I have a WD MyBookLive NAS drive on my local network and I'm trying to mount it to a Trendnet video camera so that the video camera can store videos on the NAS drive. Both devices are on my home local area network. I have created a public share on the MyBookLive for the video camera called "Trendnet".

I have this same issue. I can see and access My Book Live using the WD My Cloud desktop on my old Windows 7 machine, including my private directory, but on my new Windows 10 machine, I see My Book Live as a network location, and can access public directories, but my personal directory is inaccessible. I am asked for a password, and none work.

I have a 2TB MyBookLive. I transferred all my data to a new 8TB MyCloud. I want a friend to have my MyBookLive, so reset the factory settings to erase old users etc. I have created a User with a Private Share and no Password. I can view the User name in Windows Explorer, however am unable to access the folder. Is anyone able to assist as I have followed the steps detailed in the User Manual?
