It was early morning, June 17, 1967, and Dak To Special Forces camp in Vietnam was under attack. A mortar exploded, and West Point graduate Allen B. Clark Jr.'s life was changed forever. This is the story of how one soldier, so gravely injured that both of his legs were amputated, turned his grievous loss into a personal triumph. Clark describes his struggle through a year-long recovery and a severe bout of post traumatic stress disorder, so little understood at the time. He tells of earning his MBA from Southern Methodist University and finding employment as a personal financial assistant to Ross Perot, of moving on to public service and founding the Combat Faith Ministry, a lay ministry to veterans. Clark's story of growth and spiritual fulfillment wrested from his wartime tragedy is a testament to the resilience of the human spirit and is of special relevance in our day of so many soldiers returning wounded in body and spirit from Iraq.

This is true story
about real people is
set in Edinburgh
City and Dundee,
where a petite
Scottish Lassie

called Rosie
Gilmour, mother to
Finlay Sinclair,
receives news of the
death of her son -
who tragically has
taken his own life
by hanging. Rosie
pretends her son is
still alive by talking
to him, for that
takes away the
unbearable pain of
her loss. But once
she begins to face
up to the fact that
Finlay is not
coming back, her
conversations
become more of a
challenge than she
can handle. When
memories of her
past are triggered by
everyday life events,
they take her mind
back and forth in
time - back to her

own childhood days
in 1960, when she
flirted with the
fairground boys,
and to the day she
gave birth to Finlay
- "ME LADDIE".
Rosie's Scottish
accent becomes
more apparent
whenever her
emotions are
heightened and she
begins to recite
poetry. She goes on
to reveal doubts
about her own self-
worth and and how
she re-unites her
role as mother - a
role she had denied
herself for seven
years prior to
Finlay's death.
Rosie learns how to
forgive herself and
how to accept her
loss with using

practical coping strategies that sometimes but not always work for her. Many voices of different natures and walks of life appear in Rosie's, story with each one offering a part of their own belief to try and console her in her misery - except that she turns her back on any advice or support offered. Rosie is convinced that she can cope with her loss on her own and "needs no help from anyone, thank you"; until a sweet, gentle, soft-spoken voice begins to travel with her throughout her

ordeal, leaving her no other choice but to listen. Eventually moving to the countryside in Angus, Rosie finds the isolation gives her life a new meaning offering her the opportunity to re-value her belief's about her own self values and decides the time has come to give her son a memorial service and invite a chosen few dance companions whom she met on a regular basis in Edinburgh to honour this day. Rosie begins to accept she will never be the same person she once had been and shall never be again,

believing now her journey through grief taught her many lessons making her a stronger and better person than she imagined she could ever be. Her Perfect Life War and the Soul War and PTSD are on the public's mind as news stories regularly describe insurgency attacks in Iraq and paint grim portraits of the lives of returning soldiers afflicted with PTSD. These vets have recurrent nightmares and problems with intimacy, can ' t sustain jobs or relationships, and won ' t leave home, imagining " the enemy " is everywhere. Dr. Edward Tick has spent decades developing

healing techniques so effective that clinicians, clergy, spiritual leaders, and veterans ' organizations all over the country are studying them. This book, presented here in an audio version, shows that healing depends on our understanding of PTSD not as a mere stress disorder, but as a disorder of identity itself. In the terror of war, the very soul can flee, sometimes for life. Tick's methods draw on compelling case studies and ancient warrior traditions worldwide to restore the soul so that the veteran can truly come home to community, family, and self. The Power of Your Story CreateSpace Many in the scientific community shun life after death, considering such

experiences impossible. Marcel Westerlund is the exception. The Swedish psychiatrist, not only uses hypnotherapy to treat people's mental illnesses-he uses it to explore their afterlives as well. Despite being a highly controversial approach, his use of hypnotherapy results in some fascinating stories...and is even integrated directly into the sciences. Travel back with a patient as she recounts being a Queen of Egypt. Discover how a man finds his own grave, finally allowing him to connect with his spiritual existence and find healing. Read account after account of people who come to grips with their past lives, and use these experiences to find happiness in this life. Pills may curb

depression, but Westerlund discovers that delving into people's past lives provides a healing force that he could never accomplish through regular medicine. He talks candidly about his job as a healer, as well as the importance of the spirit in mental recovery. Journey into the soul and learn, not only about the existence of past lives, but the science behind it. What is a soul? Are miracles real? When the soul is healed, how does the body respond? Throughout history, there have been countless cases of "miracle" healings, unexplainable by modern science. Dr. and Master Zhi Gang Sha has personally healed thousands of patients, usually in front of dozens of witnesses. Hundreds of videos of these healings can be seen on YouTube. But how can these healings be explained? Soul Mind Body Science System is the first book to explore the scientific explanations for why soul healing miracles

are genuine. Written with Dr. Rulin Xiu, an expert on string theory and quantum physics who trained at The University of California, Berkeley, Dr. Sha shares, for the first time, the scientific theories that explain why all actions on Earth are guided by the reality of the soul. In Soul Mind Body Science System, the complex and fascinating relationships present between matter, density, information, soul, and consciousness are thoroughly examined. Written for armchair and professional scientists alike, this book makes a significant contribution to the ongoing debate about the true nature of reality. As the lines between "science" and

