Savage Continent Rowman & Littlefield

Understanding World Societies, Second Edition, features a brief, question-driven narrative that models for students the inquiry-based methods used by historians and helps students understand what's really important to know about world history.

Literary Culture and U.S Imperialism : From the Revolution to World War II John Wiley & Sons

Finalist for the Pulitzer Prize • Winner of the Council on Foreign

Relations Arthur Ross Book Award • One of the New York Times ' s 100 Best Books of the 21st Century “ Impressive . . . Mr. Judt writes with enormous authority. ” —The Wall Street Journal “ Magisterial . . . It is, without a doubt, the most comprehensive, authoritative, and yes, readable postwar history. ” —The Boston Globe Almost a decade in the making, this much-anticipated grand history of postwar Europe from one of the world's most esteemed historians and intellectuals is a singular achievement. Postwar is the first modern history that covers all of Europe, both east and west, drawing on research in six languages to sweep readers through thirty-four nations and sixty years of political and cultural change—all in one integrated, enthralling narrative. Both intellectually ambitious and compelling to read, thrilling in its scope and delightful in its small details, Postwar is a rare joy.

AP® European History Crash Course, 2nd Ed., Book + Online Macmillan

Winner of the PEN Hessell-Tiltman Prize "A superb and immensely important book."—Jonathan Yardley, The Washington Post The Second World War might have

officially ended in May 1945, but in reality it rumbled on for another ten years... The end of World War II in Europe is remembered as a time when cheering crowds filled the streets, but the reality was quite different. Across Europe, landscapes had been ravaged, entire cities razed, and more than thirty million people had been killed in the war. The institutions that we now take for granted—such as police, media, transport, and local and national government—were either entirely absent or compromised. Crime rates soared, economies collapsed, and whole populations hovered on the brink of starvation. In *Savage Continent*, Keith Lowe describes a continent where individual Germans and collaborators were rounded up and summarily executed, where concentration camps were reopened, and violent anti-Semitism was reborn. In some of the monstrous acts of ethnic cleansing the world has ever seen, tens of millions were expelled from their ancestral homelands. *Savage Continent* is the story of post-war Europe, from the close of the war right to the establishment of an uneasy stability at the end of the 1940s. Based principally on primary sources from a dozen countries, *Savage Continent* is the chronicle of a world gone mad, the standard history of post-World War II Europe for years to come.

America's History, Combined Volume Cambridge University Press
With fresh interpretations from two new authors, wholly reconceived themes, and a wealth of cutting-edge new scholarship, the seventh edition of America's History is designed to work perfectly with the way you teach the survey today. Building on the book's hallmark strengths — balance, comprehensiveness, and

explanatory power — as well as its outstanding visuals and extensive primary-source features, authors James Henretta, Rebecca Edwards, and Robert Self have shaped America's History into the ideal resource for survey classes.

During the fifty years since the end of hostilities, European literary memories of the war have undergone considerable change, influenced by the personal experiences of writers as well as changing political, social, and cultural factors. This volume examines changing ways of remembering the war in the literatures of France, Germany, and Italy; changes in the subject of memory, and in the relations between fiction, autobiography, and documentary, with the focus being on the extent to which shared European memories of the war have been constructed.

Africa and World War II OUP Oxford

This volume brings together a distinguished group of international scholars to discuss the major debates in the study of early twentieth-century Europe. Brings together contributions from a distinguished group of international scholars. Provides an overview of current thinking on the period. Traces the great political, social and economic upheavals of the time. Illuminates

perennial themes, as well as new areas of enquiry. Takes a pan-European approach, highlighting similarities and differences across nations and regions.

America: A Concise History, Volume Two: Since 1865
McFarland

The European Connection: Implications of EEC Membership focuses on the impact of British membership on the Commonwealth countries. The book first underscores the British dilemma, including the question on whether the British are Europeans and the position of the Schuman Declaration on the attainment of world peace and international politics. The manuscript then examines the movement of Great Britain towards the European Economic Community (EEC), taking into account the set of negotiations which took place regarding the matter. The publication takes a look at the position in which Britain faces the problem of making a choice between Europe and the Commonwealth, particularly the country's relationship with Canada, Australia, and New Zealand on international trade. The manuscript also highlights the position of the EEC regarding a common energy policy, as well as the development of an efficient energy strategy, the regulation of oil prices, and the role of the International Energy Agency on the application of energy policies. The text is a dependable source of data for readers wanting to explore the elements involved in the British membership on the Commonwealth countries.

After Hitler Macmillan

"I too am not a bit tamed—I too am untranslatable / I sound my barbaric yawp over the roofs of the world."—Walt Whitman, "Song of Myself," *Leaves of Grass*

The American Yawp is a free, online, collaboratively built American history textbook. Over 300 historians joined together to create the book they wanted for their own students—an accessible, synthetic narrative that reflects the best of recent historical scholarship and provides a jumping-off point for discussions in the U.S. history classroom and beyond. Long before Whitman and long after, Americans have sung something collectively amid the deafening roar of their many individual voices. The Yawp highlights the dynamism and conflict inherent in the history of the United States, while also looking for the common threads that help us make sense of the past. Without losing sight of politics and power, The American Yawp incorporates transnational perspectives, integrates diverse voices, recovers narratives of resistance, and explores the complex process of cultural creation. It looks for America in crowded slave cabins, bustling markets, congested tenements, and marbled halls. It navigates between maternity wards, prisons, streets, bars, and boardrooms. The fully peer-reviewed edition of The American Yawp will be available in two

print volumes designed for the U.S. history survey. Volume I begins with the indigenous people who called the Americas home before chronicling the collision of Native Americans, Europeans, and Africans. The American Yawp traces the development of colonial society in the context of the larger Atlantic World and investigates the origins and ruptures of slavery, the American Revolution, and the new nation's development and rebirth through the Civil War and Reconstruction. Rather than asserting a fixed narrative of American progress, The American Yawp gives students a starting point for asking their own questions about how the past informs the problems and opportunities that we confront today.

