Application Server

V7.0.0 Fix Pack

13 or later

applied. This separate fix pack must be installed on WebSphere Application Server 7.0 to bring it to a supported level.

SAS 9.3 IBM WebSphere | SAS Support

5.1 Configuring the WebSphere

Application Server for World JAX-WS Web Services. Since Release A.9.3.1, the World Web

Services were updated to use the Java API for XML Web Services

(JAX_WS). In order to run these services on WebSphere

Application Server, there are specific release levels and configuration steps that need to be

used.

WebSphere Application Server welcome page

The end of support date of July 31, 2022, for both Java SE 7.0 and Java SE 7.1 with WebSphere Application Server V8.5.5, now matches the end date of Oracle's extended support of Java SE 7. IBM support for WebSphere Application Server V8.5.5 with Java 7, as provided prior to September 2019, now continues unchanged until the new end of support date.
