Any additional features, pages, or other changes to project requirements may affect the timeline and costs laid out in the tables above, and will require a separate change order document.
A guide to writing website specification documents ...

Why write a design document? A design doc — also known as a technical spec — is a description of how you plan to solve a problem. There are lots of writings already on why it's important to write a design doc before diving into coding. So all I'll say here is: A design doc is the most useful tool for making sure the right work gets done.