The Pasha Oxford University Press, USA

The award-winning history of 12 million German-speaking civilians in Europe who were driven from their homes after WWII: "a major achievement" (New Republic). Immediately after the Second World War, the victorious Allies authorized the forced relocation of ethnic Germans from their homes across central and southern Europe to Germany. The numbers were almost unimaginable: between 12 and 14 million civilians, most of them women and children. And the losses were horrifying: at least five hundred thousand people, and perhaps many more, died while detained in former concentration

camps, locked in trains, or after arriving in Germany malnourished, and homeless. In this authoritative and objective account, historian R.M. Douglas examines an aspect of European history that few have wished to confront, exploring how the forced migrations were conceived, planned, and executed, and how their legacy reverberates throughout central Europe today. The first comprehensive history of this immense manmade catastrophe, *Orderly and Humane* is an important study of the largest recorded episode of what we now call "ethnic cleansing." It may also be the most significant untold story of the World War II.

U.S. History Routledge

Known for its clear, insightful analytical narrative and balanced approach, *America's History, Value Edition* is a brief, affordable text that brings America's diverse past to life. The two-color Value Edition includes the full narrative, the popular nine-part organization, and select images and maps.

America Penguin

John Carlos Rowe, considered one of the most eminent and progressive critics of American literature, has in recent years become instrumental in shaping the path of American studies. His latest book examines literary

responses to U.S. imperialism from the late eighteenth century to the 1940s.

Interpreting texts by Charles Brockden Brown, Poe, Melville, John Rollin Ridge, Twain, Henry Adams, Stephen Crane, W. E. B. Du Bois, John Neihardt, Nick Black Elk, and Zora Neale Hurston, Rowe argues that U.S. literature has a long tradition of responding critically or contributing to our imperialist ventures. Following in the critical footsteps of Richard Slotkin and Edward Said, *Literary Culture and U.S. Imperialism* is particularly innovative in taking account of the public and cultural response to imperialism. In this sense it could not be more relevant to what is happening in the scholarship, and should be vital reading for scholars and students of American literature and culture.

Orderly and Humane Research & Education Assoc.

With fresh interpretations from two new authors, wholly reconceived themes, and a wealth of cutting-edge scholarship, the Fifth Edition of *America: A Concise History* is designed to work perfectly with the way you teach the survey today. Building on the book's hallmark strengths—balance, explanatory power, and a brief-yet-comprehensive narrative—as well as its outstanding full-color visuals and built-

in primary sources, authors James Henretta, Rebecca Edwards, and Robert Self have shaped America into the ideal brief book for the modern survey course, at a value that can't be beat.

A History of World Societies, Volume C: 1775 to the Present Random House Trade Paperbacks

"On February 24, 2022, Vladimir Putin launched a massive invasion of Ukraine, setting in motion changes that have been felt around the globe. Collision is the story of this war's origins. It begins in 2008, when Barack Obama came to power in the United States and Dmitry Medvedev came to power in Russia, a period of optimism and new beginnings. It then traces a steady parting of the ways between the United States and Russia, from the return of a newly aggressive Putin to the Kremlin in 2012 to the outbreak of a revolution in Ukraine--and the subsequent Russian annexation of Crimea and invasion of Eastern Ukraine"--

The Origins of the Second World War in Europe Yale University Press

U.S. History is designed to meet the scope and sequence requirements of most introductory courses. The text provides a balanced approach to U.S. history, considering the people, events, and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). U.S. History covers key forces that form the American experience, with particular attention to issues of race, class, and gender.

Douglas MacArthur Cambridge University Press
Exploring the visions of the end of the Cold War that have been put forth since its inception until its actual ending, this volume brings to the fore the reflections, programmes, and strategies that were intended to call into question the bipolar system and replace it with alternative approaches or concepts. These visions were associated not only with prominent individuals, organized groups and

civil societies, but were also connected to specific historical processes or events. They ranged from actual, thoroughly conceived programmes, to more blurred, utopian aspirations -- or simply the belief that the Cold War had already, in effect, come to an end. Such visions reveal much about the contexts in which they were developed and shed light on crucial moments and phases of the Cold War.

Hitler's Slaves Berghahn Books

During World War II at least 13.5 million people were employed as forced labourers in Germany and across the territories occupied by the German Reich. Most came from Russia, Ukraine, Belarus, Moldavia, the Baltic countries, France, Poland and Italy. Among them were 8.4 million civilians working for private companies and public agencies in industry, administration and agriculture. In addition, there were 4.6 million prisoners of war and 1.7 million concentration camp prisoners who were either subjected to forced labour in concentration or similar camps or were 'rented out' or sold by the SS. While there are numerous publications on forced labour in National Socialist Germany during World War II, this publication combines a historical account of events with the biographies and memories of former forced labourers from twenty-seven countries, offering a comparative international perspective.

Endgame, 1945 McGraw Hill Professional

This volume offers a fresh perspective on Africa's central role in the Allied victory in World War II. Its detailed case studies,

from all parts of Africa, enable us to understand how African communities sustained the Allied war effort and how they were transformed in the process. Together, the chapters provide a continent-wide perspective.
