A tour de force of historical reportage, America's Bank illuminates the tumultuous era and remarkable personalities that spurred the unlikely birth of America's modern central bank, the Federal Reserve. Today, the Fed is the bedrock of the financial landscape, yet the fight to create it was so protracted and divisive that it seems a small miracle that it was ever established. For nearly a century, America, alone among developed nations, refused to consider any central or organizing agency in its financial system. Americans' mistrust of big government and of big banks—a legacy of the country's Jeffersonian, small-government traditions—was so widespread that modernizing reform was deemed impossible. Each bank was left to stand on its own, with no central reserve or lender of last resort. The real-world consequences of this chaotic and provincial system were frequent financial panics, bank runs, money shortages, and depressions. By the first decade of the twentieth century, it had become plain that the outmoded banking system was ill equipped to finance America's burgeoning industry. But political will for reform was lacking. It took an economic meltdown, a high-level tour of Europe, and—improbably—a conspiratorial effort by vilified captains of Wall Street to overcome popular resistance. Finally, in 1913, Congress conceived a federalist and quintessentially American solution to the conflict that had divided bankers, farmers, populists, and ordinary Americans, and enacted the landmark Federal Reserve Act. Roger Lowenstein—acclaimed financial journalist and bestselling author of When Genius Failed and The End of Wall Street—tells the drama-laden story of how America created the Federal Reserve, thereby taking its first steps onto the world stage as a global financial power. America's Bank showcases Lowenstein at his very finest: illuminating complex financial and political issues with striking clarity, infusing the debates of our past with all the gripping immediacy of today, and painting unforgettable portraits of Gilded Age bankers, presidents, and politicians. Lowenstein focuses on the four men at the heart of the struggle to create the Federal Reserve. These were Paul Warburg, a refined, German-born financier, recently relocated to New York, who was horrified by the primitive condition of America's finances; Rhode Island's Nelson W. Aldrich, the reigning power broker in the U.S. Senate and an archetypal Gilded Age legislator; Carter Glass, the ambitious, if then little-known, Virginia congressman who chaired the House Banking Committee at a crucial moment of political transition; and President Woodrow Wilson, the academician-turned-progressive-politician who forced Glass to reconcile his deep-seated differences with bankers and accept the principle (anathema to southern Democrats) of federal control. Weaving together a raucous era in American politics with a storied financial crisis and intrigue at the highest levels of Washington and Wall Street, Lowenstein brings the beginnings of one of the country's most crucial institutions to vivid and unforgettable life. Readers of this gripping historical narrative will wonder whether they're reading about one hundred years ago or the still-seething conflicts that mark our discussions of banking and politics today.

“ Funny, razor-sharp, and full of juicy tales that feel urgent and illicit . . . the author has created a singular, resonant voice, an American teenager raised by Old World Afghan storytellers. ” —New York Times Book Review “ More than well crafted; it ’ s phenomenal. . . . Kochai ’ s book has a big heart. ” —The Guardian A dog on the loose. A boy yearning to connect to his family’s roots. A country in the midst of great change. And a vibrant exploration of the power of stories--the ones we tell each other and the ones we find ourselves in. Twelve-year-old Marwand’s memories from his previous visit to Afghanistan six years ago center on his contentious relationship with Budabash, the terrifying but beloved dog who guards his extended family’s compound in the rural village of Logar. But eager for an ally in this place that is meant to be "home," Marwand misreads his reunion with the dog and approaches Budabash the way he would any pet on his American suburban block--and the results are disastrous: Marwand loses a finger, and Budabash escapes into the night. Marwand is not chastened and doubles down on his desire to fit in here. He must get the dog back, and the resulting search is a gripping and vivid adventure story, a lyrical, funny, and surprisingly tender coming-of-age journey across contemporary Afghanistan that blends the bravado and vulnerability of a boy’s teenage years with an homage to familial oral tradition and calls to mind One Thousand and One Nights yet speaks with a voice all its own.

‘ On the branches of these wild plants Some words occasionally sprout But never a full poem . . . ’ One of the country ’ s best-loved poets and lyricists, Gulzar is renowned for his inimitable way of seeing things, his witty expressions, his quirky turns of phrase. All these creative talents come into play in delightful, unexpected ways in his new bilingual collection Green Poems, which celebrates his innate connection with nature. Gulzar writes about rivers, forests, mountains; snow, rain, clouds; the sky, the earth and space; a familiar tree, a disused well; Kullu, Manali, Chamba, Thimpu. Like glimpses of nature, the poems are often short, an image captured in a few words. And sometimes the image gives rise to a striking thought: ‘ When I pass through the forest I feel my ancestors are around me . . . ’ For those new to Gulzar ’ s work as well as his many fans, Green Poems will prove to be a true joy.

The Dark Deception (Daphne and Velma YA Novel #2) (Media tie-in) Bloomsbury Publishing

“ One of the great reporters of our time and probably the greatest biographer. ” —The Sunday Times (London) From the two-time Pulitzer Prize-winning author of The Power Broker and The Years of Lyndon Johnson: an unprecedented gathering of vivid, candid, deeply moving recollections about his experiences researching and writing his acclaimed books. Now in paperback, Robert Caro gives us a glimpse into his own life and work in these evocatively written, personal pieces. He describes what it was like to interview the mighty Robert Moses and to begin discovering the extent of the political power Moses wielded; the combination of discouragement and exhilaration he felt confronting the vast holdings of the Lyndon B. Johnson Library in Austin, Texas; his encounters with witnesses, including longtime residents wrenchingly displaced by the construction of Moses’ Cross-Bronx Expressway and Lady Bird Johnson acknowledging the beauty and influence of one of LBJ’s mistresses. He gratefully remembers how, after years of working in solitude, he found a writers’ community at the New York Public Library, and details the ways he goes about planning and composing his books. Caro recalls the moments at which he came to understand that he wanted to write not just about the men who wielded power but about the people and the politics that were shaped by that power. And he talks about the importance to him of the writing itself, of how he tries to infuse it with a sense of place and mood to bring characters and situations to life on the page. Taken together, these reminiscences--some previously published, some written expressly for this book--bring into focus the passion, the wry self-deprecation, and the integrity with which this brilliant historian has always approached his work.
