Bayesian variable selection has experienced substantial developments over the past 30 years with the proliferation of large data sets. Identifying relevant variables to include in a model allows simpler interpretation, avoids overfitting and multicollinearity, and can provide insights into the mechanisms underlying an observed phenomenon. Variable selection is especially important when the number of potential predictors is substantially larger than the sample size and sparsity can reasonably be assumed. The Handbook of Bayesian Variable Selection provides a comprehensive review of theoretical, methodological and computational aspects of Bayesian

methods for variable selection. The topics covered include spike-and-slab priors, continuous shrinkage priors, Bayes factors, Bayesian model averaging, partitioning methods, as well as variable selection in decision trees and edge selection in graphical models. The handbook targets graduate students and established researchers who seek to understand the latest developments in the field. It also provides a valuable reference for all interested in applying existing methods and/or pursuing methodological extensions.

Features: Provides a comprehensive review of methods and applications of Bayesian variable selection. Divided into four parts: Spike-and-Slab Priors; Continuous Shrinkage Priors; Extensions to various Modeling; Other Approaches to Bayesian Variable Selection. Covers theoretical and methodological aspects, as well as worked out examples with R code provided in

the online supplement. Includes contributions by experts in the field. Supported by a website with code, data, and other supplementary material

Porchlight ' s Best Leadership &  
Strategy Book of The Year An  
inspiring memoir from the CEO of  
DICK ' s Sporting Goods that is “ not  
only entertaining but will be of great  
value to any entrepreneur ” (Phil  
Knight, New York Times bestselling  
author of Shoe Dog). It ' s How We  
Play the Game shows how a  
trailblazing business was created by  
giving back to the community and by  
taking principled, and sometimes  
controversial, stands—including against  
the type of weapons that are too often  
used in mass shootings and other  
tragedies. Ed Stack ' s memoir tells the  
story of a complicated founder and an  
ambitious son—one who transformed a  
business by making it about more than

business, conceiving it as a force for good in the communities it serves. In 1948, Ed Stack's father started Dick's Bait and Tackle in Binghamton, New York. Ed Stack bought the business from his father in 1984, and grew it into the largest sporting goods retailer in the country, with 800 locations and close to \$9 billion in sales. The transformation Ed wrought wasn't easy: economic headwinds nearly toppled the chain twice. But DICK's support for embattled youth sports programs earned the stores surprising loyalty, and the company won even more attention when, in the wake of yet another school shooting—at Marjory Stoneman Douglas High School in Parkland, Florida—it chose to become the first major retailer to pull all semi-automatic weapons from its shelves, raise the age of gun purchase to twenty-one, and, most strikingly, destroy the assault-style-type rifles then in its inventory. With vital lessons for anyone running a business and eye-opening reflections about what a company owes the people it serves, It's How We Play the Game is “a compelling narrative...In a genre that

can frequently be staid, Mr. Stack's corporate biography is deeply personal...[Features] surprising openness [and] interesting and humorous anecdotes” (Pittsburgh Post-Gazette).

Through conflicts in the Balkans, Iraq and Afghanistan, this is the

vivid memoir of British sniper Craig Harrison. It takes a tough mindset to be a successful sniper, to be able to dig in for days on your own as you wait for your target, to stay calm on a battlefield when you yourself have become the target the enemy most want to take out. Craig Harrison has what it takes and in November 2009 in Afghanistan, under intense pressure, he saved the lives of his comrades with the longest confirmed sniper kill – 2,475 metres, the length of twenty-five football pitches. In *The Longest Kill*, his unflinching autobiography, Craig catapults us into the heat of the action as he describes his active service in the Balkans, Iraq and Afghanistan, and gives heart-stopping accounts of his sniper ops as he fought for his life on the rooftops of Basra and the barren hills of Helmand province. Craig was blown up by an IED in Afghanistan and left battling severe PTSD. After his identity was revealed in the press he also had to

cope with Al Qaeda threats against him and his family. For Craig, the price of heroism has been devastatingly high.

The complete collection of John Connor's original Guncrank Diaries is all right here including excuses, alibis, pithy observations and general ephus. John Connor is a soldier, cop, father, lover of dogs, protector of the defenseless, guardian of what's right - and a fierce foe of what's wrong. He's fought evil, brutality and tyranny in the jungles of Vietnam, as a cop on the city streets of a major Southern California city, and in a host of god-forsaken places around the world. His friends often have very unusual names, and all remain fiercely loyal - and for very good reasons. This book isn't about what you think, either. Not at all. It's not just simply a series of columns John wrote for the pages of American Handgunner Magazine. They're

stories, yes, but each has a meaning stronger than the words on the paper convey. Each one will drag deep-rooted, powerful memories from deep within you about things that were, or might have been. The effect this modest book will have on you won't buff out easily. Be prepared to be changed. What readers say about Guncrank Diaries: "Darn it Connor, stop it-stop it-stop it... my old eyes are not as tough as they used to be. Your story of the custom colt was just wonderful. I forwarded it to my wife ... now her eyes are leaking too. so just stop it!" Gary M. "I don't give a damn if the writer of Guncrank is or was a super secret special forces tacti-cool bad ass or if he was a truck driver or a mess sergeant. I like what he writes. I enjoy it because it is entertaining. And its usually just plain funny. So whoever you are thanks, I appreciate what your do or did." Just an Army Guy "Like fine wine, Connor's insights age well and remain cogent. More

please." Doc H
