The year's program consists of 25 weekly perceptual-motor lessons designed for students in preschool, kindergarten, first to third grade and special education classes.

ALFRED'S Group Piano FOR ADULTS

Simon & Schuster/Paula Wiseman Books
The National Science Education Standards address not only what students should learn about science but also how their learning should be assessed. How do we know what they know? This accompanying volume to the Standards focuses on a key kind of assessment: the evaluation that occurs regularly in the classroom, by the teacher and his or her students as interacting participants. As students conduct experiments, for example, the teacher circulates around the room and asks individuals about their findings, using the feedback to adjust lessons plans and take other actions to boost learning. Focusing on the teacher as the primary player in

assessment, the book offers assessment guidelines and explores how they can be adapted to the individual classroom. It features examples, definitions, illustrative vignettes, and practical suggestions to help teachers obtain the greatest benefit from this daily evaluation and tailoring process. The volume discusses how classroom assessment differs from conventional testing and grading-and how it fits into the larger, comprehensive assessment system.
Just Mercy Houghton Mifflin Harcourt
The Science of Life: Biology Course Description This is the suggested course sequence that allows one core area of science to be studied per semester. You can change the sequence of the semesters per the needs or interests of your student; materials for each semester are independent of one another to allow

flexibility. Semester 1: Intro to Science Have you ever wondered about human fossils, “cave men,” skin color, “ape-men,” or why missing links are still missing? Want to discover when T. Rex was small enough to fit in your hand? Or how old dinosaur fossils are—and how we know the age of these bones? Learn how the Bible’s world view (not evolution’s) unites evidence from science and history into a solid creation foundation for understanding the origin, history, and destiny of life—including yours! In *Building Blocks in Science*, Gary Parker explores some of the most interesting areas of science: fossils, the errors of evolution, the evidences for creation, all about early man and human origins, dinosaurs, and even “races.” Learn how scientists use evidence in the present, how historians use evidence of the past, and discover the biblical world view, not evolution, that puts the two together in a credible and scientifically-sound way! Semester 2: Life Science Study clear biological answers for how science and Scripture fit together to honor the Creator. Have you ever wondered about such captivating topics as genetics, the roll of natural selection, embryonic development, or DNA and the magnificent origins of life? Within *Building Blocks in Life Science* you will discover exceptional insights and clarity to patterns of order in living things, including the promise of healing and new birth in Christ. Study numerous ways to refute the evolutionary worldview that life simply evolved by chance over millions of years. The evolutionary worldview can be found filtered through every topic at every age-level in our society. It has become the overwhelmingly accepted

paradigm for the origins of life as taught in all secular institutions. This dynamic education resource helps young people not only learn science from a biblical perspective, but also helps them know how to defend their faith in the process.

#1 NEW YORK TIMES BESTSELLER •

NOW A MAJOR MOTION PICTURE
STARRING MICHAEL B. JORDAN AND
JAMIE FOXX • A powerful true story about
the potential for mercy to redeem us, and a
clarion call to fix our broken system of
justice—from one of the most brilliant and
influential lawyers of our time. “[Bryan
Stevenson’s] dedication to fighting for justice
and equality has inspired me and many others
and made a lasting impact on our
country.”—John Legend NAMED ONE OF
THE MOST INFLUENTIAL BOOKS OF THE
DECADE BY CNN • Named One of the Best
Books of the Year by The New York Times •
The Washington Post • The Boston Globe •
The Seattle Times • Esquire • Time Bryan
Stevenson was a young lawyer when he
founded the Equal Justice Initiative, a legal
practice dedicated to defending those most
desperate and in need: the poor, the wrongly
condemned, and women and children trapped
in the farthest reaches of our criminal justice
system. One of his first cases was that of
Walter McMillian, a young man who was
sentenced to die for a notorious murder he
insisted he didn’t commit. The case drew
Bryan into a tangle of conspiracy, political
machination, and legal brinkmanship—and
transformed his understanding of mercy and
justice forever. Just Mercy is at once an

