While the PP and PPK were intended

for police work, the Walther P 38 was produced for the Germany military; all three pistols have garnered a formidable international reputation since the 1930s. The innovative Walther PP (Polizeipistole), a double-action semi-automatic pistol intended for the law-enforcement market, became available in 1929 and went on to arm the police of several European countries in the 1930s. Its smaller cousin the PPK, more readily concealed for undercover work but with reduced magazine capacity, was produced from 1931. Intended to replace the P 08 Luger, the Walther P 38 was issued from 1940 and equipped the armed forces of Germany and other countries during and after World

War II, but never entirely replaced the Luger in German service. All three pistols went on to have lengthy and varied service across the world after 1945. Both the PP and the PPK remain in production today, while the P 38 re-emerged as the P1 and equipped West German forces from 1963 until 2004, when it was replaced by the P8. In this study, noted authority John Walter assesses the origins, development, use and legacy of these three high-profile semi-automatic pistols, alongside other Walther variants, such as the tiny .25 ACP Modell 9.

The BrickGun Book shows you how to build five remarkably sleek LEGO(R) handgun replicas, like the classic Berreta 92FS and a formidable rubber-band-firing MAC-11. Each chapter includes step-by-step building instructions and a complete parts list using only readily available LEGO pieces. Builder Jeff Boen has designed each model with stunning accuracy and attention to detail, focusing on everything from 1:1 real-life scale to functioning cocking and trigger mechanisms. Each BrickGun is ultra-realistic

in look and feel, but mostly harmless--perfect for display or your next backyard battle.

NOTE: Adult supervision is required. These models are not suitable for children under the age of 12.

Bond is back with a license to thrill. Forty-three years ago, Ian Fleming wrote his last

great 007 adventure. Now, in Devil May Care, the world's most iconic spy returns in a Cold War story spanning the world's exotic locations. By invitation of the Fleming estate to mark the centenary of his birth, acclaimed novelist Sebastian Faulks picks up where Fleming left off, writing a tour de force that will electrify every James Bond fan. A fitting tribute to the Bond tradition, Devil May Care stands on its own as a triumph of witty prose and plenty of double-0 action. "In his house in Jamaica, Ian Fleming used to write a thousand words in the morning, then go snorkeling, have a cocktail, lunch on the terrace, more diving, another thousand words in the late afternoon, then more martinis and glamorous women. In my house in London, I followed this routine exactly, apart from the cocktails, the lunch, and the snorkeling."

—Sebastian Faulks

This is the Care Quality Commission's first yearly report to Parliament on the state of health care and adult social care in England. It covers the services that the Commission regulates which include: adult social care services (care homes and home care agencies); NHS and independent health care services; and primary care trusts (PCTs) and councils, which provide and purchase health care and adult social care services for their

community. Whilst great improvements have been made over recent years there remains unacceptable variation, and a small number of services or organisations do not meet minimum standards of safety and quality. The future presents a major challenge. The Government expects that, in 20 years' time, 1.7 million more adults in England will have a care and support need. At the same time, we are entering a period when public finances will be stretched and expectations of choice and control are increasing. To help meet these challenges, there needs to be real acceleration in joining up health and social care and centring it on people's needs

A surprising journey from tech support to professional marksman in front of the cameras. Chris Cheng won the title of "Top Shot," a \$100,000 cash prize, and a professional marksman contract with the show sponsor, Bass Pro Shops. How did a tech support guy who didn't shoot a lot of guns beat out seventeen other competitors—including seasoned military veterans, law enforcement officers, and pro marksmen—in History Channel's Top Shot season 4? An excellent guide for beginning shooters, Cheng focuses on the basics and ammunition of pistols, rifles, and shotguns, marksmanship fundamentals, and buying a firearm. Other chapters include: Dry Fire Practice Firearm Accessories Safely Storing Your Firearm Cleaning and Maintaining Your Guns And much more! Additionally, Cheng covers his approach to staying calm under pressure, teamwork, sportsmanship, and leadership. These traits contributed to his coming out on top and staying above the fray. With a foreword written by Top Shot season 3 champion Dustin Ellermann and an afterword written by the original Top Shot champion Iain Harrison, *Shoot to Win* is sure to please shooters of all stripes, but especially fans of History Channel's program *Top*

" [A] raucous, offensive, and sometimes amusing CliffsNotes compilation of wars both well-known and ignored. " —Utne Reader Self-described war nerd Gary Brecher knows he ' s not alone, that there ' s a legion of fat, lonely Americans, stuck in stupid, paper-pushing desk jobs, who get off on reading about war because they hate their lives. But Brecher writes about war, too. War Nerd collects his most opinionated, enraging, enlightening, and entertaining pieces. Part war commentator, part angry humorist ala Bill Hicks, Brecher inveighs against pieties of all stripes—Liberian generals, Dick Cheney, U.N. peacekeepers, the neo-cons—and the massive incompetence of military powers. A

provocative free thinker, he finds much to admire in the most unlikely places, and not always for the most pacifistic reasons: the Tamil Tigers, the Lebanese Hezbollah, the Danes of 1,000 years ago, and so on, across the globe and through the centuries. Crude, scatological, un-P.C., yet deeply informed, Brecher provides a radically different, completely unvarnished perspective on the nature of warfare. " Military columnist Gary Brecher ' s look at contemporary war is both offensive and illuminating. His book, War Nerd . . . aims to explain why the best-equipped armies in the world continue to lose battles to peasants armed with rocks . . . Brecher ' s unrefined voice adds something essential to the conversation. " —Mother Jones " It ' s international news coverage with a soul and acne, not to mention a deeply contrarian point of view. " —The Millions Devil May Care Skyhorse Publishing Inc. Guns can be very effective tools, but they are each of limited utility. There is no one weapon that is perfect for every purpose. Private persons may own a number of guns that fulfill a variety of functions. Ballistics is important for soldiers, law enforcement, sportsmen, and anyone who seeks to protect their life, their home, their family, or their workplace. If you are among these, this book is for you. Not surprisingly, gun owners and firearms enthusiasts are often part of a "social gun culture" in which certain facts, trends, and fads circulate and evolve with time, some stirring intense loyalty among shooters even when the realities suggest otherwise. For the average gun user some very popular myths, misconceptions, and miscalculations concerning ballistics and the

terminal effects of bullets are strongly held, and it is not the purpose of this discussion to demonstrate why they are or are not true, only to lay out the parameters of the debate so that the readers can make their own judgments with increased confidence. The origin of ballistics is in the study of the flight path of projectiles, but its domain has been expanded in modern times. Among the modern ballistic sciences are areas of interest concerning how ammunition and weapons operate.