"spirit" blur, this investigation becomes ever more important. The groundbreaking Soul Mind Body Science System is for all readers who have contemplated the fundamental scientific laws of the universe and sought answers beyond those offered by popular science and mainstream faith. **What Have We Done Spilled** Candy Publication War touches us all—leaving visible and invisible wounds on the warriors who fight, disrupting their families and communities, and leaving lasting imprints on our national psyche. In spite of billions spent on

psychological care and reintegration programs, we face an epidemic of combat-related conditions such as PTSD (Post-Traumatic Stress Disorder). With **Warrior 's Return**, Dr. Edward Tick presents a powerful case for changing the way we welcome our veterans back from service—a vision and a path for transforming the wounds of war into sources of wisdom, honor, and growth. After more than 35 years of working with veterans, Dr. Tick has learned that our conventional ways

of addressing the trauma and woundings of war fall far short, usually focusing only on symptoms and temporary relief. Drawing on lessons from cross-cultural wisdom, mythical archetypes, and proven methods from psychology, he offers this book as a valuable resource to help families, caregivers, and returning veterans understand and cope with the life-changing effects of combat, including: Re-examining PTSD—why we must expand our understanding of the full

A Complicated Legacy Quest Books Writers have been writing about war since the siege of Troy, but few, if any, have captured the first-person experience of war as deeply as My Vietnam War. Set in 1967 (the deadliest year of the Vietnam

War), this memoir-style novel depicts the psychological journey of a young man whose carefree days of studying philosophy at the university are ended by the draft. The story follows him from his initial rear-echelon assignment in Saigon, where he falls for a mysterious storytelling bar girl, to his eventual posting at an isolated front-line firebase in one of the deepest parts of the Vietnam jungle. While recovering from a leg wound (he is hit by a piece of bone from a fellow soldier who stepped on a booby trap mine), he becomes the assistant medic and sees the horrors of war close

up. The experience begins his steady spiral down into PTSD. After he is seriously wounded, he ends up back in Saigon where, after an old friend from Arizona gets him involved in the underground drug trade, the mysterious bar girl may be his only hope for salvation. It is a powerful story, well-written, with vivid detail that you will never forget. The first biography of the seminal music group WAR whose many hits include "Spill the Wine," "All Day Music," "Why Can't We Be Friends?" "Slippin' into Darkness," "The Cisco Kid," and - of course - "Low Rider." They combined rock, funk, soul, R&B, jazz, and a strong Latin vibe in their music, they have

been awarded two Platinum and eight Gold records in their career. Their album "The World is a Ghetto" was the bestselling release of 1973 and was #444 on the list of "Rolling Stone's Top 500 Albums" list. This unauthorized book follows the group from their early incarnations when Harold Brown and Howard Scott met to form the Creators and then the Night Shift, to their partnership with former Animals lead singer Eric Burdon, to a highly successful career on their own with the core original lineup of Brown, Scott, Lee Oskar, Lonnie Jordan, B.B. Dickerson, Papa Dee

Allen, and Charles Miller. The story also follows the band through their later, leaner years, the tragic deaths of two members, and the conflicts that led to a fissure and a split of performing entities that continues to this day. Featuring original interviews, archival research, and musical analysis and commentary, "Slippin' Out of Darkness: The Story of WAR" tells the tale of one of the most unique bands in the history of Classic Rock-era music. <http://www.warfighteradvancement.org> Moral Injury has been called the "signature wound" of today's wars. It is also as old as the human record of war, as evidenced in the ancient war epics of Greece, India, and the Middle East. But what exactly is Moral Injury? What are its causes and consequences? What can we do to prevent or limit its occurrence among those we send to war? And, above all, what can we do to help heal afflicted warriors? This landmark volume provides an invaluable resource for those looking for answers to these questions. Gathered

here are some of the most far-ranging, authoritative, and accessible writings to date on the topic of Moral Injury. Contributors come from the fields of psychology, theology, philosophy, psychiatry, law, journalism, neuropsychiatry, classics, poetry, and, of course, the profession of arms. Their voices find common cause in informing the growing, international conversation on war and war's deepest and most enduring invisible wound. Few may want to have this myth-challenging, truth-telling conversation, but it is

one we must have if we truly wish to help those we send to fight our wars. My Vietnam War Inner Traditions / Bear & Co Tells the story of a mother's and daughter's journey of triumph over childhood cancer and disabilities and the tragic loss of the daughter, who was killed by a drunk driver. Her mother records her grief and her healing process, and recounts how she formed a charity in her daughter's honor that promotes well-being through pediatric dance therapy

programming.
