| Walking with the Poor | Walking With the Poor is a seminal book on working in transformational development. If you want to help the poor, and you care about whether the poor people you come into relationship with are really helped, then you need to read this book. Myers gets into the basic questions that we need to face in work with the poor. | Myers believes a Christian response to poverty can be based on truthfulness, righteousness, and justice. These principles are expressed through relationships with God, the church, and the holistic development practitioner. Transformational development is possible through real presence with the poor. |
