Food and Fuel Ballantine Books For readers of such crusading works of

nonfiction as Katherine Boo ' s Beyond the Beautiful Forever and Tracy Kidder ' s Mountains Beyond Mountains comes a powerful and captivating examination of two entwined global crises: environmental destruction and human trafficking—and an inspiring, bold plan for how we can solve them. A leading expert on modern-day slavery, Kevin Bales has traveled to some of the world ' s most dangerous places documenting and

battling human trafficking. In the course of his reporting, Bales began to notice a pattern emerging: Where slavery existed, so did a massive, unchecked environmental destruction. But why? Bales set off to find the answer in a fascinating and moving journey that took him into the lives of modern-day slaves and along a supply chain that leads directly to the cellphones in our pockets. What he discovered is that even as it destroys individuals,

families, and communities, new forms of slavery that proliferate in the world's lawless zones also pose a grave threat to the environment. Simply put, modern-day slavery is destroying the planet. The product of seven years of travel and research, *Blood and Earth* brings us dramatic stories from the world's most beautiful and tragic places, the environmental and human-rights hotspots where this crisis is concentrated. But it also tells the

stories of some of the most common products we all consume—from computers to shrimp to jewelry—whose origins are found in these same places. *Blood and Earth* calls on us to recognize the grievous harm we have done to one another, put an end to it, and recommit to repairing the world. This is a clear-eyed and inspiring book that suggests how we can begin the work of healing humanity and the planet we share. Praise for *Blood and Earth* “A

heart-wrenching narrative . . . Weaving together interviews, history, and statistics, the author shines a light on how the poverty, chaos, wars, and government corruption create the perfect storm where slavery flourishes and environmental destruction follows. . . . A clear-eyed account of man's inhumanity to man and Earth. Read it to get informed, and then take action.” —Kirkus Reviews (starred review) “ [An] expos é of the global economy's ' deadly dance '

between slavery and environmental disaster . . . Based on extensive travels through eastern Congo ' s mineral mines, Bangladeshi fisheries, Ghanian gold mines, and Brazilian forests, Bales reveals the appalling truth in graphic detail. . . . Readers will be deeply disturbed to learn how the links connecting slavery, environmental issues, and modern convenience are forged. ” —Publishers Weekly “ This well-researched and vivid book studies the connection between slavery

and environmental destruction, and what it will take to end both. ” —Shelf Awareness (starred review) “ This is a remarkable book, demonstrating once more the deep links between the ongoing degradation of the planet and the ongoing degradation of its most vulnerable people. It ' s a bracing reminder that a mentality that allows throwaway people also allows a throwaway earth. ” —Bill McKibben, author of *Eaarth: Making a Life on a Tough*

Levitt, coauthor of *Freakonomics* "Bursting with insights." —The New York Times Book Review A pioneering urban economist presents a myth-shattering look at the majesty and greatness of cities America is an urban nation, yet cities get a bad rap: they're dirty, poor, unhealthy, environmentally unfriendly... or are they? In this revelatory book, Edward Glaeser, a

leading urban economist, declares that cities are actually the healthiest, greenest, and richest (in both cultural and economic terms) places to live. He travels through history and around the globe to reveal the hidden workings of cities and how they bring out the best in humankind. Using intrepid reportage, keen analysis, and cogent argument, Glaeser makes an urgent, eloquent case for the city's importance and splendor, offering inspiring proof that the city is humanity's greatest creation and our best hope for the future.

NATIONAL

BESTSELLER We

all know the system isn't working. Our governments are corrupt and the opposing parties pointlessly similar.

Our culture is filled with vacuity and pap, and we are told

there's nothing we can do: "It's just the way things are." In this book, Russell Brand hilariously lacerates the straw men and paper tigers of our conformist times and presents, with the help of experts as diverse as Thomas Piketty and George Orwell, a vision for a fairer, sexier society that's fun and inclusive.

You have been lied to, told there's no alternative, no choice, and that you don't deserve any better. Brand destroys this illusory facade as amusingly and deftly as he annihilates Morning Joe anchors, Fox News fascists, and BBC stalwarts. This book makes revolution not only possible but inevitable and fun.
