FOSS Third Edition Weather on Earth. The constant renewal of water on Earth's land surfaces by the activities in the atmosphere is one of the defining characteristics of Earth, the water planet. The Weather on Earth Module provides students with experiences to explore the properties of the atmosphere, energy transfer from the Sun to Earth, and the dynamics of weather and water cycling in Earth's atmosphere.

#### Fossweb: Air and Weather Teacher Video

The teaching of science offers students a view into an overall understanding of how and why things work the way they do. With science, we are able to explain the reasons behind the functioning of systems from transportation to the human body. This section features science lessons created by real teachers working in schools across the United States.

#### Fossweb: Teacher Preparation Videos

FOSS has developed videos to assist teachers in preparing to use the program. They include teacher guide information, safety precautions, set up procedures, and classroom footage. Transcripts for each video are also available. The videos play in the Flash streaming format and require the Flash player version 8 or higher.
