The envelope actually fared very well against the water droplets, despite the fact I did not waterproof the paper. In short, it ' s my

opinion that you don ' t need to worry about your envelopes getting ruined by moisture. I mean, if they get soaked enough that the ink runs, then you ' ve probably got bigger problems, like a damaged inside.

Weather Writing Paper - Activity Village
Paper marbling is a method of aqueous surface design, which can produce patterns similar to smooth marble or other kinds of stone. The patterns are the result of color floated on either plain water or a viscous solution known as size, and then carefully transferred to an absorbent surface, such as paper or fabric. Through several centuries, people have applied marbled materials to a variety of surfaces. It is often employed as a writing surface for calligraphy, and especially book covers and end
