Munster, Indiana was referred to as Strathmore on early railroad maps as workers would tirelessly tie "one strath more." When a young man from the Netherlands by the name of Jacob Munster opened Munster's General Store, complete with a small U.S. Postal Station in the back, more residents populated the area, and the "Town of Munster" was founded in 1907. Munster, Indiana is a photographic tour of the places, people, and events that have shaped the Town of Munster from the 1850s onward. Nearly 250 historically significant images capture the town's growth from a simple farming community to the bustling town it is today.

Parents today suffer from what Grolnick and Seal call [the] 'Pressured Parent Phenomenon,' constant anxiety over whether our children are as competitive as they could be....[The authors] provide plenty of tips on better ways to handle those inevitable times when

competitive anxiety threatens a parent's better judgment.-Publishers WeeklyThis is a first rate book. Even we sports fans who think competition can be good for kids have to admit that this book illuminates those moments when beating the other kid, or besting the family down the block, is distinctly unhealthy. The advice it offers to parents who feel real pain at such moments, who don't know how to control their own longing to succeed through their children, is the most sensible I have ever read.-Jay Mathews, Washington Post columnistIt begins harmlessly. Parents casually chatting on the playground or over dinner compare their babies' first milestones: Has Erin started talking? Danielle's already using five-word sentences! Inevitably, Erin's mom and dad feel anxious. Later, as report cards, standardized tests, tryouts, playoffs, auditions, admission interviews, and social cliques fill their child's world, parents' anxiety intensifies. The older children get, the more competition they

---

face, whether in sports, academics or the arts. Hovering in the background, inciting everyone, is the race for admission to a top-tier college. To help panicky parents deal with the torrential emotions stirred up by our competitive society, and to give them scientific knowledge about their children's growing years, leading child researcher Wendy Grolnick and educational and parenting journalist Kathy Seal offer this illuminating and accessible guide to channeling competitive anxiety into positive parenting. While evolution has given parents a genetic predisposition toward this protective anxiety whenever their children face today's heightened competition, the authors guide parents to avoid pushing and pressuring, turning their fear instead into calm guidance. Distilling the results of thirty years of research in child psychology, the authors focus on three essential feelings—autonomy, competence, and connectedness—which parents can foster in their children to maximize the child's chances of success and minimize family conflict. They explain that granting kids autonomy lets them feel that they can solve their own problems and are responsible for their own actions. At the same time, providing structure gives kids the guidelines, information, limits, and consequences that they need to act in the world, instilling them with a feeling of competence. Finally, support from adults in the form of time and other resources provides children with a necessary feeling of connection and helps them internalize the ideas and values of their caring parents. Reassuring and empathic, Grolnick and Seal show parents how to avoid the burn-out-in both parents and children—that afflicts so many in our highly competitive society, while raising children who thrive and excel. See also the Pressured Parents blog at <http://pressuredparents.wordpress.com>. Wendy S. Grolnick, PhD (Longmeadow, MA), professor of psychology at Clark University, is one of the nation's leading parenting researchers. She has conducted pioneering studies on the role parents play in children's motivation and achievement. Dr. Grolnick has been interviewed on National Public Radio's The Public Eye and is frequently quoted in Parents magazine, Family Circle, and Newsday, among other journals. She is the author of The Psychology of Parental Control in addition to many scholarly articles. Kathy Seal (Santa Monica, CA) is a nationally known parenting journalist and coauthor of Motivated Minds—a Los Angeles Times best seller. Her articles have appeared in the New York Times, the Los Angeles Times, Family Circle, and the Columbia Journalism Review, among other publications.

\*Comprehensively covers the entire Maryland Campaign of 1862 and the Pennsylvania campaign of 1863, as well as the aftermath and legacies of the battles. \*Analyzes the generalship of the battles' most important leaders, including Lee, McClellan, Longstreet, Meade, and more. \*Includes bibliographies for further reading. "The fact of the matter is that George G. Meade, unexpectedly and against all odds, thoroughly outgeneraled Robert E. Lee at Gettysburg." - Stephen Sears "Those in whose judgment I rely tell me that I fought the battle splendidly and that it was a masterpiece of art. ... I feel I have done all that can be asked in twice saving the country. ... I feel some little pride in having, with a beaten & demoralized army, defeated Lee so utterly." - George McClellan The bloodiest day in American history took place on the 75th anniversary of the signing of the Constitution. On September 17, 1862, Robert E. Lee's Confederate Army of Northern Virginia fought George McClellan's Union Army of the Potomac outside Sharpsburg along Antietam Creek. That day, nearly 25,000 would become casualties, and Lee's army would barely survive fighting the much bigger Northern army. Although the battle was tactically a draw, it resulted in forcing Lee's army out of Maryland and back into Virginia, making it a strategic victory for the North and an opportune time for President Abraham Lincoln to issue the Emancipation Proclamation, freeing all slaves in the rebellious states. Less than a year later, the most famous battle of the Civil War took place outside of the small town of Gettysburg, Pennsylvania, which happened to be a transportation hub, serving as the center of a wheel with several roads leading out to other Pennsylvanian towns. From July 1-3, Robert E. Lee's Confederate Army of Northern Virginia tried everything in its power to decisively

defeat George Meade's Union Army of the Potomac, unleashing ferocious assaults that inflicted nearly 50,000 casualties in all. Day 1 of the battle would have been one of the 25 biggest battles of the Civil War itself, and it ended with a tactical Confederate victory. But over the next two days, Lee would try and fail to dislodge the Union army with attacks on both of its flanks during the second day and Pickett's Charge on the third and final day. Meade's stout defense held, barely, repulsing each attempted assault, handing the Union a desperately needed victory that ended up being one of the Civil War's turning points. After the South had lost the war, the importance of Antietam and Gettysburg was apparent to everyone, making the battles all the more important in the years after it had been fought. While former Confederate generals cast about for scapegoats, with various officers pointing fingers at Robert E. Lee, James Longstreet, and James Stuart, historians and avid Civil War fans became obsessed with studying and analyzing all the command decisions and army movements during the campaigns. Despite the saturation of coverage, millions of Americans continue visiting the two battlefields. *The Civil War Turning Points in the East* comprehensively covers the two crucial campaigns, analyzing Lee's invasion strategies, the Union's response, and the generalship of the most important commanders of the battles. Along with bibliographies, maps of the battle, and pictures of important people and places, you will learn about the Antietam and Gettysburg like you never have before.

*The Parliament of Man* is the first definitive history of the United Nations, from one of America's greatest living historians. Distinguished scholar Paul Kennedy, author of the bestselling *The Rise and Fall of Great Powers*, gives us a thorough and timely account that explains the UN's roots and functions while also casting an objective eye on its effectiveness and its prospects for success in meeting the challenges that lie ahead. Kennedy shows the UN for what it is: fallible, human-based, often dependent on the whims of powerful national governments or the foibles of individual administrators—yet also utterly indispensable. With his insightful grasp of six decades of global history, Kennedy convincingly argues that "it is difficult to imagine how much more riven and ruinous our world of six billion people would be if there had been no UN."
