On 24 July 1923 the last Treaty ending hostilities in the Great War was signed at Lausanne in Switzerland. That Treaty closed a decade of violence. Jay Winter tells the story of what happened on that day. On the shores of Lake Geneva, diplomats, statesmen, and soldiers came from Ankara and Athens, from London, Paris, and Rome, and from other capital cities to affirm that war was over. The Treaty they signed fixed the boundaries of present-day Greece and Turkey, and marked a beginning of a new phase in their history. That was its major achievement, but it came at a high price. The Treaty contained within it a Compulsory Population Exchange agreement. By that measure, Greek-Orthodox citizens of Turkey, with the exception of those living in Constantinople, lost the right of citizenship and residence in that state. So did Muslim citizens of Greece,

except for residents of Western Thrace. This exchange of nearly two million people, introduced to the peace conference by Nobel Prize winner and humanitarian Fridtjof Nansen, provided a solution to the immense refugee problem arising out of the Greek-Turkish war. At the same time, it introduced into international law a definition of citizenship defined not by language or history or ethnicity, but solely by religion. This set a precedent for ethnic cleansing followed time and again later in the century and beyond. The second price of peace was the burial of commitments to the Armenian people that they would have a homeland in the lands from which they had been expelled, tortured and murdered in the genocide of 1915. This book tells the story of the peace conference, and its outcome. It shows how peace came before justice, and how it set in motion forces leading to the global war that followed in 1939. First published over thirty years ago, War in European History is a brilliantly written survey of the changing ways that war has been waged in Europe, from the Norse

invasions to the present day. Far more than a simple military history, the book serves as a succinct and enlightening overview of the development of European society as a whole over the last millennium. From the Norsemen and the world of the medieval knights, through to the industrialized mass warfare of the twentieth century, Michael Howard illuminates the way in which warfare has shaped the history of the Continent, its effect on social and political institutions, and the ways in which technological and social change have in turn shaped the way in which wars are fought. This new edition includes a fully updated further reading and a new final chapter bringing the story into the twenty-first century, including the invasion of Iraq and the so-called 'War against Terror'.

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," Leaves of Grass
The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible,

synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The *Yawp* highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, *The American Yawp* incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of *The American Yawp* will be available in two print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before

chronicling the collision of Native Americans, Europeans, and Africans. *The American Yawp* traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, *The American Yawp* gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today. *Societies, Networks, and Transitions: A Global History* Oxford University Press

Macmillan

Merriam Press Military Monograph 82. Second Edition (January 2012). The first and only history of the Royal Canadian Air Force's little-known "Air Observation Post" squadrons: 664, 665, and 666 (AOP) Squadrons, from their creation in 1944 during World War II. Includes coverage of the Auster aircraft they flew, operational training, and their combat history. With the end of the war, these squadrons were disbanded. An AOP-trained pilot holding the rank of Major in the Royal Regiment of Canadian Artillery-not airforce personnel-commanded each of the three RCAF AOP squadrons. Every pilot assigned to duty in the three squadrons-664 (AOP), 665 (AOP) and 666 (AOP)-was a Canadian artillery officer (or,

in a few instances, a British artillery officer) whose previous employment had been in Field, Medium, or Light Anti-Aircraft regiments, serving as a Gun Position Officer (GPO) or Forward Observation Officer (FOO), tasked with laying and firing artillery guns in support of Canadian or Allied fighting units, most often for the Infantry. The author's father a member of 665 (AOP) Squadron. Pursuing information about Canada's AOP squadrons became an obsession while hunting for the day-to-day written records and flight logs and photographs of this obscure group of wartime flyers, virtually all of the aircrew having been seconded from His Majesty's Royal Regiment of Canadian Artillery, and all of its riggers, fitters and instrumentation mechanics having previously serviced Lancasters, Halifaxes, Hurricanes and Spitfires while wearing the blue of the Royal Canadian Air Force. In time, a rich harvest of evidence surfaced, and is now presented in this work.

Monday, May 7, 1945; Chapter 2: The Beginning of a Modern Air Observation Force; Chapter 3: The Evolution of Purpose-Built Aircraft; Chapter 4: The Continuing Development of D Flight; Chapter 5: A Young Canadian, Off to War; Chapter 6: The Founding Father of the Canadian AOP; Chapter 7: Artillery Officers to 22 EFTS; Chapter 8: Mastering the Auster; Chapter 9: Operational Training for War; Chapter 10: New Formations; Chapter 11: Directing Shoots, with Deadly Effect; Chapter 12: Aircraft Type Conversion; Chapter 13: 665 (AOP) Squadron, RCAF; Chapter 14: AOP Finishing School; Chapter 15: Wings; Chapter 16: Creating AOP Observers; Chapter 17: Forming a Flying Crew; Chapter 18: Deployment; Chapter 19: 'Dicing About' Over Holland; Chapter 20: Off to War; Chapter 21: 666 (AOP) Squadron, RCAF; Chapter 22: 'Hello, Niner-Six!'; Chapter 23: The Last Canadian Action in Europe; Chapter 24: Post-War AOP Duties; Chapter 25: Flying The Red Ensign, At Allied Headquarters; Chapter 26: Training To Fly On Post-War Taskings; Chapter 27: Intelligence Sorties In Germany; Chapter 28: 'We're Here, Because We're Here, Because...'; Chapter 29: Final Orders; Epilogue; Glossary of Terms; Appendix 1: Codes for Flight Training Procedures; Appendix 2: Pilot's Checklist, Auster Mk. IV and V Aircraft; Appendix 3: Nominal Roll for Canadian Air Observation Post Squadrons; Appendix 4: Nominal Roll of All British and Commonwealth Air Observation Post Pilots Trained for World War II; Bibliography. 90 photos/illustrations; 5 documents; 3 maps. World History, Volume II: Since 1500 Stanford University Press This book focuses on the interrelationship of social forces, industrial expansion, and conflict in Europe between 1789 and 1945. The Cold War: a Very Short Introduction Princeton University Press A sweeping history of twentieth-century Europe that examines its unprecedented destruction—and abiding promise A sweeping history of twentieth-century Europe, *Out of Ashes* tells the story of an era of unparalleled violence and barbarity yet also of humanity, prosperity, and promise. Konrad Jarausch describes how the European nations emerged from the nineteenth century with high hopes for continued material progress and proud of their imperial command over the globe, only to become embroiled in the bloodshed of World War I, which brought an end to their optimism and gave rise to competing democratic, communist, and fascist ideologies. He shows how the 1920s witnessed renewed hope and a flourishing of modernist art and literature, but how the decade ended in economic collapse and gave rise to a second, more devastating world war and genocide on an unprecedented scale. Jarausch further explores how Western Europe surprisingly recovered due to American help and political integration. Finally,

he examines how the Cold War pushed the divided continent to the brink of nuclear annihilation, and how the unforeseen triumph of liberal capitalism came to be threatened by Islamic fundamentalism, global economic crisis, and an uncertain future. A gripping narrative, *Out of Ashes* explores the paradox of the European encounter with modernity in the twentieth century, shedding new light on why it led to cataclysm, inhumanity, and self-destruction, but also social justice, democracy, and peace.
