Oracle WebLogic Server 12c

<u>Administration Handbook</u>
This Guide covered the Complete installation of Weblogic 12c which we will show in training too in detail, covering installation with GUI, silent installation, Domain Creation, start/stop WebLogic admin server and verify console and managed the server and Install and Configure Oracle WebLogic server 11g Version in detail, Covering Weblogic Silent Installation, Domain Creation, start/stop WebLogic admin server and later we verify the

WebLogic console and we create the managed server via console.

Creation of managed servers in new domains – if you decide you want to have your managed servers run in their own domain, WebLogic allows you to clone the existing admin server in the main domain and use it to create a new domain for your new managed server. This is known as "extending managed servers.".
