The Summer@ICERM 2013 program is designed for a select group of 10-12 undergraduate scholars. Students will work in small groups of two or three, supervised by faculty advisors and aided by teaching assistants. The faculty advisors will provide a list of interesting open problems in geometry and in dynamical systems.
How to convert PathGeometry to StreamGeometry
7) Here is a freebie from me, Teaching High School Math! It is a great one to start students off toward the beginning of algebra or at some time during Pre-Algebra. This is a Maze that students can use to practice solving one and two step equations. Students work their way from one side of the maze to another by solving one or two step equations.
