For over 50 years, Albert R. Broccoli's Eon Productions has navigated the ups and downs of the volatile British film industry, enduring both critical wrath and acclaim in equal measure for its now legendary James Bond series.

Latterly, this family run business has been crowned with box office gold and recognised by motion picture academies around the world. However, it has not always been plain sailing.

Changing financial regimes forced 007 to relocate to France and Mexico; changing fashions and politics led to box office disappointments; and changing studio regimes and business

disputes all but killed the franchise. And the rise of competing action heroes has constantly questioned Bond's place in popular culture. But against all odds the filmmakers continue to wring new life from the series, and 2012's Skyfall saw both huge critical and commercial success, crowning 007 as the undisputed king of the action genre.

Some Kind of Hero recounts this remarkable story, from its origins in the early '60s right through to the present day, and draws on hundreds of unpublished interviews with the cast and crew of this iconic series.

This volume brings fresh perspectives to the study of James Bond. With a strong emphasis on the process

of Bond ' s incarnation on screen and his transit across media forms, chapters examine Bond in terms of adaptation, television, computer games, and the original novels. Film nonetheless provides the central focus, with analysis of both the corpus as a whole—from Dr. No to Spectre—and of particular films, from popular and much-discussed movies such as Goldfinger and Skyfall to comparatively under-examined texts such as the 1967 Casino Royale and A View to a Kill. Contributors ' expertise and interests encompass such diverse aspects of and approaches to the Bond stories as Sound Design, Empire, Food and Taste, Geo-politics, Feminist re-reading, Tarot, Landscape and Sets.

Human well-being relies critically on ecosystem services provided by nature. Examples include water and

air quality regulation, nutrient cycling and decomposition, plant pollination and flood control, all of which are dependent on biodiversity. They are predominantly public goods with limited or no markets and do not command any price in the conventional economic system, so their loss is often not detected and continues unaddressed and unabated. This in turn not only impacts human well-being, but also seriously undermines the sustainability of the economic system. It is against this background that

TEEB: The Economics of Ecosystems and Biodiversity project was set up in 2007 and led by the United Nations Environment Programme to provide a comprehensive global assessment of economic aspects of these issues. This book, written by a team of international experts, represents the scientific state of the art, providing a comprehensive assessment of the fundamental ecological and economic principles of measuring and valuing ecosystem services and biodiversity, and showing how

these can be mainstreamed into public policies. This volume and subsequent TEEB outputs will provide the authoritative knowledge and guidance to drive forward the biodiversity conservation agenda for the next decade.

Dara's Cambodian New Year
Richard Quattro
The one-stop-shop for prospective handgun buyers. The market for new handguns is expanding rapidly, and that's good news for consumers. Each year more and more new models break cover and there has never been a better time to be in the market for a new handgun, whether you're a recreational shooter, a concealed carry permit holder, a hunter or a serious competitive shooter. Today's handguns offer superb machining and utilize some of the most technologically-advanced alloys, polymers and

finishes to help make the current crop of handguns lightweight, accurate, durable, and affordable. This increase in product offerings stem from new interest in handguns, primarily as a result of nationwide issuance of concealed carry permits. As laws have been enacted that protect the rights of gun owners and defend our personal liberties, more and more new shooters are showing up on the range. But first-time shooters and new concealed carry permit holders are not the only segment of the handgun market that is seeing growth and interest. Pistol competitions

have become more popular and more advanced, evolving from slow-fire matches at local gun clubs to modern IPSC, IDPA and 3-gun competitions. Handgun Buyer's Guide will help both the bewildered new shooter find their feet and purchase a handgun, find the best accessories, and locate a place to practice on hone their skills. You'll find all you need for owning a handgun in the Handgun Owner's Guide! Skyhorse Publishing is proud to publish a broad range of books for hunters and firearms enthusiasts. We publish books about shotguns, rifles, handguns, target shooting, gun collecting, self-defense, archery, ammunition, knives, gunsmithing, gun repair, and wilderness survival. We publish books on deer hunting, big game hunting, small game hunting, wing shooting, turkey hunting, deer stands, duck blinds, bowhunting, wing shooting, hunting dogs, and more. While not every title we publish becomes a New York Times bestseller or a national bestseller, we are committed to publishing books on subjects that are sometimes overlooked by other publishers and to authors whose work might not otherwise find a home.

Handbook of Firearms and Ballistics Taylor & Francis

With the MG 34, the German Wehrmacht introduced an entirely new concept in automatic firepower - the general-purpose machine gun (GPMG). In itself the MG 34 was an excellent weapon: an air-cooled, recoil-operated machine gun that could deliver killing firepower at

ranges of more than 1,000m. Yet simply by changing its mount and feed mechanism, the operator could radically transform its function. On its standard bipod it was a light machine gun, ideal for infantry assaults; on a tripod it could serve as a sustained-fire medium machine gun. During World War II, the MG 34 was superseded by a new GPMG – the MG 42. More efficient to manufacture and more robust, it had a blistering 1,200rpm rate of fire. Nicknamed 'Hitler's buzzsaw' by Allied troops, it was arguably the finest all-round GPMG ever produced, and alongside the MG 34 it inflicted heavy casualties. Featuring specially commissioned full-colour artwork and drawing upon numerous

technical manuals and first-hand accounts, this study explores the technological development, varied roles and lasting influence of the revolutionary MG 34 and MG 42 machine guns and their postwar successors.

The Economics of Ecosystems and Biodiversity: Ecological and Economic Foundations DigiCat Popular from the late 19th through the early 20th centuries, the British Webley Pug and Bull Dog revolvers, manufactured by P. Webley & Son of Birmingham, provided security for many at home or concealed in coat pockets. Over 800 photos and thorough text bring to light detailed

information on these often elusive, solid-frame, short-barreled handguns. Many models were previously unknown, such as the ring trigger .22 No. 2 and the Silver and Fletcher No. 2 Bull Dog. Includes Belgian and other English makers of the Tower Bull Dog, the Scott, Tranter Bulldog, and the Greener No. 5. Cartridges, cartridge boxes, and loading tools are featured with a scale of relative rarity and numerous appendices. This book is a must for all who are passionate about historical firearms.

MAD MEN MEETS THE WIRE IN THIS GRIPPING TRUE-CRIME MEMOIR BY A FORMER AGENT AT THE FEDERAL BUREAU OF NARCOTICS IN 1960s NEW YORK

Before Nixon famously declared a "war on drugs," there was the Federal Bureau of Narcotics. New York City in the mid-1960s: The war in Vietnam was on the nation's tongue—but so is something else. Clandestine and chaotic, but equally ruthless, the agents of the Bureau were feared by the Mafia, dealers, pimps, prostitutes—anyone who did his or her business on the streets. With few rules and almost no oversight, the battle-hardened agents of the bureau were often more vicious than the criminals they chased. Agent Dean Unkefer was a naive kid with notions of justice and fair play when he joined up. But all that quickly changes once he gets thrown into the lion's den of 90 Church, the headquarters of

the Federal Bureau of Narcotics, where he is shocked to see the agents he revered are often more like thugs than lawmen. When he finally gets the chance to prove his mettle by going undercover in the field, the lines become increasingly blurred. As he spirals into the hell of addiction and watches his life become a complex balancing act of lies and half-truths, he begins to wonder what side he is really on. 90 Church is both the unbelievable memoir of one man's confrontation with the dark corners of the human experience and a fascinating window into a little-known time in American history. Learn the story of the agents who make the DEA look like choirboys.
