The day he buried his pa, Nobe Chase lost everything-his father, his home, and his dog, Rex. Worst of all, he had to move into town to live with Sheriff Leonard-dog killer, wife stealer, and secret law-breaker of all sorts. That day, Nobe found a new purpose for his life-revenge. Hate takes over his life, burning out of control inside him. Nobe learns how dangerous hate can be when it is unleashed in a fury of fire and gunpowder during a race riot in nearby Tulsa. When the violence spills over into his hometown, Nobe must decide what kind of man he is going to become-one driven by vengeance or one driven by courage. Based on true events in Tulsa, Oklahoma, during May of 1921, Anna Myers has produced a powerful novel about a young man who must wrestle with his past and find the strength to pull free from the poisonous grip of hatred and abuse.

#1 NEW YORK TIMES BESTSELLER • A memoir of leadership and success: The executive chairman of Disney, Time 's 2019 businessperson of the year, shares the ideas and values he embraced during his fifteen years as CEO while reinventing one of the world 's most beloved companies and inspiring the people who bring the magic to life. NAMED ONE OF THE BEST BOOKS OF THE YEAR BY NPR Robert Iger became CEO of The Walt Disney Company in 2005, during a difficult time.

Competition was more intense than ever and technology was changing faster than at any time in the company 's history. His vision came down to three clear ideas: Recommit to the concept that quality matters, embrace technology instead of fighting it, and think bigger—think global—and turn Disney into a stronger brand in international markets. Today, Disney is the largest, most admired media company in the world, counting Pixar, Marvel, Lucasfilm, and 21st Century Fox among its properties. Its value is nearly five times what it was when Iger took over, and he is recognized as one of the most innovative and successful CEOs of our era. In *The Ride of a Lifetime*, Robert Iger shares the lessons he learned while running Disney and leading its 220,000-plus employees, and he explores the principles that are necessary for true leadership, including:

- Optimism. Even in the face of difficulty, an optimistic leader will find the path toward the best possible outcome and focus on that, rather than give in to pessimism and blaming.
- Courage. Leaders have to be willing to take risks and place big bets. Fear of failure destroys creativity.
- Decisiveness. All decisions, no matter how difficult, can be made on a timely basis. Indecisiveness is both wasteful and destructive to morale.
- Fairness. Treat people decently, with empathy, and be accessible to them. This book is about the relentless curiosity that has driven Iger for forty-five years, since the day he started as the lowliest studio grunt at ABC. It 's also about thoughtfulness and respect, and a decency-over-dollars approach that has become the bedrock of every project and partnership Iger pursues, from a deep friendship with Steve Jobs in his final years to an abiding love of the Star Wars mythology. " The ideas in this book strike me as universal " Iger writes. " Not just to the aspiring CEOs of

the world, but to anyone wanting to feel less fearful, more confidently themselves, as they navigate their professional and even personal lives. "

From the author of *A Tangle of Knots* and *Absolutely Almost*, a touching story about a boy who won't let one tragic accident define him. Everyone says that middle school is awful, but Trent knows nothing could be worse than the year he had in fifth grade, when a freak accident on Cedar Lake left one kid dead, and Trent with a brain full of terrible

thoughts he can't get rid of. Trent's pretty positive the entire disaster was his fault, so for him middle school feels like a fresh start, a chance to prove to everyone that he's not the horrible screw-up they seem to think he is. If only Trent could make that fresh start happen. It isn't until Trent gets caught up in the whirlwind that is Fallon Little—the girl with the mysterious scar across her face—that things begin to change. Because fresh starts aren't always easy. Even in baseball, when a fly ball gets lost in the sun, you have to remember to shift your position to find it. Praise for *Lost in the Sun*: A Publishers Weekly Best Book of the Year! In *Learning Targets*, Connie M. Moss and Susan M. Brookhart contend that improving student learning and achievement happens in the immediacy of an individual lesson--what they call "today's lesson"—or it doesn't happen at all. The key to making today's lesson meaningful? Learning targets. Written from students' point of view, a learning target describes a lesson-sized chunk of information and skills that students will come to know deeply. Each lesson's learning target connects to the next lesson's target, enabling students to master a coherent series of challenges that ultimately lead to important curricular standards. Drawing from the authors' extensive research and professional learning partnerships with classrooms, schools, and school districts, this practical

book - Situates learning targets in a theory of action that students, teachers, principals, and central-office administrators can use to unify their efforts to raise student achievement and create a culture of evidence-based, results-oriented practice. - Provides strategies for designing learning targets that promote higher-order thinking and foster student goal setting, self-assessment, and self-regulation. - Explains how to design a strong performance of understanding, an activity that produces evidence of students' progress toward the learning target. - Shows how to use learning targets to guide summative assessment and grading. Learning Targets also includes reproducible planning forms, a classroom walk-through guide, a lesson-planning process guide, and guides to teacher and student self-assessment. What students are actually doing during today's lesson is both the source of and the yardstick for school improvement efforts. By applying the insights in this book to your own work, you can improve your teaching expertise and dramatically empower all students as stakeholders in their own learning.

Competitive eating vies with family expectations in a funny, heartfelt novel for middle-grade readers by National Book Award winner Pete Hautman. David can eat an entire sixteen-inch pepperoni pizza in four minutes and thirty-six seconds. Not bad. But he knows he can do better. In fact, he 'll have to do better: he 's going to compete in the Super Pigorino Bowl, the world 's greatest pizza-eating contest, and he has to win it, because he borrowed his mom 's credit card and accidentally put \$2,000 on it. So he really needs that prize money. Like, yesterday. As if training to be a competitive eater weren 't enough, he 's also got to keep an eye on his little brother, Mal (who, if the family believed in labels, would be labeled autistic, but they don 't, so they just label him Mal). And don 't even get started on the new weirdness going on between his two best friends, Cyn and HeyMan. Master talent Pete Hautman has whipped up a rich narrative shot through with equal parts humor and tenderness, and the result is a middle-grade novel too delicious to put down.