unforgettable account of an idealistic, gifted
young lawyer’s coming of age, a moving
window into the lives of those he has defended,
and an inspiring argument for compassion in
the pursuit of true justice. Winner of the
Carnegie Medal for Excellence in Nonfiction •
Winner of the NAACP Image Award for
Nonfiction • Winner of a Books for a Better
Life Award • Finalist for the Los Angeles
Times Book Prize • Finalist for the Kirkus
Reviews Prize • An American Library
Association Notable Book “Every bit as
moving as *To Kill a Mockingbird*, and in some
ways more so . . . a searing indictment of
American criminal justice and a stirring
testament to the salvation that fighting for the
vulnerable sometimes yields.”—David Cole,
The New York Review of Books “Searing,
moving . . . Bryan Stevenson may, indeed, be
America’s Mandela.”—Nicholas Kristof, *The
New York Times* “You don’t have to read too
long to start cheering for this man. . . . The
message of this book . . . is that evil can be
overcome, a difference can be made. Just
Mercy will make you upset and it will make
you hopeful.”—Ted Conover, *The New York
Times Book Review* “Inspiring . . . a work of
style, substance and clarity . . . Stevenson is not
only a great lawyer, he’s also a gifted writer
and storyteller.”—*The Washington Post* “As

deeply moving, poignant and powerful a book
as has been, and maybe ever can be, written
about the death penalty.”—*The Financial Times*
“Brilliant.”—*The Philadelphia Inquirer*

Intermediate/Advanced Simon and Schuster
Celebrate Earth Day with Dr. Seuss and the
Lorax in this classic picture book about
protecting the environment! I am the Lorax. I
speak for the trees. Dr. Seuss’s beloved story
teaches kids to speak up and stand up for those
who can’t. With a recycling-friendly “Go
Green” message, *The Lorax* allows young
readers to experience the beauty of the
Truffula Trees and the danger of taking our
earth for granted, all in a story that is timely,
playful and hopeful. The book’s final pages

teach us that just one small seed, or one small child, can make a difference. Printed on recycled paper, this book is the perfect gift for Earth Day and for any child—or child at heart—who is interested in recycling, advocacy and the environment, or just loves nature and playing outside. Unless someone like you cares a whole awful lot, nothing is going to get better. It's not. "Pretty much all the stuff you need to know is in Dr. Seuss." —President Barack Obama

Charlotte's Web McGraw-Hill Education

When the Sudanese civil war reaches his village in 1985, 11-year-old Salva becomes separated from his family and must walk with other Dinka tribe members through southern Sudan, Ethiopia and Kenya in search of safe haven. Based on the life of Salva Dut, who, after emigrating to America in 1996, began a project to dig water wells in Sudan. By a Newbery Medal-winning author.

A Caldecott Honor book, a New York Times Best Illustrated book, an ALA Notable Book, and a

Boston Globe—Horn Book Honor Book for Illustration! "Bursting with...surprise and delight. An inexhaustible visual feast." —Kirkus Reviews (starred review) In this acclaimed picture book by Anita and Arnold Lobel, take a stroll down Market Street to see the whimsical shopkeepers dressed in their wares on one boy's fantastical shopping adventure. Enter a wondrous marketplace like no other that has everything from A to Z! Inspired by 17th-century French engravings, Anita Lobel's delightful illustrations imaginatively clothe each shopkeeper in their wares. Find one shopkeeper dressed completely in gloves, another covered in wigs, and even one completely dressed in oranges! This beautiful and unique tale takes you on a journey through the alphabet as you discover all the things one boy buys for his special friend during an incredible shopping trip.

[Reading Wonders Literature Anthology Grade 5](#) Nelson Thornes

Describes how President Theodore Roosevelt, on a camping trip with naturalist John Muir in Yosemite National Park, decided to support conservation, setting aside new national parks to preserve wilderness lands for future generations.

[Donavan's Word Jar](#) Feiwel & Friends

Presents a multifaceted model of understanding, which is based on the premise that people can demonstrate understanding in a variety of ways.

Understanding by Design Macmillan

International Higher Education

The untold story of the root cause of America's education crisis--and the seemingly endless cycle of multigenerational poverty. It was only after years within the education reform movement that Natalie Wexler stumbled across a hidden explanation for our country's frustrating lack of progress when it comes to providing every child with a quality education. The problem wasn't one of the usual scapegoats: lazy teachers, shoddy facilities, lack of accountability. It was something no one was talking about: the elementary school curriculum's intense focus on decontextualized reading comprehension "skills" at the expense of actual knowledge. In the tradition of Dale Russakoff's *The Prize* and Dana Goldstein's *The Teacher Wars*, Wexler brings together history, research, and compelling characters to pull back the curtain on this fundamental flaw in our education system--one that fellow reformers, journalists, and policymakers have long overlooked, and of which the general public, including many parents, remains unaware. But The

Knowledge Gap isn't just a story of what schools have gotten so wrong--it also follows innovative educators who are in the process of shedding their deeply ingrained habits, and describes the rewards that have come along: students who are not only excited to learn but are also acquiring the knowledge and vocabulary that will enable them to succeed. If we truly want to fix our education system and unlock the potential of our neediest children, we have no choice but to pay attention.
