To appreciate this book readers must grasp the symbolism of its title and the front page depicting the author's life story, sometimes in rough seas. At three/four years old he was already strongly aware that he had been called into the Christian ministry, an inspiration for a long, fruitful life. He grew up helping in their South African farm life. He commuted to grammar school on horseback, accumulating enough miles to ride three times from New York to California. It was a financial struggle to

become ordained as a clergyman. His story is interestingly interspersed with several short, unbelievable biographies of classmates and what life was like. Read the "The Sturdy Warrior," Chapter V and others like "Albert Schweitzer of the Bushveld", and "We Shall Triumph," in the book mentioned below. With several well-earned degrees he migrated to the USA to study at Princeton Theological Seminary, where he became a professor. But then the delicate call that had driven him since childhood was smashed seemingly beyond repair. However, for him those called into God's Kingdom can in its wideness find symbolic pulpits and lecterns in many places. Of all, he found such in Wall Street, and applied himself with the Latin saying's, strong command: age quod agis — "Do what you are doing!" How is it continuing? Please find out in this book's sequel entitled: Faith, Hope, and Determination.

Benefits of Keeping a Journal or Diary 1. Improve your writing. If you have ever wanted to practice or improve your writing, the best thing to do is write. 2. Inspire creativity. Everyone is creative. If you don't think you are, then maybe you haven't tried. Your journal is a place to write down anything that comes to mind. The crazier the idea, the better. Let your imagination wander to the farthest parts of your mind and record the journey. 3. Brainstorm ideas more effectively. The benefits of journal writing are that you are able to keep all of your ideas in one place, no matter how all over the place they may be. Feel free to jot down whatever pops into your head and let your mind wander. 4. Stay organized. Diaries help keep your thoughts organized and comprehensible. You can record daily

---

musings, the feelings you had about a certain experience or the opinions you had about a specific event. 5. Reduce stress. Writing down your feelings acts as a release and can be very cleansing. If you are able to put your anxieties, frustrations and pains on paper, then you are less likely to harbor them inside, which creates stress. 6. Allow yourself to self-reflect. To quote Ferris Bueller, "Life moves pretty fast. If you don't stop and look around once in a while, you could miss it." Our lives can become very hectic, making it easy to get caught up in the day-to-day. Responsibilities and expectations start to consume us. Journaling is a way to take a step back from all of that and reflect on yourself. 7. Achieve your goals. It is known that you are more likely to achieve your goals if you

write them down. By keeping a diary, you not only can write down a list of ambitions and aspirations, you can expand on them. You can monitor your progress and continue to motivate yourself by documenting new developments and achievements. 8. Improve your memory. By writing down ideas and thoughts you have had throughout the day, your brain is more likely to store that information. If you learn something new, a diary is a place to store the details, but as you recover those facts and write them down, your brain will make stronger connections with that information and you will have an easier time recalling it.
