steps to making UX design documentation
that's actually useful. Shares. Between research,
design, client interaction and team
collaboration, there may not be much time left
for a UX specialist to think about creating web
design documentation strategically.

Web Design Thesis Documentation

Web Design 1.0 is "one-dimensional." The design
elements are mostly arranged sequentially one after
another. Web design 2.0 is "two-dimensional." There
are Grids for placing elements in cells, which gives
more freedom. Web design 3.0 is the new dimension.
It has the free positioning of elements, overlapping,
and layers like in Graphic Design tools.

RELATIONAL DATABASE DESIGN After coming
up with an Entity-Relationship model to describe the
library system, we took advantage of the special
relationships found in our design, and were able to
condense the information to 13 tables. This new
design is a database that combines some entities and
relationships into common tables.
