehensive set of case studies is presented to demonstrate practices and policies in various urban contexts. A key message is that tourism policies should be conceived as integrated urban policies that promote tourism performance as a means of fostering urban quality and the well-being of local communities, e.g., in terms of quality spaces, employment, accessibility, innovation, and learning opportunities. In addition to highlighting the significance of urban tourism in relation to key urban challenges, the book reflects on the risks and tensions associated with its development, including the rise of anti-tourism movements as a reaction to touristification, cultural commodification, and gentrification. Attention is drawn to asymmetries in the costs and benefits of the city tourism phenomenon, and the supposedly unavoidable trade-off between the interests of residents and tourists is critically questioned.

Wealthy, attractive, and powerful, everything seems to be picture perfect for the Warlocks, until a tragic death in the family leads them to learn the true nature of their seemingly endless luck. Could these affluent brothers be descended from actual warlocks? To protect their legacy, the Warlocks must combine their abilities to produce one very magical movie. In 1896, French magician and filmmaker George Méliès brought forth the first celluloid vampire in his film *Le manoir du diable*. The vampire continues to be one of film's most popular gothic monsters and in fact, today more people become acquainted with the vampire through film than through literature, such as Bram Stoker's classic *Dracula*. How has this long legacy of celluloid vampires affected our understanding of vampire mythology? And how has the vampire morphed from its folkloric and literary origins? In this entertaining and absorbing work, Stacey Abbott challenges the conventional interpretation of vampire mythology and argues that the medium of film has completely reinvented the vampire archetype. Rather than representing the primitive and folkloric, the vampire has come to embody the very experience of modernity. No longer in a cape and coffin, today's vampire resides in major cities, listens to punk music, embraces technology, and adapts to any situation. Sometimes she's even female. With case studies of vampire classics such as *Nosferatu*, *Martin*, *Blade*, and *Habit*, the author traces the evolution of the American vampire film, arguing that vampires are more than just blood-drinking monsters; they reflect the cultural and social climate of the societies that produce them,

especially during times of intense change and modernization. Abbott also explores how independent filmmaking techniques, special effects makeup, and the stunning and ultramodern computer-generated effects of recent films have affected the representation of the vampire in film.

These stories of vampire legends and gruesome nineteenth-century practices is “a major contribution to the study of New England folk beliefs” (The Boston Globe). For nineteenth-century New Englanders, “vampires” lurked behind tuberculosis. To try to rid their houses and communities from the scourge of the wasting disease, families sometimes relied on folk practices, including exhuming and consuming the bodies of the deceased. Folklorist Michael E. Bell spent twenty years pursuing stories of the vampire in New England. While writers like H.P. Lovecraft, Henry David Thoreau, and Amy Lowell drew on portions of these stories in their writings, Bell brings the actual practices to light for the first time. He shows that the belief in vampires was widespread, and, for some families, lasted well into the twentieth century. With humor, insight, and sympathy, he uncovers story upon story of dying men, women, and children who believed they were food for the dead. “A marvelous book.” —Providence Journal Includes an updated preface covering newly discovered cases.

The town of Glory is famous for two things: businesses that front for seedy, if not illegal, enterprises and the suicides that happen along the Indigo River. Marsden is desperate to escape the “bed-and-breakfast” where her mother works as a prostitute—and where her own fate has been decided—and she wants to give her little sister a better life. But escape means money, which leads Mars to skimming the bodies that show up along the Indigo River. It’s there that she runs into Jude, who has secrets of his own and whose brother’s suicide may be linked to Mars’s own sordid family history. As they grow closer, the two unearth secrets that could allow them to move forward . . . or chain them to the Indigo forever.

“A timely and important project that changes our understanding of the role of abjection both in cultural politics and in the structure of film.” —Ewa Ziarek, State University of New York at Buffalo Tina Chanter resolves a fundamental problem in film theory by negotiating a middle path between “gaze theory” approaches to film and spectator studies or cultural theory approaches that emphasize the position of the viewer and thereby take account of race, class, gender, and sexuality. Chanter argues that abjection is the unthought ground of fetishistic theories. If the feminine has been the privileged excluded other of psychoanalytic theory, fueled by the myth of castration and the logic of disavowal, when fetishism is taken up by race theory, or cultural theory, the multiple and fluid registers of abjection are obscured. By mobilizing a theory of abjection, the book shows how the appeal to phallic, fetishistic theories continues to reify the hegemonic categories of race, class, sexuality, and gender, as if they stood as self-evident categories. “An intriguing read, especially for those who favor psychological models of criticism in film theory . . . Recommended.” —Choice
